After being almost untouched for over 200 years, the contract law section of the French Civil Code was overhauled in 2016 and 2018. The New French Law of Contract describes, explains and analyses the new general principles of contract law in the reformed Code in a concise and stimulating way. The areas covered include contract formation, validity, the interpretation and supplementation of terms, the regulation of unfair terms, privity of contract, change of circumstances, breach of contract and remedies. The book examines the ways in which the new articles affirm or depart from the provisions of the 1804 Code and pre-reform case law, giving special attention to changes that have proved to be controversial and the debates that surround them. It also considers the various influences that have shaped the reforms, in particular those from international contract law instruments such as the Principle of European Contract Law and the UNIDROIT Principles. Written from the standpoint of a common lawyer, the book is designed to help readers from a common law background to navigate the innovations in the reforms and the new French law of contract that emerges. It is essential reading for students, researchers, practitioners, law-makers and judges with an interest in comparative law.

This book continues the series Select Proceedings of the European Society of International Law, containing the proceedings of the Third Biennial Conference organised by ESIL and the Max Planck Institute for Comparative Public Law and International Law in 2008. The conference was entitled 'International Law in a Heterogeneous World', reflecting an idea which is central to the ESIL philosophy. Heterogeneity is considered one of the pillars upon which Europe's contribution to international law is built and the subject was considered in a number of panels, including such diverse topics as migration, the history of international law, the rules on warfare and international environmental law.

Dissertation sur l'excellence de la Religion ... Nouvelle édition, revue et corrigée Juris Publishing, Inc.

This volume focuses on the ethical significance of human rights, aiming at contributing to a universal culture of human rights with deep roots and wide horizons. Its purpose, scope and rationale are reflected in the three-part structure of the manuscript. Part I has a broad introductory historical, theoretical and legal character. Part II submits that an Ethics of Human Rights is best understood as an Ethics of Recognition of human worth, dignity and rights. Moreover, it is argued that human worth consists in the perfectibility of the human species, rooted in its semiotic nature, to be accomplished through the perfecting of human beings, for which the right to education is key. In Part III, the main legal and political outcomes of the Human Rights Revolution are described and answers to the most lasting and common criticisms of human rights are provided. To conclude, the human stature of the Big Five drafters of the Universal Declaration of Human Rights is profiled and the priority that should be recognized to human rights education is highlighted. Some appendices supplement the manuscript. While making a case for the high value and liberating power of the idea and ideal of human rights, objections, controversies and uncertainties are not at all overlooked and emerging issues are explored. The diversity of content of this volume meets many needs of the typical syllabus for a human rights course.

This treatise on Canadian intellectual property law, written by members of the I.P. practice group of Stikeman, Elliott, is a comprehensive source for answering many of the I.P. questions that arise for both lawyers and corporate counsel. With technologies and new ideas driving today's economy as never before, intellectual property is a key factor in business success. While intellectual property is especially vital for knowledge-based industries, its importance cuts across sectors as well as national boundaries. To meet this challenge, Stikeman, Elliott takes a multi-disciplinary approach to the practice. Their team comprises dynamic and highly creative professionals, including intellectual property, corporate and international trade lawyers, who bring a wide range of training and experience to every transaction. This expertise has been critical to businesses throughout Canada and around the world who want to preserve, protect and exploit their intellectual property to the fullest while reducing the risks of jeopardizing their intellectual property assets. In addition to this work being an eminently practical reference source, it also provides insightful practice commentaries and detailed analysis of all major intellectual property law subjects. In sum, the Intellectual Property Law of Canada is a publication that anyone with Canadian I.P. interests or questions should not be without.

"John Neilson (1776-1848), of Neilson and Cowan Printers, was a nephew to William Brown, one of the first printers in Quebec. He kept up the family inheritance by publishing government documents from the legislative assembly, the Quebec Gazette and the Quebec Almanac as well as publishing enduring printed works such as Hawkin's Pictures of Quebec. Neilson's governmental publications were often printed in both English and French on opposite pages, as is the case with our copy"--Bookseller's catalogue listing
