 Monet was the most typical and the most individual Impressionist painter. But while the painter was faithful and persevering in the pursuit of his motifs, his personal life followed a more restless course. Parisian by birth, he discovered painting as a youth in the provinces, where one of his homes, Argenteuil, has come to represent the artistic flowering and official establishment of Impressionism as a movement.

Childhood illness and injuries steered Henri de Toulouse-Lautrec (1864-1901) away from customary rural aristocratic avocations and toward a profession as an artist. He became a painter, draftsman, and lithographer whose work was immersed in famously hedonistic, fin-de-siècle Paris. In his hands, advertising posters were raised to a high art; he portrayed the nightlife of Montmartre-circuses, cafés, dance halls, and brothels-with clear, bold color and a certain seamy panache that is instantly recognizable as his. His much mythologized life has found its way into many biographies and

into two feature-length movies called *Moulin Rouge*. Lavishly illustrated with 370 color plates, *Toulouse-Lautrec and Montmartre* is the first major work to present the artist's oeuvre in the context of Montmartre's lively art scene from roughly 1885 to 1901. Accompanying an exhibition of the same name at the National Gallery of Art and The Art Institute of Chicago, the book features the important paintings, drawings, prints, and posters Toulouse-Lautrec made on Montmartre subjects. It also includes masterpieces by contemporaries he inspired or who inspired him—Degas, Van Gogh, Picasso, and others—as well as rarely seen illustrations,

lithographs, photographs, and ephemera of the era. And it discusses the artists, writers, actors, singers, and dancers who formed Toulouse-Lautrec's circle. The book's gracefully written essays by Richard Thomson, Phillip Dennis Cate, and Mary Weaver Chapin, with Florence E. Coman, address these themes in light of the rise of the color poster, the proliferation of new forms of entertainment, and the emergence of a celebrity-oriented popular culture. *Toulouse-Lautrec and Montmartre* evokes a colorful, chaotic era, and adds a new dimension to our understanding of the art of Toulouse-Lautrec.

Animal expressions:

Franz Marc's search for a universal art Franz Marc (1880-1916)

became known

principally for his

images of animals:

blue horses, yellow

tigers, red fawns. What

was it that led him to

concentrate on

painting animals? Marc

himself explained his

choice of subject

matter in these words:

"From an early date I

felt humankind to be

'ugly'; animals seemed

to me possessed of a

greater beauty and

purity..." Seeing Marc

merely as a painter of

animals proves,

however, premature.

Marc, cofounder of the

Blauer Reiter group of

Expressionist artists,

was deeply dissatisfied

with the impurity of the

world, and was on a

quest for a universal

art which would

resolve the

contrarities of life in

the harmony of

creation. Using pure

colors highly charged

with symbolic values,

adopting crystalline

shapes, and absorbing

the influence of

Cubism, he moved

steadily towards an

abstract order of

image, coming closer

to his own

understanding of a

better world. At the

age of 36, Franz Marc's

life was cut short when

he died in the Battle of

Henry Holt and Company
Though deeply engaged with painting and drawing, Toulouse-Lautrec's lasting contribution to artistic practice was as a graphic artist. Through his prints and posters, advertisements, and contributions in reviews and

magazines, he brought the language of the late-nineteenth-century French avant-garde to a broad public. He ushered in the first print boom of the modern era; taking advantage of lithography's new potential for colour and scale, he made both posters for the streets of Paris and prints for the new bourgeois collector's living room. During his short career, he created more than 350 prints and 30 posters, as well as lithographed theatre programmes and covers for books and sheet music. The Museum of Modern Art's collection of this material is stellar, encompassing over 100 prints and posters, his most important book projects, and many magazines,

journals and other examples of printed ephemera. Featuring an overview essay by Sarah Suzuki, Associate Curator in the Department of Drawings and Prints at MoMA, this publication presents thematically organized groupings of Toulouse-Lautrec's prints from the Museum's collection, each accompanied by an illuminating essay on the theme.

First published in 1997. For this second edition of Art Books: A Basic Bibliography of Monographs on Artists, the vast number of new books published since 1985 was surveyed and evaluated. This has resulted in the selection of 3,395 additional titles. These selections, reflective of the increase in the monographic literature on artists during the last ten years, are evidence of the activities of a larger number of art historians in more countries worldwide, of the increasingly diverse and ambitious exhibition programs of museums whose number has also

increased dramatically, and also of a lively international art market and the attendant gallery activities. The selections of the first edition have been reviewed, errors have been corrected and important new editions and reprints have been noted. The second edition contains 278 names of artists not represented in the first edition.

Toulouse-Lautrec

Abrams Books for Young Readers
 "Toulouse-Lautrec will examine the artist's abilities as an acute observer of Parisian life, his skill as a draughtsman, his experimentation in composition and the brilliance of his technical execution in all media. The exhibition will shed

new light on Toulouse-Lautrec through an examination of his involvement in Parisian culture - the high life and the low life. The exhibition will trace Toulouse-Lautrec's career from his earliest works to his extraordinary depictions of the Paris social scene, the dance halls, the café-concerts, the brothels and theatres. This he did in an insightful way, capturing the essence of his Parisian characters and haunts. Toulouse-Lautrec's subject matter was to become thoroughly modern and he became an influential figure in the evolution of the art of the twentieth century."--
