The International Ergonomics Association (IEA) is currently developing standards for Ergonomic Quality in Design (EQUID) which primarily intends to promote ergonomics principles and the adaptation of a process approach for the development of products, work systems and services. It is important to assess the ergonomic quality of products, hand-held tools and computer input devices through working processes that represent reality. Well-designed working tools can be expected to reduce or eliminate fatigue, discomfort, accidents and health problems and they can lead to improvements in productivity and quality. Furthermore, absenteeism, job turnover and training costs can positively be influenced by the working tools and the environment. Not all these short-term and long-term issues of working tools can be quantified in pragmatically oriented ergonomic research approaches. But multi-channel electromyography, which enables the measurement of the physiological costs of the muscles involved in handling tools during standardized working tests, and subjective assessments of experienced subjects enable a reliable insight in the essential ergonomic criteria of working tools and products. In this respect it is advantageous to provide a test procedure, in which working tests can be carried out alternating both with test objects and reference models.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

"The leading single-volume English thesaurus explores the richness of the English language with

hundreds of thousands of synonyms and antonyms, and thousands of example sentences drawn from the Oxford English Corpus; finds the word you need quickly with carefully chosen and arranged synonyms; broadens your vocabulary and finds solutions to word puzzles and crosswords with hundreds of thematic word lists; and helps express yourself more accurately with hundreds of 'Choose the Right Word' boxes exploring the difference between similar words." --Book Jacket. **Hearings, Reports and Prints of the House Committee on Appropriations** Pearson South Africa There is a legend among the animals. Long ago, a great tiger, known as Arznel, led an uprising against the humans, in a bid to save the world from destruction. But Arznel was defeated, captured and never seen again. Hope remains, that one day he will be free, and the great revolution can begin anew. But where is Arznel? And who can rescue him? Dreamer, a young fox, embarks on a journey through the Irish countryside, in search of a new home. With him are Victor, the badger, and Rush, the hare. The three friends take refuge in the beautiful nature sanctuary of Lough Ine. Here, they discover the legend of Arznel, but before they can do anything to help him, they must first struggle with love, faith, adolescence, inter-species racism and... poachers.

In Russia's Far East sits the wild Ussuri Kray, a region known for its remote highlands and rugged mountain passes where tigers and bears roam the cliffs, and salmon and lenok navigate the rivers. In this collection of travel writing by famed Russian explorer and naturalist Vladimir K. Arsenyev (1872-1930), readers are shuttled back to the turn of the 20th century when the Russian Empire was reeling from its defeat in the Russo-Japanese War (1904-1905) and vulnerable to its Far Eastern neighbors. What began as an expedition to survey the region's infrastructure for the Russian military turned into an adventure through a territory rich in ethnic and ecological diversity. Encountering the disappearing indigenous cultures of the Nanai and Udege, engaging the help of Korean farmers and Chinese hunters, and witnessing the beginning of indomitable Russian settlement, Arsenyev documents the lives and customs of the region's inhabitants and their surroundings. Originally written as "a popular scientific description of the Kray," this unabridged edition includes photographs largely unseen for nearly a century and is annotated by Jonathan C. Slaght, a biologist working in the same forests Arsenyev explored. Across the Ussuri Kray is a classic of northeast Asian cultural and natural history.

Badger's Moon Princeton University Press

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-

gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

Wisconsin in Story and Song; B Selections from the Prose and Poetry of Badger State Writers Ballantine Books

An ambitious interpretation of the critically celebrated and widely popular crime drama *Breaking Bad*, this book argues that not only should the series be understood as a show that revolves around the dramatic stakes of dignity, but that to do so reveals - in new ways - central aspects of serial television drama as an art form.

In this tribute to a pioneer conservationist, Duane M. Leach celebrates the life of an exceptional ranch manager on a legendary Texas ranch, a visionary for wildlife and modern ranch management, and an extraordinarily dedicated and generous man. Caesar Kleberg went to work on the King Ranch in 1900. For almost thirty years he oversaw the operations of the sprawling Norias division, a vast acreage in South Texas where he came to appreciate the importance of rangeland not only for cattle but also for wildlife. Creating a wildlife management and conservation initiative far ahead of its time, Kleberg established strict hunting rules and a program of enlightened habitat restoration. Because of his efforts and foresight, by his death in 1946 there were more white-tailed deer, wild turkey, bobwhite quail, javelinas, and mourning dove on the King Ranch than in the rest of the state. Kleberg's legacy lives on at the Caesar Kleberg Wildlife Research Institute in Kingsville, where a research program he helped found has gained recognition far beyond the pastures of Norias.

Annual International Industrial Engineering Conference Springer

Using memorable caricatures to highlight the effects of your behaviour as a leader, this book offers a powerful model for effective leadership *Are you a Badger or a Doormat?* provides you with clear instructions and simple self-coaching processes which will propel you along the path to leadership success. The truly classic Australian story of Tom Kruse - legendary mailman of the Birdsville Track. For the people who lived in the desert between Marree and Birdsville, contact with the outside world was hard and sporadic - but one man was their lifeline: Tom Kruse. For more than twenty years he was the connection with the outside world for the families, station workers and others who lived along the Birdsville Track. Tom delivered everything from the mail and newspapers to fuel and food - whole communities waited in anticipation for him to drop off their supplies. But it was a hard life, from regularly making running repairs to his truck to unloading and reloading tons of stores so that he could ferry his cargo across flooded creeks. Come sandhills, hell or high water, Tom Kruse kept faith with the locals up and down the Track. Tom was a real Australian hero - and no matter what happened, the mail always got through. 'Told with honesty and vigour' - Sydney Morning Herald 'A tribute to a man who earned the love of a whole generation of Australians and shows us that the pioneer characteristics of guts and good-natured stoicism are still beautiful' - The Age 'Full of characters' - Daily Telegraph

"...an entertaining and unusual record of a year's activities with a pack of Jack Russell terriers, half a dozen lurchers, as many ferrets and a varied cast of human characters". Terrier, lurcher and ferret breeding, lots of rat hunting as well as rabbiting, a bit of falconry and much else besides.

Also includes an inside account of the television documentary which was made about the author, Rat Hunting Man.

Are you a badger or a doormat? Indiana University Press

A fantastic fairy myth-debunking series from Go Girl author Meredith Badger. Every time Elly goes to a new fairy school, it ends in disaster, but this week, Elly is going undercover at her friend Jess's South Street School. Human school "should" be a piece of cake. No spells. No flying. Just normal human stuff. But Elly's fairy blunders make her feel like she's been living under a toadstool. Plus, there's something fishy going on. All the girls are into fairies, and Elly smells magic. Is she really the only fairy at South Street School?

Dr. Smith went to the Naval Aviation cadet program after college and flew with an all weather

squadron based at Quonset Point in the 1950s. His story takes you through the whole scenario from cadet to experienced carrier pilot with sea duty in the Mediterranean, Caribbean and the Arctic on the carriers Randolph and Saratoga before he left the navy for a medical career. Secretary of the Air Force and Chief of Staff : Secretary of the Navy and Chief of Naval Operations : Financial overview of FY 1974 budget, Tuesday, May 8, 1973 Texas A&M University Press
In October of 667 A.D., Fidelma of Cashel - sister to the one of kings of Ireland, a religieuse of the Celtic Church, and an advocate of the Brehon courts - is struggling with her most challenging role yet, that of mother to her infant son Alchu. So it is with mixed feelings that she receives the summons from Abbot Brogan. There have been a series of shocking murders that have terrorized the villagers near the Abbey of Finbarr; three young girls have been violently slaughtered - one per month of the night of the full moon, the most recent only days before during the badger's moon, October's full moon. The villagers are angrily demanding answers from the abbey, who are housing three visitors from faraway--strangers who the villagers believe are behind the gruesome murders. As a respected Brehon, Fidelma, along with her companion Brother Eadulf, is dispatched by her brother the king to restore order to the panicked village and investigate the killings. But time is running out and Fidelma must act quickly, uncovering the complicated truth before the next full moon comes and the lunatic killer strikes again.
