Melvin B. Tolson (1898-1966) was both a participant in and historian of the Harlem Renaissance, probably the most significant movement in African American literature and culture. Known mostly for his poetry, and an unduly neglected figure in American literary history, Tolson was one of the first African American critics of the Harlem Renaissance. This book is an edition of his 1940 MA thesis, the first academic study of the Harlem Renaissance written by an African American scholar. Tolson's thesis, previously unpublished in its entirety, provides a unique look at this important era and draws heavily on his familiarity with some of the most important writers of the movement. Included are discussions of such major figures as Langston Hughes, Claude McKay, and W.E.B. Du Bois, along with chapters on lesser-known authors such as George Schuyler, Eric Walrond, and Jessie Fauset, who are now being rediscovered. An introductory essay surveys the history of Harlem Renaissance criticism and Tolson's place in it and evaluates his methodology and use of sources. The introduction additionally presents a brief biography and details the creation of his thesis. The text of Tolson's thesis appears in its entirety, along with his notes and those of the volume editor. The book closes with a bibliography of works on Tolson and a large but selective bibliography on the Harlem Renaissance in general.

"A stunning picture of a black woman's coming of age in America. Put it on the shelf beside The Autobiography of Malcolm X." —Kirkus Reviews Elaine Brown assumed her role as the first and only female leader of the Black Panther Party with these words: "I have all the guns and all the money. I can withstand challenge from without and from within. Am I right, Comrade?" It was August 1974. From a small Oakland-based cell, the Panthers had grown to become a revolutionary national organization, mobilizing black communities and white supporters across the country—but relentlessly targeted by the police and the FBI, and increasingly riven by violence and strife within. How Brown came to a position of power over this paramilitary, male-dominated organization, and what she did with that power, is a riveting, unsparing account of self-discovery. Brown's story begins with growing up in an impoverished neighborhood in Philadelphia and attending a predominantly white school, where she first sensed what it meant to be black, female, and poor in America. She describes her political awakening during the bohemian years of her adolescence, and her time as a foot soldier for the Panthers, who seemed to hold the promise of redemption. And she tells of her ascent into the upper echelons of Panther leadership: her tumultuous relationship with the charismatic Huey Newton, who would become her lover and her nemesis; her experience with the male power rituals that would sow the seeds of the party's demise; and the scars that she both suffered and inflicted in that era's paradigm-shifting clashes of sex and power. Stunning, lyrical, and acute, this is the indelible testimony of a black woman's battle to define herself. "A glowing achievement." —Los Angeles Times "Honest, funny, subjective, unsparing, and passionate. . . A Taste of Power weaves autobiography and political history into a story that fascinates and illuminates." —The Washington Post

Leonard Moore has been teaching Black history for twenty-five years, mostly to white people. Drawing on decades of experience in the classroom and on college campuses throughout the South, as well as on his own personal history, Moore illustrates how an understanding of Black history is necessary for everyone. With *Teaching Black History to White People*, which is "part memoir, part Black history, part pedagogy, and part how-to guide," Moore delivers an accessible and engaging primer on the Black experience in America. He poses provocative questions, such as "Why is the teaching of Black history so controversial?" and "What came first: slavery or racism?" These questions don't have easy answers, and Moore insists that embracing discomfort is necessary for engaging in open and honest conversations about race. Moore includes a syllabus and other tools for actionable steps that white people can take to move beyond performative justice and toward racial reparations, healing, and reconciliation.

What is Black History? Did you know what blacks were in Cortez's crew in Mexico, with Pizarro in Peru and Alvarado in Quito...that when Balboa discovered the Pacific Ocean, 30 black people were with him....that when Alarcon and Coronado conquered Mexico, black people were with them too? Any misunderstandings between blacks and whites in today's society tend to stem from the misconceptions about blacks that have been allowed to thrive throughout the ages. The only way to help abolish stereotypes is to help present a more complete picture of the black people throughout history. *Black History For Beginners* covers a rich but often ignored history and chronicles the black struggle from capture and enslavement in Africa through the Civil Rights movement and up to today and the new and different kinds of struggles that black people face today

#1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD WINNER • A dramatic expansion of a groundbreaking work of journalism, *The 1619 Project: A New Origin Story* offers a profoundly revealing vision of the American past and present. FINALIST FOR THE KIRKUS PRIZE • ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, NPR, Esquire, Marie Claire, Electric Lit, Ms. magazine, Kirkus Reviews, Booklist In late August 1619, a ship arrived in the British colony of Virginia bearing a cargo of twenty to thirty enslaved people from Africa. Their arrival led to the barbaric and unprecedented system of American chattel slavery that would last for the next 250 years. This is sometimes referred to as the country's original sin, but it is more than that: It is the source of so much that still defines the United States. The New York Times Magazine's award-winning 1619 Project issue reframed our understanding of American history by placing slavery and its continuing legacy at the center of our national narrative. This book substantially expands on that work, weaving together eighteen essays that explore the legacy of slavery in present-day America with thirty-six poems and works of fiction that illuminate key moments of oppression, struggle, and resistance. The essays show how the inheritance of 1619 reaches into every part of contemporary American society, from politics, music, diet, traffic, and citizenship to capitalism, religion, and our democracy itself. This book that speaks directly to our current moment, contextualizing the systems of race and caste within which we operate today. It reveals long-glossed-over truths around our nation's founding and construction—and the way that the legacy of slavery did not end with emancipation, but continues to shape contemporary American life. With contributions from leading American and European scholars, this collection of original essays surveys the actors and the modes of writing history from the "margins" of society, focusing specifically on African Americans. Nearly 100 years after The Journal of Negro History was founded, this book assesses the legacy of the African American historians, mostly amateur historians initially, who wrote the history of their community between the 1830s and World War II. Subsequently, the growth of the civil rights movement further changed historical paradigms—and the place of African Americans and that of black writers in publishing and in the historical profession. Through slavery and segregation, self-educated and formally educated Blacks wrote works of history, often in order to inscribe African Americans within the main historical narrative of the nation, with a two-fold objective: to make African Americans proud of their past and to enable them to fight against white

prejudice. Over the past decade, historians have turned to the study of these pioneers, but a number of issues remain to be considered. This anthology will contribute to answering several key questions concerning who published these books, and how were they distributed, read, and received. Little has been written concerning what they reveal about the construction of professional history in the nineteenth century when examined in relation to other writings by Euro-Americans working in an academic setting or as independent researchers.

#1 NEW YORK TIMES BESTSELLER • A chorus of extraordinary voices tells the epic story of the four-hundred-year journey of African Americans from 1619 to the present—edited by Ibram X. Kendi, author of *How to Be an Antiracist*, and Keisha N. Blain, author of *Set the World on Fire*. FINALIST FOR THE ANDREW CARNEGIE MEDAL • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post, Town & Country, Ms. magazine, BookPage, She Reads, BookRiot, Booklist • “A vital addition to [the] curriculum on race in America . . . a gateway to the solo works of all the voices in Kendi and Blain’s impressive choir.”—The Washington Post “From journalist Hannah P. Jones on Jamestown’s first slaves to historian Annette Gordon-Reed’s portrait of Sally Hemings to the seductive cadences of poets Jericho Brown and Patricia Smith, *Four Hundred Souls* weaves a tapestry of unspeakable suffering and unexpected transcendence.”—O: The Oprah Magazine The story begins in 1619—a year before the *Mayflower*—when the *White Lion* disgorges “some 20-and-odd Negroes” onto the shores of Virginia, inaugurating the African presence in what would become the United States. It takes us to the present, when African Americans, descendants of those on the *White Lion* and a thousand other routes to this country, continue a journey defined by inhuman oppression, visionary struggles, stunning achievements, and millions of ordinary lives passing through extraordinary history. *Four Hundred Souls* is a unique one-volume “community” history of African Americans. The editors, Ibram X. Kendi and Keisha N. Blain, have assembled ninety brilliant writers, each of whom takes on a five-year period of that four-hundred-year span. The writers explore their periods through a variety of techniques: historical essays, short stories, personal vignettes, and fiery polemics. They approach history from various perspectives: through the eyes of towering historical icons or the untold stories of ordinary people; through places, laws, and objects. While themes of resistance and struggle, of hope and reinvention, course through the book, this collection of diverse pieces from ninety different minds, reflecting ninety different perspectives, fundamentally deconstructs the idea that Africans in America are a monolith—instead it unlocks the startling range of experiences and ideas that have always existed within the community of Blackness. This is a history that illuminates our past and gives us new ways of thinking about our future, written by the most vital and essential voices of our present.
