With an astounding eighteen medals in eight international championships and team gold medals at the Olympic Games in 1976 and 1984, Jack Le Goff created the standard by which modern-day equestrian teams are measured. But Le Goff's techniques could be unforgiving-tough, brutal, and abrasive-earning him critics as well as converts. In this, his autobiography, Le Goff tells the whole story, from impoverished beginnings in Morocco, to the tragic death of his father, to his successes as a competitive equestrian. Readers will enjoy a behind-the-scenes look at the inner workings of high-level international equestrian sport, as well as an entire section devoted to Le Goff's much admired and extremely successful training philosophy.

Keeker and her pony Plum enter their very first horse show, where they are confronted by much more experienced riders. *The Spell of the Horse* Willow Bend Publishing
The book reveals secrets of horse training and discloses the truth about the painful essence of the equestrian sport. The true history of the cavalry and the history of those cruel instruments of strict enforcement that people used for horses over almost thirty centuries, never thinking that there is a completely different way ... The horse crucified and risen became a best-seller in Russia, was reprinted several times and changed the worldview of thousands of people. This is the first book in the history of mankind revealing the whole truth about horse and

man relationships.

The Horse Crucified and Risen ABDO

Horse trainer is a horse which was given the ability to influence people. To influence the way people think and live. Agata Wiatrowska has been conducting development programmes with horses for years. In this space horses reveal their long-known abilities: their extraordinary sensitivity to communication and the slightest changes in approach, ability to forgive, to balance energy or contact. Agata Wiatrowska introduced this method to Polish public in 2006 and since then she continues to discover secrets of mentors based all around the world: Karin and Gerhard Krebs from Germany, David Harris from United Kingdom, June Guenter from USA, Jackie and Herb Stevenston from USA, Klaus Ferdinand Hempfling from Denmark. She directed programmes in tens of different places in Poland as well as around the world with help of hundreds of horses. She co-creates European Association of Horse Assisted Education and the HorseDream chain. . During first years of work, her programmes would go through constant transformations related to understanding her own thoughts but also related to understanding the exact role of horses in development. This book is a collection of her experiences. "In first chapters I introduce readers to the role of horses and what does being a horse trainer exactly mean. Next chapters take the reader on a journey of seeking the contact with yourself through contact with a horse and describe lessons from horse-trainers experienced by previous participants. The last part describes the role of a facilitator who creates development space for people in which horses are trainers. And some words from my friend about the book: "Like Agata, I am a seasoned consultant and Equine

Assisted Education practitioner. And I can be hard to impress. Upon first meeting Agata, I found her combination of humility, power and passion intoxicating. She cares deeply about her clients, her horses and her 'cause'-working tirelessly to help people remove their masks, find the courage to face their own truths, and show up with integrity. In reading through the chapters of "Horse as Trainer," I felt the depth of her knowledge and experience so keenly that it led me to question my own approach to working with horses. The examples she shares so vividly make crystal clear her key points. The research she has done to validate the work is thorough, and the results are inarguable. There are many people out there who go through the motions of conducting horse assisted education sessions, but few are able to attain her level of expertise. Anyone engaged in this work should make it their business to read this book, and if the opportunity arises, meet her face to face! Nikki L. Blood Horses Knopf Books for Young Readers

The book for which people have been asking Monty Roberts for years, *Join-Up* describes how what he has learnt from horses can play an important role in improving our lives. Monty Roberts has been travelling all over the world, demonstrating his work for the last ten years. Public reaction to him, and to his books, has confirmed his belief that the concepts of *Join-Up* can help humans

develop both business and personal communication. For many years corporations have been sending their managers to Monty Roberts' demonstrations, and the messages of non-violence, of listening, and of the importance of trust have been successfully developed in many of the companies. But Monty and Pat Roberts have also fostered over forty children and have seen how the same concepts of mutual agreement and trust can be used with great benefits in a family environment. Join-Up is full of stories of those who have found, through Monty Roberts, the strength to face their problems whatever they may be. Some are heart-wrenching, some are funny, all are illuminating. Join-Up is full of new stories about some of the horses he has worked with, and from whom he has learnt what he believes. The Man Who Listens To Ho

Horses! (Animal Planet Chapter Books #5) Ballantine Books True Blue is a beauty, a dappled gray, and when Abby gets to take him to her family's ranch, she can hardly believe her luck. The horse needs a home: his owner—a woman brand new to the riding stable—was tragically killed in a car crash and no one has claimed him. Daddy is wary, as always. But Abby is smitten. True Blue is a sweetheart, and whenever Abby calls out, "Blue, Blue, how are you?" he whinnies back. But sometimes True Blue seems . . . spooked. He paces, and always seems to be looking for something. Or someone. Filled with riding scenes and horse details, this newest middle-grade novel from a Pulitzer Prize winner offers a mysterious and suspenseful almost-ghost story. #1 NEW YORK TIMES BESTSELLER • The dramatic and inspiring story of a man and his horse, an unlikely duo whose rise to stardom in the sport of show jumping captivated the nation Harry de Leyer first saw the horse he would name Snowman on a truck bound for the slaughterhouse. The recent Dutch immigrant recognized the spark in the eye of the beaten-up nag and bought him for eighty dollars. On Harry's modest farm on Long Island, he ultimately taught Snowman how to fly. Here is the dramatic and inspiring rise to stardom of an unlikely duo. One show at a time, against extraordinary odds and some of the most expensive thoroughbreds alive, the pair climbed to the very top of the sport of show jumping. Their story captured the heart of Cold War-era America—a story of unstoppable hope, inconceivable dreams, and the chance to have it all. They were the longest of all longshots—and their win was the stuff of legend.

The Horse, the Wheel, and Language Penguin

One evening late in his life, veteran sportswriter Mike Sullivan was asked by his son what he remembered best from his three decades in the press box. The answer came as a surprise. "I was at Secretariat's Derby, in '73. That was . . . just beauty, you know?" Sullivan didn't know, not really: the track had always been a place his father disappeared to once a year on business, a source of souvenir glasses and inscrutable passions in his Kentucky relatives. But in 2000, Sullivan, an editor and essayist for Harper's, decided to educate himself. He spent two years following the horse—both across the country, as he watched one season's juvenile crop prepare for the Triple Crown, and through time, as he tracked the animal's constant evolution in literature and art, from the ponies that appeared on the walls of European

caves 30,000 years ago, to the mounts that carried the Indo-European language to the edges of the Old World, to the finely tuned but fragile yearlings that are auctioned off for millions of dollars apiece every spring and fall. The result is a witty, encyclopedic, and in the end profound meditation on what Edwin Muir called our "long-lost archaic companionship" with the horse. Incorporating elements of memoir and reportage, the Wunderkammer and the picture gallery, *Blood Horses* lets us see—as we have never seen before—the animal that, more than any other, made us who we are.

Frosty: The Adventures of a Morgan Horse *Howell Book House
With horses, we don't get a “do-over button,” as much as we'd sometimes like one. We have to live with the choices we make, even when—looking back—we know there might have been a better way to communicate, a different way to teach a new lesson, or another means to reach the desired end. In this smart, honest book chock full of valuable takeaways, gold medalist and renowned rider and coach Denny Emerson uses stories of the standout horses from his own riding career, which spans almost 70 years, to detail some of the things he wishes he'd known “then” that he knows now. With a candid willingness to share mistakes he's made over the years and clearly articulated ideas on how others can avoid them, he commits himself and those reading to finding more conscientious ways to ride, train, and work with horses. From basics like aids and equipment to more specialized subjects, such as rider fitness, emotional control, and how to determine what success with your horse really means, riders of all skill levels can gain valuable, hard-won knowledge from his bite-size lessons in life and horsemanship. Perhaps most importantly, Emerson insists that it is never, ever too late to change—for the good of the horse and for the good of oneself.
