Each half-year consists
of two volumes, Partie
médicale and Partie
paramédicale.

Géographie ancienne des États barbaresques, d'après l'allemand de Mannert [from the "Geographie der Griechen und Romer, etc.], par MM. L. Marcus et Duesberg, avec des additions et des notes par M. L. Marcus BRILL

Published in 1950: The *Penseés* is a collection of philosophical fragments, notes and essays in which Pascal explores the contradictions of human nature in psychological, social, metaphysical and - above all - theological terms. Mankind emerges from Pascal's analysis as a wretched and desolate creature within an impersonal universe, but who can be transformed through faith in God's grace.

Gothic Tombs of Kinship is a study of one monumental tomb type in Northern Europe, traced from the thirteenth through the fifteenth centuries. This is the first extensive treatment that recognizes the kinship tomb for what it is, rather than compounding it with its celebrated counterpart, the ceremonial tomb, where the final rites or

funeral procession of the deceased are represented. The unique characteristic of a tomb of kinship is that it includes a figurative representation of a family tree. This book establishes the kinship tomb as an important Northern European iconographical type, equal in interest to the ceremonial tomb as a manifestation of the mentality of the late Middle Ages. It traces the development of the type from its inception in France and diffusion in the Low Countries and England until its vulgarization in prefabricated tombstones and alabaster tombs in the fifteenth century. The study demonstrates that after being imported into England in the late thirteenth

century, the kinship tomb became a vehicle for Edward III's assertion of his claim to the French throne and, inspired by the king and court, the preferred type of the fourteenth-century English baron. Limited to the princes and knights and their ladies in the thirteenth century, the tomb was adopted by the minor gentry and the middle class by the late fourteenth century, with a corresponding change from an extended family program to one confined to the nuclear family. Gothic Tombs of Kinship identifies a representative number of kinship tombs from the period and the territories that marked their apogee, deciphers their programs, and places

them in their cultural context.

The Works of Lord

Byron

The present volume deals with the phenomenon of Writing and the Mystical Experience in Judaism, Christianity and Islam. Particular emphasis is laid on this theme within Jewish mysticism in the various stages of its historical development. Methodological and phenomenological studies deal with the question in Antiquity, the Mediaeval period and Modern times.
