This is done through a chronology, an introductory essay, a bibliography, and over 400 cross-referenced dictionary entries on the countries; guerrilla and political movements; prominent guerrilla, human-rights, military, and political figures; local, regional, and international human-rights organizations; and artistic figures (filmmakers, novelists, and playwrights) whose works attempt to represent or resist the period of repression.

Past Imperfect Harper Collins

Author of the beloved Half Moon Hollow series of vampire romances (Nice Girls Don't Have Fangs), Molly Harper has created a standalone paranormal romance in which a dilapidated haunted house could bring star-crossed lovers together—if it doesn't kill them first! When Nina Linden is hired to landscape a private island off the New England coast, she sees it as her chance to rebuild her failing business after being cheated by her unscrupulous ex. She never expects that her new client, software mogul Deacon Whitney, would see more in her than just a talented gardener. Deacon has paid top dollar to the crews he's hired to renovate the desolate Whitney estate—he had to, because the bumps, thumps, and unexplained sightings of ghostly figures in nineteenth-century dress are driving workers away faster than he can say "Boo." But Nina shows no signs of being scared away, even as she experiences some unnerving apparitions herself. And as the two of them work closely together to restore the mansion's faded glory, Deacon realizes that he's found someone who doesn't seem to like his fortune more than himself—while Nina may have finally found the one man she can trust with her bruised and battered heart. But something on the island doesn't believe in true love...and if Nina and Deacon can't figure out how to put these angry spirits to rest, their own love doesn't stand a ghost of a chance.

Colonel Maude, wrote a number of works on the Napoleonic period, and although they were published out of the chronological order of the campaigns, Leipzig(1813), Jena (1806) and Ulm (1805), they formed an unbroken stream of commentary as to the methods of the world's greatest general, Napoleon. In this volume, Colonel Maude follows Napoleon as he sets out with his finest Grande Armée, from the camp of Boulogne where they have been well-drilled and trained, to oppose the Austrians for a further round of hostilities which had only really been suspended briefly between 1800-1805. The basic premise of the series of books was that "Napoleon did in fact possess during his later years a fixed method in strategy, which he invariably followed whenever topographical conditions permitted. This method enabled him to be absolutely certain of accumulating at the decisive point of the battlefield a crushing numerical superiority, no matter what plans his opponents might have formed;" It was the opening of the 1805 campaign that truly showed what Napoleon had learnt since his initial campaigns in Italy on a vast scale, now the corps d'armée he

commanded dwarfed the entire armies of previous wars. His articulated, co-ordinated march through and round the Black Forest, stumped the veteran commander of the Austrian forward army, the “unfortunate Mack”, and despite some less than sterling work by some of his subordinates netted an entire army into the “bag”. Some of Napoleon’s troops would found a new way of fighting, that he made “war using our feet”. A fascinating book, in an excellent series.
