This book explores the ways in which colonial administrators constructed knowledge about the society and culture of India and the processes through which that knowledge has shaped past and present Indian reality.

British Motorcycles of the 1940s and '50s Crowood Press UK

This book explores the fascinating world of the record business, its technology, the music and the musicians from Edison's phonograph to the compact disc. The great artists - Caruso, Toscanini, Louis Armstrong, Elvis Presley and their successors - all achieved fame through the medium of records, and in turn have influenced the recording industry. But just as important are the record producers, those invisible figures who decide from behind the scenes how a record will sound. The history of recording is also the history of record companies: the book follows the vicissitudes of the multinational giants, without neglecting the small pioneering labels which have brought valuable new talents to the fore.

Marx & Engels: On Colonies, Industrial Monopoly, and the Working Class Movement Hamden, Conn. : Archon Books

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

Described on its first publication in 1967 as "a scholarly account of Australian music that is also entertaining social history", Roger Covell's Australia's Music: Themes of a New Society has become

a classic of Australian music history for its beautifully written explorations of almost two hundred years of music-making across classical, Indigenous and Anglo-Celtic traditions. This revised edition, including more than sixty musical examples, is supplemented by a new postscript written by the author.

The Beginning of Knowledge brings together almost all of Gadamer's essays on the Presocratics. In each of the essays Gadamer discusses the origins of knowledge in the western philosophical tradition. Beginning with a hermeneutical and philological investigation of the Heraclitus fragments he moves on to a discussion of the Greek Atomists and the Presocratic cosmologists. In the final two essays he elaborates on the profound debt that modern science owes to the Greeks and shows how their works have shaped modern day physics, mathematics and medicine. The philosophers discussed include Plato, Aristotle, Socrates, Anaximander, Heraclitus and Parmenides. This is a major work from one of the 20th century's greatest thinkers.

Subject guide to German books in print Crowood Press (UK)

After VE Day in 1945 the British population returned enthusiastically to the road. But the cost and availability of both vehicles and fuel led to the post-war scene being dominated by motorcycles, most of them ex-military machines, eagerly snapped up for everyday use in an age when a family car remained just a dream for many. The British industry, meanwhile, was exhorted to 'export or die', and until well into the 1950s the majority of new British bikes were sold abroad. During this period, the industry - the largest and most important in the world - continued to develop new and exciting machines, which increasingly populated Britain's roads. Mick Walker tells the story of the British post-war motorcycle during this golden age of the industry. Machines from the big names, AMC (AJS and Matchless), the BSA Group (BSA, Triumph, Sunbeam and Ariel), Douglas, Norton, Panther, Royal Enfield, Velocette and Vincent, are here plus a myriad of smaller firms such as Cotton, Excelsior, Francis-Barnett, James and Scott. With the help of archive photographs and advertising material this book conjures up a lost age of the British bike.

Beiträge über die "Besonderheiten der deutschen Schriftsprache im Ausland" damit begonnen, die Landschaften der Hochsprache zu bearbeiten. Was Österreich betrifft, sind zwei ausführlichere Arbeiten zu erwähnen: H. Rizzo-Baur, "Die Besonderheiten der deutschen Schriftsprache in Österreich und Südtirol", Mannheim 1962 (Duden-Beiträge 5) und Z. Yal ta, Prag, "Die österreichischen Prägungen im Wortbestand der deutschen Gegenwartssprache", 1967; dem Autor der letztgenannten Arbeit bin ich sehr zu Dank verpflichtet, daß ich das Manuskript seiner leider noch ungedruckten Arbeit einsehen durfte. Mannheim/Wien, im August 1969 Jakob Ebner Vorwort zur zweiten Auflage In der Neubearbeitung wurde der Wortschatz ergänzt und aktualisiert. Dazu

wurde das neueste Schrifttum ausgewertet, einschließlich der Jugendliteratur. Über 700 Stichwörter wurden neu aufgenommen. Dies wurde durch platzsparenden Druck ermöglicht. Außerdem wurden Wörter der älteren Literatursprache und ältere Sachbezeichnungen sowie Wörter mit zu geringem Unterschied zum Sprachgebrauch in Deutschland gestrichen. Der allgemeine Teil am Schluß des Buches wurde durch eine Darstellung der österreichischen Umgangssprache und eine Suchliste Binnendeutsch-österreichisch erweitert. Die vielen Anregungen und Korrekturvorschläge, die mich in den letzten zehn Jahren in Rezensionen und Briefen erreichten, bildeten eine wichtige Grundlage für die Neubearbeitung. Ich habe allen Benutzern und Kritikern der ersten Auflage für ihre Mitarbeit zu danken.

Matchless was one of the true pioneer motorcycle manufacturers. Their first machine was manufactured in London in 1899, and the company really came to prominence in 1907 with victory in the single-cylinder class of the first Isle of Man TT. Over the next seventy years, Matchless produced many distinguished bikes, from singles to magnificent four-cylinder machines. In 1931 Matchless acquired the ailing AJS concern, and the two companies were merged to form AMC - Associated Motorcycles. From then on Matchless and AJS machines became increasingly similar, and for a long time the machines of each mark were practically identical. Mick Walker's history of this famous marque takes in every machine and also looks at the competition fortunes of the company. Well illustrated with archive photographs, this book is a worthy tribute to this famous London manufacturer.

State Building in Afghanistan Walter de Gruyter

The roots of Japan's aggressive, expansionist foreign policy have often been traced to its concern over acute economic vulnerability. Historian Michael Barnhart tests this assumption by examining the events leading up to World War II in the context of Japan's quest for economic security. Drawing on a wide array of Japanese and American sources, this is the first English-language book on the war's origins to be based on research in archives on both sides of the Pacific. Barnhart focuses on the critical years from 1938 to 1941 as he investigates the development of Japan's drive for national economic self-sufficiency and independence and the way in which this drive shaped its internal and external policies. He also explores American economic pressure on Tokyo and assesses its impact on Japan's foreign policy and domestic economy. He concludes that Japan's internal political dynamics, especially the bitter rivalry between its army and navy, played a far greater role in propelling the nation into war with the United States than did its economic condition or even pressure from Washington. Japan Prepares for Total War sheds new light on prewar Japan and confirms the opinions of those in Washington who advocated economic pressure against Japan. At a time of growing interest in U.S.-Japanese economic relations, this book will be stimulating and provocative reading for scholars and students of international relations and American and Asian history.
