Writing Environments Dark Horse Comics

This award-winning collection moves from the dark and technically astonishing title essay—on growing up within the confines of a huge Army arsenal in Ohio—to reflections on mountain hikes, limestone quarries, and fathers teaching their sons.

Writing from the Center Simon and Schuster

Writing from the Center is about one very fine writer's quest for a meaningful and moral life. The center he seeks and describes is geographical, emotional, artistic, and spiritual - and it is rooted in place. The geography is midwestern, the impulses are universal. Where and how do we find meaning? Where does a writer find inspiration? How can personal, artistic, family, and community needs be blended to create a harmonious life? What aids exist in such a ""located"" life against despair? How should a writer relate to and represent his place? Twelve interrelated essays probe these questions from different perspectives. ""Buckeye"" examines the resonance of objects and the mysteries of relationships and death. ""Imagining the Midwest"" surveys how other writers have seen and related to their region. ""The Common Life"" makes an eloquent case for community values. ""Sanctuary"" is an eloquent and painful consideration of environmental degradation. ""Writing from the Center"" and ""Letter to a Reader"" deal with Sanders's decisions to locate in the Midwest, to know his place, and to write about it in both fiction and nonfiction.

Vampires in the Lemon Grove Simon and Schuster

This story collection by the acclaimed author and conservationist “sparks with brilliant imagery” in tales of dystopian worlds and human resilience (Teresa Milbrodt, author of *Bearded Women: Stories*). Fans of Scott Russell Sanders, the Lannan Literary Award-winning essayist and author of *The Conservationist Manifesto*, may be surprised to learn he was one of the brightest science-fiction newcomers of the 1980s. In *Dancing in Dreamtime*, Sanders returns to his sci-fi roots, exploring both inner and outer space in a speculative collection of short stories. At a time when humankind faces unprecedented, global-scale challenges from climate change, loss of biodiversity, dwindling vital resources, and widespread wars, this collection of planetary tales will strike a poignant chord with the reader. Sanders has created worlds where death tolls rise due to dream deprivation, where animals only exist in mechanical form, and where people are forced to live in biodomes to escape poisoned air. “Clear-eyed and philosophical” these vividly imagined stories combine “intellectualism with magical realism in an uncommon unity of mind and spirit” (Shelf Awareness).

Approaches abound to help us beneficially, enjoyably read fiction, poetry, and drama. Here, for the first time, is a book that aims to do the same for the essay. G. Douglas Atkins performs sustained readings of more than twenty-five major essays, explaining how we can appreciate and understand what this currently resurgent literary form reveals about the “art of living.” Atkins’s readings cover a wide spectrum of writers in the English language--and his readings are themselves essays, gracefully written, engaged, and engaging. Atkins starts with the earliest British practitioners of the form, including Francis Bacon, John Dryden, Alexander Pope, and Samuel Johnson. Transcendentalist writers Henry David Thoreau and Ralph Waldo Emerson are included, as are works by Americans James Baldwin, Zora Neale Hurston, and E. B. White. Atkins also provides readings of a number of contemporary essayists, among them Annie Dillard, Scott Russell Sanders, and Cynthia Ozick. Many of the readings are of essays that Atkins has used successfully in the classroom, with undergraduate and graduate students, for many years. In his introduction Atkins offers practical advice on the specific demands essays make and the unique opportunities they

offer, especially for college courses. The book ends with a note on the writing of essays, furthering the author’s contention that reading should not be separated from writing. Reading Essays continues in the tradition of such definitive texts as *Understanding Poetry* and *Understanding Fiction*. Throughout, Atkins reveals the joy, delight, grace, freedom, and wisdom of “the glorious essay.”

"Writing Environments addresses the intersections between writing and nature through interviews with some of America's leading environmental writers. The interviews are followed by critical responses from writing scholars. This diverse range of voices speaks lucidly and captivantly about topics such as place, writing, teaching, politics, race, and culture, and how these overlap in many complex ways."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. "Good places are shaped by the gifts of nature and by the labor and love of many people over generations. The city of Bloomington, tucked away in the forested hills of southern Indiana, is one such place. Three of us who have worked here, played here, reared children here, and set our roots right down to the limestone bedrock made this book to chronicle and celebrate our home town." Thus begins *Bloomington Past and Present*, a volume that anyone who has lived in--or even just passed through--this memorable city will want to have and pass down to future generations of Bloomingtonians. Photojournalist Will Counts gathered some of his own photographs taken over a long career, along with photographs by more than a dozen other fine artists. Some drawn from archives, some taken recently, these images capture the city's people and places. The essay "Loving This Place" by Scott Russell Sanders leads the reader on a walk through Bloomington today, evoking the feel of the city, its human fabric and natural setting. In "Old Times and New Times in Bloomington," James H. Madison writes about what Bloomington once was, tracing changes in the community from the 19th century on through today's complex and vibrant civic scene. "Across from the fire station and post office rises the limestone mass of First Methodist, the grandest of our churches, one known for fine music and powerful preaching. In general, as you move west from here to the far fringes of Bloomington, the preaching becomes hotter and hotter, ranging from Baptists and African Methodist Episcopalians on through various brands of evangelicals, apostolics, and Pentecostals; and as you move east from here the preaching generally becomes cooler, ranging from Presbyterians and Episcopalians, through Catholics and Lutherans, on out to the Quakers, who keep their silence." --Scott Russell Sanders "There were Bloomington residents at the beginning of the twenty-first century who had heard the Metropolitan Opera perform *Aida* in the University Auditorium in 1942; given their sex histories to Alfred Kinsey in the 1940s; subjected their teeth to the stannous fluoride tests that produced Crest toothpaste in the early 1950s; listened to Gene McCarthy and Bobby Kennedy explain why the Vietnam War was wrong in 1968; heard not only Elvis but also Bill Monroe, the Supremes, and Ray Charles; participated eagerly in a new curbside recycling program begun in the early 1990s; bought sushi and tofu at the grocery store; and listened to the Dalai Lama more than once. The small town in southern Indiana was hardly isolated or ordinary." --James H. Madison

Class differences permeate the neighborhoods, classrooms, and workplaces where we lead our daily lives. But little is known about how class really works, and its importance is often downplayed

or denied. In this important new volume, leading sociologists systematically examine how social class operates in the United States today. *Social Class* argues against the view that we are becoming a classless society. The authors show instead the decisive ways social class matters—from how long people live, to how they raise their children, to how they vote. The distinguished contributors to *Social Class* examine how class works in a variety of domains including politics, health, education, gender, and the family. Michael Hout shows that class membership remains an integral part of identity in the U.S.—in two large national surveys, over 97 percent of Americans, when prompted, identify themselves with a particular class. Dalton Conley identifies an intangible but crucial source of class difference that he calls the "opportunity horizon"—children form aspirations based on what they have seen is possible. The best predictor of earning a college degree isn't race, income, or even parental occupation—it is, rather, the level of education that one's parents achieved. Annette Lareau and Elliot Weininger find that parental involvement in the college application process, which significantly contributes to student success, is overwhelmingly a middle-class phenomenon. David Grusky and Kim Weeden introduce a new model for measuring inequality that allows researchers to assess not just the extent of inequality, but also whether it is taking on a more polarized, class-based form. John Goldthorpe and Michelle Jackson examine the academic careers of students in three social classes and find that poorly performing students from high-status families do much better in many instances than talented students from less-advantaged families. Erik Olin Wright critically assesses the emphasis on individual life chances in many studies of class and calls for a more structural conception of class. In an epilogue, journalists Ray Suarez, Janny Scott, and Roger Hodge reflect on the media's failure to report hardening class lines in the United States, even when images on the nightly news—such as those involving health, crime, or immigration—are profoundly shaped by issues of class. Until now, class scholarship has been highly specialized, with researchers working on only one part of a larger puzzle. *Social Class* gathers the most current research in one volume, and persuasively illustrates that class remains a powerful force in American society.

Scott Russell Sanders reveals how the pressure of the sacred breaks through the surfaces of ordinary life—a life devoted to grown-up children and aging parents, the craft of writing, and the natural world. Whether writing to his daughter and his son as each prepares to get married, or describing an encounter with a red-tailed hawk in whose form he glimpses his dead father, or praising the disciplines of writing and carpentry and teaching, Sanders registers, in finely tuned prose, the force of spirit.

With *The Angel on the Roof*, Russell Banks offers readers an astonishing collection of thirty years of his short fiction, revised especially for this volume and highlighted by the inclusion of nine new stories that are among the finest he has ever written. As is characteristic of all of Bank's works, these stories resonate with irony and compassion, honesty and insight, extending into the vast

territory of the heart and the world, from working-class New England to Florida and the Caribbean and Africa. Broad in scope and rich in imagination, *The Angel on the Roof* affirms Russell Banks's place as one of the masters of American storytelling.

Marriage's central role in The Church of Jesus Christ of Latter-day Saints distinguishes the faith while simultaneously reflecting widespread American beliefs. But what does Latter-day Saint marriage mean for men? Holly Welker presents a collection of essays exploring this question. The essayists provide insight into challenges involving sexuality, physical and emotional illness, addiction, loss of faith, infidelity, sexual orientation, and other topics. Conversational and heartfelt, the writings reveal the varied experiences of Latter-day Saint marriage against the backdrop of a society transformed by everything from economic issues affecting marriage to evolving ideas about gender. An insightful exploration of the gap between human realities and engrained ideals, *Revising Eternity* sheds light on how Latter-day Saint men view and experience marriage today. *The Woman in the Window* Vintage

The stakes for love are sky-high No one can do A-list glitz and glamour like public relations consultant Nina Torres. But the sensual Nina is putting more than his job as head of security at risk. And when their fiery clash of wills ignites a passion that leaves them both wanting more, there's no turning back. Now Scott will need everything in his arsenal to protect Nina from past and present dangers. Together, are they ready to gamble on the most priceless jackpot of all?

A Conservationist Manifesto London, Ont. : Galt House

An original and searching memoir from "one of America's finest essayists" (Phillip Lopate) When Scott Russell Sanders was four, his father held him in his arms during a thunderstorm, and he felt awe—"the tingle of a power that surges through bone and rain and everything." He says, "The search for communion with this power has run like a bright thread through all my days." *A Private History of Awe* is an account of this search, told as a series of awe-inspiring episodes: his early

memory of watching a fire with his father; his attraction to the solemn cadences of the Bible despite his frustration with Sunday-school religion; his discovery of books and the body; his mounting opposition to the Vietnam War and all forms of violence; his decision to leave behind the university life of Oxford and Harvard and return to Indiana, where three generations of his family have put down roots. In many ways, this is the story of a generation's passage through the 1960s—from innocence to experience, from euphoria to disillusionment. But Sanders has found a language that captures the transcendence of ordinary lives while never reducing them to formula. In his hands, the pattern of American boyhood that was made classic by writers from Mark Twain to Tobias Wolff is given a powerful new charge.

Turning to Earth offers a window into the heart of environmental change, moving beyond the culture's traditional reliance on policy reforms and technological measures. It charts the course of "ecological conversion," a dynamic inner process by which people come to ally themselves with the natural world and speak out on its behalf. Stories by ecological converts illuminate a critical realm long neglected by environmental scholars and activists—how the terrain of spirit, psyche, and conscience shape our commitment to Earth. Marina Schaffler's engaging exploration of "inner ecology" deftly weaves together numerous autobiographical accounts with insights from the fields of ecocriticism, ecopsychology, environmental philosophy, and environmental education. An opening portrait of the writer and activist Terry Tempest Williams traces her deepening devotion to Earth. Each subsequent chapter explores a key element of ecological conversion, drawing primarily on the personal testimony of Williams and five other pioneering writers: Rachel Carson, Alice Walker, Edward Abbey, Scott Russell Sanders, and N. Scott Momaday. Turning to Earth extends the parameters of contemporary environmental discussion by illustrating how substantive change hinges not just on political and institutional reforms but also on profound inner transformation. The compelling life narratives of ecological converts provide inspiration and direction for the growing number of activists, educators, scholars, and citizens committed to changing the world from the inside out.

Winner of the Nero Wolfe Award It is 1921 and Mary Russell--Sherlock Holmes's brilliant apprentice, now an Oxford graduate with a degree in theology--is on the verge of acquiring a sizable

inheritance. Independent at last, with a passion for divinity and detective work, her most baffling mystery may now involve Holmes and the burgeoning of a deeper affection between herself and the retired detective. Russell's attentions turn to the New Temple of God and its leader, Margery Childe, a charismatic suffragette and a mystic, whose draw on the young theology scholar is irresistible. But when four bluestockings from the Temple turn up dead shortly after changing their wills, could sins of a capital nature be afoot? Holmes and Russell investigate, as their partnership takes a surprising turn in *A Monstrous Regiment of Women* by Laurie R. King.

In the hands of award-winning writer Scott Russell Sanders, the essay becomes an inquisitive and revelatory form of art. In 30 of his finest essays—nine never before collected—Sanders examines his Midwestern background, his father's drinking, his opposition to war, his literary inheritance, and his feeling for wildness. He also tackles such vital issues as the disruption of Earth's climate, the impact of technology, the mystique of money, the ideology of consumerism, and the meaning of sustainability. Throughout, he asks perennial questions: What is a good life? How do family and culture shape a person's character? How should we treat one another and the Earth? What is our role in the cosmos? Readers and writers alike will find wisdom and inspiration in Sanders's luminous and thought-provoking prose.
