WALLS CARLIE

Look at the Wild Side of Blueberries
Springer

With this fourth edition of the classic that launched his career, Parker strives to maintain his unprecedented independence, objectivity, clarity, and enthusiasm in reporting on the vintages of Bordeaux. Parker has not only added tastings for the vintages in the intervening years since the last edition, but he has also retasted and reevaluated a majority of the earlier vintages. His accessible and direct style welcomes both the seasoned wine collector and the eager beginner to the pleasures of fine wine and France's most illustrious chateau. Organized by appellation, Bordeaux moves alphabetically from one producer to the next, providing essential information and an overview of the property and its owners. Parker then lists each vintage, and includes numerical ratings and detailed tasting notes for most of that chateau's wines. At the end of each tasting note, Parker estimates the "anticipated maturity"—the range of time when the wine should peak in flavor and balance—and each entry concludes

with a summary of the chateau's earlier vintages. Hailed by The New York Times as "the critic who matters most," Robert Parker's Bordeaux is the most complete consumer's guide to the wines of Bordeaux ever written.

The first meeting in this series was organized by Prof. Pawlowski and Dr. Lacy in 1976 at the Marie Curie-Sklodowska University in Lublin, Poland. The conference dealt with various physicochemical methodologies for water and wastewater treatment research projects that were jointly sponsored by US EPA and Poland. The great interest expressed by the participants led the organizers to expand the scope of the second conference, which was also held in Poland in September 1979. The third and enlarged symposium was again successfully held in 1981 in Lublin, Poland. At that time the participating scientists and engineers expressed their desire to broaden the coverage as well as the title of the conference series. The International Committee, approved the title "Chemistry for the Protection of the Environment" and designated that date of the fourth conference, CPE IV, which was convened in September 1983 at the Paul Sabatier University in Toulouse, France, and was hosted and arranged by Prof. A. Verdier. This conference series included participants from various government agencies, academia, and the private sector, representing industrialized countries as well as emerging nations, both the East and West in an independent, non political forum.

Louis 'Satchmo' Armstrong was not only jazz's greatest musician and innovator, but also arguably its most famous entertainer and the frontal figure in the development of contemporary popular music. Overcoming social and political obstacles, he created a long and impressive career and an enormous musical output. Now, his ground breaking musical career is amassed and detailed in this discography of all his works, from professionally made commercial releases, to amateur and unissued recordings. *All of Me* is a comprehensive, chronological discography born out of love and admiration for Louis Armstrong, and devotion to years of collecting his musical accomplishments. Author Jos Willems has meticulously compiled all of Satchmo's known recordings_ both studio and live performances_ and with assistance from internationally renowned specialists, has assembled an impressively detailed, accurate, and complete listing. This volume is superbly formatted and presented, logically organized, and thoroughly indexed by song title and individual. Researchers, collectors, and enthusiasts can easily look up any detail of a recording: issues and releases of particular songs; publishing companies; producers; catalog numbers; dates, times, and locations of recordings; musicians Armstrong played with; and format, be it

78 or 45 RPM records, LPs, CDs, or media appearances. Every detail of Armstrong's career is listed in this impressive volume, shedding light on the enormity of his impact on jazz and popular culture. This is the ultimate reference guide for the complete works of Louis Armstrong.
