The Encyclopaedia Britannica: A to Aus CRC Press

"The last great work of the age of reason, the final instance when all human knowledge could be presented with a single point of view ... Unabashed optimism, and unabashed racism, pervades many entries in the 11th, and provide its defining characteristics ... Despite its occasional ugliness, the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes. It is especially strong in its biographical entries. These delve deeply into the history of men and women prominent in their eras who have since been

largely forgotten - except by the historians, scholars"-- The Guardian, <https://www.theguardian.com/books/booksblog/2012/apr/10/encyclopedia-britannica-11th-edition>.

Anglo-American Encyclopedia

This eleventh edition was developed during the encyclopaedia's transition from a British to an American publication. Some of its articles were written by the best-known scholars of the time and it is considered to be a landmark encyclopaedia for scholarship and literary style.

National Encyclopedia

"The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes. This thorough reference set--written by 1300 eminent, international experts--offers librarians, information/computer

scientists, bibliographers, documentalists, systems analysts, and students, convenient access to the techniques and tools of both library and information science.

Impeccably researched, cross referenced, alphabetized by subject, and generously illustrated, the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field."

Encyclopaedia of Books on China
