Targeted Reading Intervention Pearson Higher Education AU

'This volume brings together a diversity of international scholars, unified in the theme of expanding scientific knowledge about humanity's past in the Asia-Pacific region. The contents in total encompass a deep time range, concerning the origins and dispersals of anatomically modern humans, the lifestyles of Pleistocene and early Holocene Palaeolithic hunter-gatherers, the emergence of Neolithic farming communities, and the development of Iron Age societies. These core enduring issues continue to be explored throughout the vast region covered here, accordingly with a richness of results as shown by the authors. Befitting of the grand scope of this volume, the individual contributions articulate perspectives from multiple study areas and lines of evidence. Many of the chapters showcase new primary field data from archaeological sites in Southeast Asia. Equally important, other chapters provide updated regional summaries of research in archaeology, linguistics, and human biology from East Asia through to the Western Pacific.' Mike T. Carson Associate Professor of Archaeology Micronesia Area Research Center University of Guam

It continues to engage students with its dynamic coverage of the essential elements of this critical discipline. This Tenth Edition, with an increased focus on evolution, ensures students receive the most up-to-date, accurate and relevant information.

Great Tours! Taunton Press

Dionysos, the God of wine and theatre has returned to his native land to take revenge on the puritanical Pentheus who refuses to recognise him of his rites. Remorselessly, savagely and with black humour, the God drives Pentheus and all the city to their shocking fate. This version was specially commissioned by the National Theatre for a production in May 2002, directed by Sir Peter Hall and scored by Sir Harrison Birtwhistle.

Instant New York Times Bestseller One of Fall 2019's Best Books (People, EW, Lithub, Vox, Washington Post, and more) A young boy is haunted by a voice in his head in this acclaimed epic of literary horror from the author of The Perks of Being a Wallflower. Christopher is seven years old. Christopher is the new kid in town. Christopher has an imaginary friend. We can swallow our fear or let our fear swallow us. Single mother Kate Reese is on the run. Determined to improve life for her and her son, Christopher, she flees an abusive relationship in the middle of the night with her child.

Together, they find themselves drawn to the tight-knit community of Mill Grove, Pennsylvania. It's as far off the beaten track as they can get. Just one highway in, one highway out. At first, it seems like the perfect place to finally settle down. Then Christopher vanishes. For six long days, no one can find him. Until Christopher emerges from the woods at the edge of town, unharmed but not unchanged. He returns with a voice in his head only he can hear, with a mission only he can complete: Build a treehouse in the woods by Christmas, or his mother and everyone in the town will never be the same again. Twenty years ago, Stephen Chbosky's The Perks of Being a Wallflower made readers everywhere feel infinite. Now, Chbosky has returned with an epic work of literary horror, years in the making, whose grand scale and rich emotion redefine the genre. Read it with the lights on.

Offers state-of-the-art information and fresh perspectives from new and award-winning authors in such areas as disorders of growth, multiple endocrine tumors, and puberty and its disorders in girls and boys.

Bulletin of the Atomic Scientists Bloomsbury Publishing

Protecting children from emotional abuse and neglect is a serious and complex area of social work practice. This book takes readers step-by-step through the underlining theory, skills and practice of working with vulnerable children, highlighting essential contemporary research evidence throughout. Part 1: Understanding introduces the nature and consequences of child neglect and emotional abuse, including up-to-date knowledge about the physiological impact of childhood malnutrition and emotional deprivation. Part 2: Assessment considers in detail the factors which can contribute to the complexity of the assessment process and explains assessment procedures. Part 3: Response offers insights into positive interventions, including some innovative modern therapies and family management approaches such as 'PACT'. Using a series of case studies to make complex skills and knowledge accessible, this is essential reading for students and professionals across disciplines that may come into contact with vulnerable children.

Skeleton Key Grand Central Publishing

New York Times Bestseller Winner of the Women's Prize for Fiction World Fantasy Awards Finalist From the New York Times bestselling author of Jonathan Strange & Mr Norrell, an intoxicating, hypnotic new novel set in a dreamlike alternative reality. Piranesi's house is no ordinary building: its rooms are infinite, its corridors endless, its walls are lined with thousands upon thousands of statues, each one different from all the others. Within the labyrinth of halls an ocean is imprisoned; waves thunder up staircases, rooms are flooded in an instant. But Piranesi is not afraid; he understands the tides as he understands the pattern of the labyrinth itself. He lives to explore the house. There is one other person in the house-a man called The Other, who visits Piranesi twice a week and asks for help with research into A Great and Secret Knowledge. But as Piranesi explores, evidence

emerges of another person, and a terrible truth begins to unravel, revealing a world beyond the one Piranesi has always known. For readers of Neil Gaiman's *The Ocean at the End of the Lane* and fans of Madeline Miller's *Circe*, Piranesi introduces an astonishing new world, an infinite labyrinth, full of startling images and surreal beauty, haunted by the tides and the clouds.

New Perspectives in Southeast Asian and Pacific Prehistory Houghton Mifflin Harcourt

A riveting and powerful story of an unforgiving time, an unlikely friendship and an indestructible love

Dreamland Burning Little, Brown Books for Young Readers

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

A Rose for Emily and Other Stories SAGE

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

The Old Man and the Sea John Wiley & Sons

This book should be on the shelf of every practising statistician who designs experiments. Good design considers units and treatments first, and then

allocates treatments to units. It does not choose from a menu of named designs. This approach requires a notation for units that does not depend on the treatments applied. Most structure on the set of observational units, or on the set of treatments, can be defined by factors. This book develops a coherent framework for thinking about factors and their relationships, including the use of Hasse diagrams. These are used to elucidate structure, calculate degrees of freedom and allocate treatment subspaces to appropriate strata. Based on a one-term course the author has taught since 1989, the book is ideal for advanced undergraduate and beginning graduate courses. Examples, exercises and discussion questions are drawn from a wide range of real applications: from drug development, to agriculture, to manufacturing.

Nineteen Eighty-Four Cambridge University Press

There are some pretty weird grown-ups living in Bailey City. But could the new band teacher really teach a skeleton to play the tuba?

The Publishers' Circular and Booksellers' Record of British and Foreign Literature Bloomsbury Publishing

Show students why business statistics is an increasingly important business skill through a student-friendly pedagogy.
