Giordano Bruno was burnt at the stake in Rome in 1600, accused of heresy by the Inquisition. His life took him from Italy to Northern Europe and England, and finally to Venice, where he was arrested. His six dialogues in Italian, which today are considered a turning point towards the philosophy and science of the modern world, were written during his visit to Elizabethan London, as a gentleman attendant to the French Ambassador, Michel de Castelnau. He died refusing to recant views which he defined as philosophical rather than theological, and for which he claimed liberty of expression. The papers in this volume derive from a conference held in London to commemorate the 400th anniversary of Bruno's death. A number focus specifically on his experience in England, while others look at the Italian context of his thought and his impact upon others. Together they constitute a major new survey of the range of Bruno's philosophical activity, as well as evaluating his use of earlier cultural traditions and his influence on both contemporary and more modern themes and

trends.

*The Use of Censorship in the Enlightenment* Routledge

"Spaccio De La Bestia Trionfante" è un'opera filosofica di Giordano Bruno pubblicata a Londra nel 1584. Scritto in forma di dialogo, lo Spaccio è un testo allegorico di filosofia morale. I tre interlocutori, Sofia (la Sapienza), Saulino (personaggio di fantasia) e Mercurio (il messaggero degli dèi della mitologia romana), discorrono sull'attuazione di una riforma ordinata da Giove per rinnovare la volta celeste e così porre fine a un declino che dura da tempo: "spacciare" cioè cacciar via dal cielo vecchi vizi per sostituirli con nuove virtù.

Sixteenth century philosophy was a unique synthesis of several philosophical frameworks, a blend of old and new, including but not limited to Scholasticism, Humanism, Neo-Thomism, Aristotelianism, and Stoicism. Unlike most overviews of this period, The Routledge Companion to Sixteenth Century Philosophy does not simplify this colorful era by applying some traditional dichotomies, such as the misleading line once drawn between scholasticism and humanism. Instead, the Companion closely covers an astonishingly diverse set of topics: philosophical

methodologies of the time, the importance of the discovery of the new world, the rise of classical scholarship, trends in logic and logical theory, Nominalism, Averroism, the Jesuits, the Reformation, Neo-stoicism, the soul's immortality, skepticism, the philosophies of language and science and politics, cosmology, the nature of the understanding, causality, ethics, freedom of the will, natural law, the emergence of the individual in society, the nature of wisdom, and the love of god. Throughout, the Companion seeks not to compartmentalize these philosophical matters, but instead to show that close attention paid to their continuity may help reveal both the diversity and the profound coherence of the philosophies that emerged in the sixteenth century. The Companion's 27 chapters are published here for the first time, and written by an international team of scholars, and accessible for both students and researchers.

Grundlinien einer Ethik bei Giordano Bruno Walter de Gruyter GmbH & Co KG

The itinerant Neoplatonic scholar Giordano Bruno (1548?1600), one of the most fascinating figures of the Renaissance, was burned at the stake for heresy by the Inquisition in Rome on Ash Wednesday in 1600. The primary evidence against him was the book *Spaccio de la bestia trionfante*, a daring indictment of the church that abounded in references to classical Greek mythology, Egyptian religion (especially the worship of Isis), Hermeticism, magic, and astrology. The author of over more than sixty works on mathematics, science, ethics, philosophy, metaphysics, the art of memory, and esoteric mysticism, Bruno had a profound impact on Western thought.

Reliquiae Hearnianae: the Remains of Thom. Hearne, Being Extracts from His Ms. Diaries BRILL

Giordano Bruno (1548-1600), who died at the stake, is one of the best-known symbols of anti-establishment thought. The theme of this volume, which is offered as a collection of essays to honour the distinguished Bruno scholar Hilary Gatti, reflects her constant concern for the principles of cultural freedom and independent thinking. Several essays deal with Bruno himself, including an analysis of the *Eroici furori*, a study of his reception in relation to the group known as the Novatores, and discussions of several important aspects of his stay in England. The authors and texts discussed here are linked by a relentless interest in the question of authority and originality, and they range from literary figures such as Alberti (1404-72), Vasari (1511-74) and the proponents of

quantitative verse in sixteenth-century England to controversial philosophers who, like Bruno, were condemned by the Church, such as Tommaso Campanella (1568-1639) and Giulio Cesare Vanini (1585-1619). Taken together, these chapters show how much that was new and revolutionary in early modern culture came from its confrontation with the past. Martin McLaughlin is Agnelli-Serena Professor of Italian at Oxford. Elisabetta Tarantino is a Teaching Fellow in the Department of Italian at the University of Warwick.

*Spaccio de la bestia trionfante. Cabala del cavallo Pegaseo, con l'aggiunta dell' Asino cillenico. De gl' heroici furori* BRILL

This book is a treasure house of Italian philosophy. Narrating and explaining the history of Italian philosophers from the Middle Ages to the twentieth century, the author identifies the

specificity, peculiarity, originality, and novelty of Italian philosophical thought in the men and women of the Renaissance. The vast intellectual output of the Renaissance can be traced back to a single philosophical stream beginning in Florence and fed by numerous converging human factors. This work offers historians and philosophers a vast survey and penetrating analysis of an intellectual tradition which has heretofore remained virtually unknown to the Anglophonic world of scholarship.

'the oldest biography of Spinoza', La Vie de Mr. Spinoza, which in the manuscript copies is often followed by L'Esprit de M. Spinoza. Margaret Jacob, in her Radical Enlightenment, contended that the

Traite was written by a radical group of Freemasons in The Hague in the early eighteenth century. Silvia Berti has offered evidence it was written by Jan Vroesen. Various discussions in the early eighteenth century consider many possible authors from the Renaissance onwards to whom the work might be attributed. The *Trois imposteurs* has attracted quite a bit of recent attention as one of the most significant irreligious clandestine writings available in the Enlightenment, which is most important for understanding the development of religious scepticism, radical deism, and even atheism in the seventeenth and eighteenth centuries. Scholars for the last couple of decades have been trying to assess when the work was actually written or compiled and by whom. In view of the widespread distribution of manuscripts of the work all over Europe, they have also been seeking to find out who was influenced by the work, and what it represented for its time. Hitherto unknown manuscripts are being turned up in public and private libraries all over Europe and the United States.

This handbook of English Renaissance literature serves as a reference for both students and scholars, introducing recent debates and developments in early modern studies. Using new theoretical perspectives and methodological tools, the volume offers exemplary close readings of canonical and less well-known texts from all significant genres between c. 1480 and 1660. Its systematic chapters address questions about editing Renaissance texts, the role of translation, theatre and drama, life-writing, science, travel and migration, and women as writers, readers and patrons. The book will be of particular interest to those wishing to expand their knowledge of the early modern period beyond Shakespeare.
