In this hilarious collection of old car stories, Canada's very own "Old Car Detective" Bill Sherk presents 80 of his favourite stories from all 10 provinces, spanning the years from 1925 to 1965. In this book you will meet the man in New Brunswick who chopped the top off his 1927 Whippet sedan in honour of the coronation of Queen Elizabeth II; the young fellow from Kingston, Ontario, who thought his 1937 Ford coach looked better with all four fenders taken off; the owner of a 1947 Hudson that burned so much oil he had to wear a snorkel mask while driving it; the father who borrowed his son's hot-rod'd '53 Monarch (built only in Canada!) and got pulled over by the police for street racing; and the grandmother who moved from England to Canada and drove her Morris Minor on the wrong side of the road. Behind every old car there's a story waiting to be told, all the way from your grandparents' Model T Ford to the Mustang you drove in high school. All the stories and photographs in this book are in chronological order from 1925 to 1965, giving you a 40-year journey through Canada's rich automotive heritage and brought to life by the people who owned and drove the cars of yesteryear – and some still do! PART ONE (1925 to 1942) takes you from the middle of the Roaring Twenties to February 1942, when the Second World War brought automobile production to a halt for three long years. PART TWO (1946 to 1965) takes you through the Baby Boom years when cars driven by Canadians went through many exciting changes in styling and engineering. If you have ever owned (or still own) a car that was built between 1925 and 1965, turn to the last page in this book to see how you can send in your story for Bill Sherk's next book.

The rubber meets the road in Bill Sherk's well-loved series of automotive books, a must-read for fans of classic and, er, "classic" cars. Includes 60 Years Behind the Wheel: From rumble seats and running broads to power tops and tailfins, Bill Sherk captures the thrill of motoring in Canada from the dawn of the twentieth century to 1960. Old Car Detective: Canada's very own "Old Car Detective" Bill Sherk presents 80 of his favourite stories from all 10 provinces, spanning the years from 1925 to 1965. I'll Never Forget My First Car: Bill Sherk describes in vivid detail the trials and tribulations of those brave souls who threw caution to the wind and money down the drain: They went out and bought their very first cars.

New York Court of Appeals. Records and Briefs. Simon and Schuster

In July 1964, after a white police officer shot and killed an African American teenage boy, unrest broke out in Harlem and then Bedford-Stuyvesant. Protests rose up to call for an end to police brutality and the unequal treatment of Black people in a city that viewed itself as liberal. A week of upheaval ensued, including looting and property damage as well as widespread police violence, in what would be the first of the 1960s urban uprisings. Christopher Hayes examines the causes and consequences of the uprisings, from the city's history of racial segregation in education, housing, and employment to the ways in which the police both neglected and exploited Black neighborhoods. While the national civil rights movement was securing substantial victories in the 1950s and 1960s, Black New Yorkers saw little or uneven progress. Faced with a lack of economic opportunities, pervasive discrimination, and worsening quality of life, they felt a growing sense of disenchantment with the promises of city leaders. Turning to the aftermath of the uprising, Hayes demonstrates that the city's power structure continued its refusal to address structural racism. In the most direct local outcome, a broad, interracial coalition of activists called for civilian review of complaints against the police. The NYPD's rank and file fought this demand bitterly, further inflaming racial tensions. The story of the uprisings and what happened next reveals the white backlash against civil rights in the north and crystallizes the limits of liberalism. Drawing on a range of archives, this book provides a vivid portrait of postwar New York City, a new perspective on the civil rights era, and a timely analysis of deeply entrenched racial inequalities.

"An analytical approach to corporate reputations from its leading scholar. Public perception, especially in the time of social media, is a core determinant of any organization's success and longevity. It is also fickle: organizations can fall astray of public approval through crisis, mismanagement, or sudden shifts in the public sensibility. In Reputation Analytics, Daniel Diermeier offers the first scientific framework for understanding and managing the vagaries of corporate reputation and public opinion. Drawing on a political scientist's understanding of the formation and dynamics of public opinion, Diermeier infuses his approach with lessons from game theory, psychology, and text analytics to produce a rigorous, altogether original approach that will have immediate application in both scholarship and practice. A milestone work from one of social science's most eminent scholars, Reputation Analytics ushers a new and advanced understanding on a topic that has long eluded such treatment-and an essential work for readers across industry and academics"--

Written and extensively updated by an author team that includes former and current law enforcement officers, Introduction to Policing focuses on the

thought-provoking, contemporary issues that underscore the challenging and rewarding world of policing. The authors skillfully balance research and practice to offer readers an overview of both the foundations of policing and the expanded role of today's police officers. Evolving with the modern realities of the field, the Fourth Edition discusses major new and ongoing impactful events, such as the political shift marked by the U.S. presidential election of 2016 and expanded coverage of women and minorities in policing. The accessible and engaging writing style, coupled with unique coverage of the issues of policing in multicultural communities, the impact of technology on policing, and policing strategies and procedures, make this bestselling book a must-have.
