BoD - Books on Demand
Written by Peter Moon and Radu Cinamar, a highly placed Romanian intelligence operative, this book heralds the most remarkable archaeological find in the annals of Mankind. Unbeknownst to most, there is an ancient sphinx located in the Bucegi Mountains of Romania. In 2003, the Pentagon discovered,

through the use of satellite technology, an anomaly beneath this ancient sphinx.

Through the highest levels of Freemasonry, the Pentagon was able to secure an alliance with the most secret department of the Romanian Intelligence Service which is known as Department Zero.

Together, the Romanians and the Americans utilised the Pentagon's secret technology to penetrate a hidden chamber beneath the sphinx which was otherwise inaccessible to humans. What was discovered eventually was a holographic Hall of Records left by an advanced civilisation near three mysterious tunnels leading into the Inner Earth. The book chronicles the discovery of these

modern day artefacts which represent the dawn of a new era for Mankind. Peter Moon is brought into the fold through his friend, Dr David Anderson, the mysterious scientist who founded the Time Travel Research Center on Long Island and also maintains a similar facility in Romania. Recognising that such satellite technology would had to have utilised Dr Anderson's proprietary space-time technology for maintaining satellites in orbit, Peter Moon pursues these matters further and accepts Dr Anderson's invitation to Romania where he visits the Romanian Sphinx and learns of a mysterious association between the mysterious time travel scientist and Radu Cinamar.

The History of the Talmud Wentworth Press

Originally published in French in 1935, the author's formula Byzantium after Byzantium defines several centuries of world history. Iorga points out the great contributions of Byzantine civilization to the Western world, especially during the Renaissance. He demonstrates that Byzantium survived through its people and local autonomies, as well as through its exiles--clerics, scholars, merchants, and political officials. One of the most

important expressions of this was found in the Romanian principalities where Greeks from the Phanar district of Istanbul played a major role in Romanian political life, defining an entire period of Romanian history--the Phanariot Period. They continued the Byzantine ideas, aspirations, education, and way of life. All of this allows us to speak of a Byzantium after Byzantium.

Award-winning author Yasmina Khadra gives us a stunning

panorama of life in Algeria between the two world wars, in this dramatic story of one man's rise from abject poverty to a life of wealth and adulation. Even as a child living

hand-to-mouth in a ghetto, Turambo dreamt of a better

future. So when his family find a decent home in the city of Oran anything seems possible. But colonial Algeria is no place to be ambitious for those of Arab-Berber ethnicity. Through a succession of menial jobs, the constants for Turambo are his rage at the injustice surrounding him, and a reliable left hook. This last opens the door to a boxing apprenticeship, which will ultimately offer Turambo a choice: to take his chance at sporting greatness or choose a simpler life beside the woman he loves.
