TRISTIAN ANDREW

A History of Lace
Courier Corporation
To create her stunning
coloured bobbin lace

designs, award-winning
lacemaker Sandi
Woods often takes
inspiration from the
letters of the alphabet,
shaping, manipulating
and combining them to
form organic, sinuous

shapes. She likens the process to the game 'Chinese Whispers' - a pattern starts as a simple letter, but is developed further, often until the original form is barely recognizable. Sandi's painterly use of coloured thread to suggest shape and form adds further beauty to her work. This fully illustrated book contains instructions for the exquisite 'Leafy Glade Alphabet'. Each letter has one basic template but two alternative designs, one using simple bobbin lace stitches, the other using more complex Milanese braids. Though each letter is worked in a different set of colours, all the colourways are interchangeable, and, of course, they can be

worked in white. The book then goes on to include 24 more abstract designs, such as 'Chinese Seedling' and 'Blackthorn Sprig', all of which were originally developed from the letters of the alphabet.

Comprehensive instructions are given for each pattern, including prickings, linear outlines, pin reference charts and full pin-by-pin directions.

Pillow Or Bobbin Lace B

T Batsford Limited
Explore the world of Bobbin Lace with this book, which takes you through simple Torchon ground pieces to scarves, purse and bags. 'Bobbin lace may look complicated when you see a pillow set up with dozens of bobbins, but it will seem far less daunting when you

realise that only four bobbins (two pairs) are in use at any one time, and there are only two moves twist and cross that you can do.' 'While the basic lace stitches are common to all types of bobbin lace, different lacemaking traditions developed different ways of putting these stitches together. Bruges lace, for example, uses less than a dozen pairs of bobbins and a relatively coarse thread to create curved braids and flower-like motifs which are linked to form the fabric; on the other hand point ground laces, such as Chantilly or Bucks Point, are worked from one end to the other in fine silk or cotton and may need a hundred pairs or more.' An extensive techniques section

makes lacemaking clear, simple and enjoyable. Five full step-by-step projects with pricking patterns. Gives advice on adding decorative features, beads and tassels. Suitable for both beginners and more experienced lacemakers. A clearly illustrated step-by-step guide to all the stitches and techniques needed to create beautiful bobbin lace. Includes prickings and easy-to-follow photographs showing how to use them. Provides full instructions for a selection of colourful Torchon lace projects using a variety of yarns: a bag, a purse, a scarf and a cushion. The Magic of Shetland Lace Knitting UPNE This manual is intended as a primer for the newcomer to

bobbin lacemaking, containing information on reading patterns, mounting lace in a variety of ways, and advice on changing the scale of the lace using different grids and a variety of threads.

"In this heartfelt tale of labor and love, Ernst produces one of her most winning

combinations of historical evocation and clever mystery."—Kirkus Reviews Greed, Uncertainty, and Death Get Tangled in the Mystery of a Rare Piece of Belgian Lace Curator Chloe Ellefson needs distraction from the unsettling family secret she's just learned. It doesn't help that her boyfriend, Roelke McKenna, has been troubled for weeks and won't say why. Chloe hopes a consulting job at Green Bay's Heritage Hill Historical Park, where an old Belgian-American farmhouse is being restored, will be a relaxing escape. Instead she discovers a body in a century-old bake oven. Chloe's research suggests that a rare and valuable piece of lace made its

way to nearby Door County, Wisconsin, with the earliest Belgian settlers. More importantly, someone is desperate to find it. Inspired by a courageous Belgian woman who survived cholera, famine, and the Great Fire, Chloe must untangle clues to reveal secrets old and new...before the killer strikes again.

collection of 50
stunning lace patterns
that showcase the
delicate beauty of this
ever-popular lace.
Traditionally, the
ornate braids that
make up Milanese lace

convoluted floral
patterns, but they are
also easily adapted for
use in more modern
designs. This new book
of patterns contains
both traditional and
modern examples, and
the author experiments
with different
decorative styles - for
example, Celtic
lettering that is vibrant
with the colours of
original Celtic art,
taken into a new
dimension with the
addition of Milanese

braids. Exquisite miniatures in a Japanese style will be a challenge even for the most experienced lacemaker: the smallest patterns are not necessarily the easiest! Other patterns include flowers, scrolls, leaves and butterflies, plus some more unusual designs: dragons, a picture depicting the legend of Arion and the dolphin, and a spectacular piece featuring the mythical seven-headed Hydra. There is a good range of patterns, including both prickings and photographs of the finished pieces, suitable for abilities ranging from beginner to advanced.
