Strongest Animals Die Gestalten Verlag-DGV

New York Times Bestseller! A delightful and quirky compendium of the Animal Kingdom's more unfortunate truths, with over 150 hand-drawn illustrations. Ever wonder what a mayfly thinks of its one-day lifespan? (They're curious what a sunset is.) Or how a jellyfish feels about not having a heart? (Sorry, but they're not sorry.) This melancholy menagerie pairs the more unsavory facts of animal life with their hilarious thoughts and reactions. Sneakily informative, and wildly witty, SAD ANIMAL FACTS will have you crying with laughter.

The Encyclopedia of Animals

HarperCollins

Do animals celebrate Valentine's Day? Nobody knows for sure. But this funny (and punny) little book imagines how some of them declare their love, affection, or friendship any day of the year. "Nice to Meetcha! You smell delish!/Wanna share my water dish?" So asks one tail-thumping dog to another. Whereas a courting dolphin sings, "Come, leap with me and be my wife./You're the porpoise of my life." Ranging from dogs and cats and other pets to some you wouldn't want to pet, such as sharks and porcupines, acclaimed poet Marilyn Singer's captivating couplets and Lee Wildish's expressively humorous illustrations provide a Valentine's Day gift for kids who wouldn't be caught dead being lovey-dovey.

The World in Infographics Flatiron Books

My Family and Other Animals ABDO Publishing Company
Packed with comics, diagrams, and "secret diaries," this book is a wondrous, encyclopedic glance at a dizzying host of different things—from hearts to farts to coconuts—and makes a hilarious and informative guide for curious young readers. Join the hilarious exploration of "a day in the life" of nearly 100 things on Earth. Find out what exactly your tongue does all day long, how a Japanese knotweed destroys everything in its path, and why no two snowflakes are ever the same. From the gross and smelly to the beautiful and fascinating, this book is a treasure trove of entertaining information.

Slowest Animals Univ of California Press
Living things come in all shapes and sizes. The animal kingdom is vast, and scientists have separated organisms into groups based on different shared characteristics. What makes animals different from each other? What traits do they have that overlap? Through this engaging book, readers learn all the biological differences that help animals survive and thrive in the wild.

Pictograms and infographics make digesting this scientific information easy, and readers who struggle to obtain information from traditional textbooks will find this book especially helpful.

The World in Infographics ABDO
Briefly describes the physical characteristics, behavior and habitat of the poisonous black widow spider.
Creatures of the Order ABDO Publishing Company

The inspiration for *The Durrells in Corfu*,

a Masterpiece production on public television: A naturalist's account of his childhood on the exotic Greek island. When the Durrells could no longer endure the gray English climate, they did what any sensible family would do: sold their house and relocated to the sun-soaked island of Corfu. As they settled into their new home, hilarious mishaps ensued as a ten-year-old Gerald Durrell pursued his interest in natural history and explored the island's fauna. Soon, toads and tortoises, bats and butterflies—as well as scorpions, geckos, ladybugs, praying mantises, octopuses, pigeons, and gulls—became a common sight in the Durrell villa. Uproarious tales of the island's animals and Durrell's fond reflections on his family bring this delightful memoir to life. Capturing the joyous chaos of growing up in an unconventional household, *My Family and Other Animals* will transport you to a place you won't want to leave. This ebook features an illustrated biography of Gerald Durrell including rare photos from the author's estate.

Information Graphics: Animal Kingdom Open Road Media

As an unabashed dog lover, Alexandra Horowitz is naturally curious about what her dog thinks and what she knows. As a cognitive scientist she is intent on understanding the minds of animals who cannot say what they know or feel. This is a fresh look at the world of dogs -- from the dog's point of view. The book introduces the reader to the science of the dog -- their perceptual and cognitive Abilities -- and uses that introduction to draw a picture of what it might be like to be a dog. It answers questions no other dog book can -- such as: What is a dog's sense of time? Does she miss me? Want friends? Know when she's been bad? Horowitz's journey, and the insights she uncovered from studying her own dog, Pumpernickel, allowed her to understand her dog better, and appreciate her more through that understanding. The reader will be able to do the same with their own dog. This is not another dog training book. Instead, *Inside of a Dog* will allow dog owners to look at their pets' behaviour in a different, and revealing light, enabling them to understand their dogs and enjoy their relationship even more.
