Nobody Panic Carolrhoda Books

When a group of outcasts with extraordinary abilities comes out of hiding, their clash with a violent society will spark a revolution—or an apocalypse. “Much like the X-Men comics, Proehl masterfully uses science fiction as a lens to examine social inequality and human evil.”—Booklist Avi Hirsch has always known his daughter was different. But when others with incredible, otherworldly gifts reveal themselves to the world, Avi realizes that her oddness is something more—that she is something more. With this, he has a terrifying revelation: Emmeline is now entering a society where her unique abilities unfairly mark her as a potential threat. And even though he is her father, Avi cannot keep her safe forever. Emmeline soon meets others just like her: Carrie Norris, a teenage girl who can turn invisible . . . but just wants to be seen. Fahima Deeb, a woman with an uncanny knack for machinery . . . but it’s her Muslim faith that makes the U.S. government suspicious of her. They are the nobody people—ordinary individuals with extraordinary gifts who want one only thing: to live as equals in an America that is gripped by fear and hatred. But the government is passing discriminatory laws. Violent mobs are taking to the streets. And one of their own—an angry young man seething with self-loathing—has used his power in an act of mass violence that has put a new target on the community. The nobody people must now stand together and fight for their future, or risk falling apart. The first book of a timely two-part series, The Nobody People is a powerful novel of love and hope in the face of bigotry that uses a world touched by the fantastic to explore our current reality. It is a story of family and community. It is a story of continuing to fight for one another, no matter the odds. It is the story of us. Bob Proehl will return with The Somebody People!

The Nobody People Hodder & Stoughton

Marysia Kawczak is growing up in the gray flatlands of Poland, where she feels she is predestined to become -- like her mother -- a house slave, "a 210-pound lump of fat with varicose veins." At the age of fifteen, Marysia moves with her parents to the nearest big city, where she meets two streetwise girls, Kasia and Eva, who -- each in her own way -- begin to teach Marysia the secrets of life. Marysia's drab outlook suddenly gains color as she discovers not only the ostensible ways of the world, but also the subtler experiences of love, sex, desire, passion, and -- finally, in the novel's breathtaking conclusion -- betrayal. Combining elements of straightforward contemporary fiction, the metaphysical, fairy tales, and the epic, richly layered styles of Dostoevsky, Flaubert, and Mann, and -- perhaps above all -- brilliantly capturing the affectless voice of a young girl, Tomek Tryzna has made an astonishing literary debut. This dazzling novel is sure to be widely discussed and lavishly praised.

The Diary of a Nobody is a comic masterpiece that has been hugely influential since its first publication in 1892. Part of the Macmillan Collector’s Library; a series of stunning, clothbound, pocket sized classics with gold foiled edges and ribbon markers. These beautiful books make perfect gifts or a treat for any book lover. This edition features Weedon Grossmith’s original illustrations and an afterword by novelist Paul Bailey. Proud to be ensconced with his wife Carrie at ‘The Laurels’ in the desirable London suburb of Holloway, bank clerk Charles Pooter decides to keep a diary. From the frequent visits from his dear friends Mr Cummings and Mr Gowing to the ups and downs of his feckless son Lupin, the self-regarding Mr Pooter considers, mistakenly, that all aspects of his life are worthy of note. The result is a hilarious spoof and a perfectly pitched satire on late Victorian society.

A collage of water stories from the Odyssey, reconstructed as a mesmeric and hallucinatory book-length poem by acclaimed poet Alice Oswald. In Memorial, her unforgettable transformation of the Iliad, Alice Oswald breathed new life into myth. In Nobody, she returns to Homer, this time fixing her gaze on a minor character in the Odyssey—a poet abandoned on a stony island—and the sea that surrounds him. Familiar voices drift in and out of the poem; though there are no proper names, we recognize Helios, Icarus, Alcyone, Philoctetes, Calypso, Clytemnestra, Orpheus, Poseidon, Hermes, and the presiding spirit of Proteus, the shape-shifting sea-god. As with all of Oswald’s work, this is poetry that is made for the human voice, but here the language takes on the qualities of another element: dense, muscular, and liquid. Reading Nobody is like watching the ocean; we slip our earthly moorings and follow the circling shoal of sea voices into a mesh of sound and light and water—fluid, abstract, and moving with the wash of waves.

What if we could imagine hierarchy not as a social ill, but as a source of social hope? Taking us into a "caste of thieves" in northern India, Nobody's People depicts hierarchy as a normative idiom through which people imagine better lives and pursue social ambitions. Failing to find a place inside hierarchic relations, the book's heroes are "nobody's people": perceived as worthless, disposable and so open to being murdered with no regret or remorse. Following their journey between death and hope, we learn to perceive vertical, non-equal relations as a social good, not only in rural Rajasthan, but also in much of the world—including settings stridently committed to equality. Challenging egalo-normative commitments, Anastasia Piliavsky asks scholars across the disciplines to recognize hierarchy as a major intellectual resource.

“Outrageous, heartwarming, wonderfully sensual...I loved it!” —Jayne Anne Krentz “For sheer fun, nobody beats Nobody’s Baby But Mine.” —Detroit Free Press The Minneapolis Star-Tribune writes, “Next to Tracy and Hepburn, no one does romantic comedy better than Susan Elizabeth Phillips.” For proof, you need to look no further than Nobody’s Baby But Mine. This classic comic love story from perennial New York Times bestseller Phillips unites a beautiful, brainy scientist desperate to be a mom with a brawny, smoking hot jock who, though handsome enough to father her child, is nowhere near as stupid as she wants her baby’s daddy to be. Emily Giffin, Jane Green, and Rachel Gibson fans take note: when it comes to delivering delightfully funny, supremely sexy contemporary women’s fiction, nobody but nobody is better than Susan Elizabeth Phillips.

Anthony Lane on Con Air— “Advance word on Con Air said that it was all about an airplane with an unusually dangerous and potentially lethal load. Big deal. You should try the lunches they serve out of Newark. Compared with the chicken napalm I ate on my last flight, the men in Con Air are about as dangerous as balloons.” Anthony Lane on The Bridges of Madison County— “I got my copy at the airport, behind a guy who was buying Playboy’s Book of Lingerie, and I think he had the better deal. He certainly looked happy with his purchase, whereas I had to ask for a paper bag.” Anthony Lane on Martha Stewart— “Super-skilled, free of fear, the last word in human efficiency, Martha Stewart is the woman who convinced a million Americans that they have the time, the means, the right, and—damn it—the duty to pipe a little squirt of soft cheese into the middle of a snow pea, and to continue piping until there are ‘fifty to sixty’ stuffed peas raring to go.” For ten years, Anthony Lane has delighted New Yorker readers with his film reviews, book reviews, and profiles that range from Buster Keaton to Vladimir Nabokov to Ernest Shackleton. Nobody’s Perfect is an unforgettable collection of Lane’s trademark wit, satire, and insight that will satisfy both the long addicted and the not so familiar.

Is history driven more by principle or interest? Are ideas of historical progress obsolete? Is it unforgivable to change one's mind or political allegiance? Did the eighteenth century really exchange the civilizing force of commercial advantage for political conflict? In this new account of liberal thought from its roots in seventeenth-century English thinking to the end of the eighteenth century, Annabel Patterson tackles these important historiographical questions. She rescues the term "whig" from the low regard attached to it; denies the primacy of self-interest in the political struggles of Georgian England; and argues that while Whigs may have strayed from liberal principles on occasion (nobody's perfect), nevertheless many were true progressives. In a series of case studies, mainly from the reign of George III, Patterson examines or re-examines the careers of such prominent individuals as John Almon, Edmund Burke, Sir Joshua Reynolds, Thomas Erskine, and, at the end of the century, William Wordsworth. She also addresses a host of secondary

characters, reshaping our thinking about both well-known and lesser figures of the time. Tracking a coherent, sustained, and adaptable liberalism throughout the eighteenth century, Patterson overturns common assumptions of political, cultural, and art historians. The author delivers fresh insights into the careers of those who called themselves Whigs, their place in British political thought, and the crucial ramifications of this thinking in the American political arena. Book jacket. *When Nobody's Looking* Harper Collins

The New York Times bestselling collection of humorous autobiographical essays by the Academy Award nominated actress and star of *Up in the Air* and *Pitch Perfect*. Even before she made a name for herself on the silver screen starring in films like *Pitch Perfect*, *Up in the Air*, *Twilight*, and *Into the Woods*, Anna Kendrick was unusually small, weird, and "10 percent defiant." At the ripe age of thirteen, she had already resolved to "keep the crazy inside my head where it belonged. Forever. But here's the thing about crazy: It. Wants. Out." In *Scrappy Little Nobody*, she invites readers inside her brain, sharing extraordinary and charmingly ordinary stories with candor and winningly wry observations. With her razor-sharp wit, Anna recounts the absurdities she's experienced on her way to and from the heart of pop culture as only she can—from her unusual path to the performing arts (Vanilla Ice and baggy neon pants may have played a role) to her double life as a middle-school student who also starred on Broadway to her initial "dating experiments" (including only liking boys who didn't like her back) to reviewing a binder full of butt doubles to her struggle to live like an adult woman instead of a perpetual "man-child." Enter Anna's world and follow her rise from "scrappy little nobody" to somebody who dazzles on the stage, the screen, and now the page—with an electric, singular voice, at once familiar and surprising, sharp and sweet, funny and serious (well, not that serious).

A New York Times Book Review Editors' Choice. A 2019 NPR Staff Pick. "Malcolm is always worth reading; it can be instructive to see how much satisfying craft she brings to even the most trivial article." --Phillip Lopate, TLS Janet Malcolm's previous collection, *Forty-One False Starts: Essays on Artists and Writers*, was "unmistakably the work of a master" (The New York Times Book Review). Like *Forty-One False Starts*, *Nobody's Looking at You* brings together previously uncompiled pieces, mainly from *The New Yorker* and *The New York Review of Books*. The title piece of this wonderfully eclectic collection is a profile of the fashion designer Eileen Fisher, whose mother often said to her, "Nobody's looking at you." But in every piece in this volume, Malcolm looks closely and with impunity at a broad range of subjects, from Donald Trump's TV nemesis Rachel Maddow, to the stiletto-heel-wearing pianist Yuju Wang, to "the big-league game" of Supreme Court confirmation hearings. In an essay called "Socks," the Pevears are seen as the "sort of asteroid [that] has hit the safe world of Russian Literature in English translation," and in "Dreams and Anna Karenina," the focus is Tolstoy, "one of literature's greatest masters of manipulative techniques." *Nobody's Looking at You* concludes with "Pandora's Click," a brief, cautionary piece about e-mail etiquette that was written in the early two thousands, and that reverberates—albeit painfully—to this day.
