In her debut cookbook, acclaimed chef Angela Dimayuga shares her passion for Filipino food with home cooks. *Filipinx* offers 100 deeply personal recipes—many of them dishes that define home for Angela Dimayuga and the more than four million people of Filipino descent in the

United States. The book tells the story of how Dimayuga grew up in an immigrant family in northern California, trained in restaurant kitchens in New York City—learning to make everything from bistro fare to Asian-American cuisine—then returned to her roots, discovering in her family's home cooking the same intense attention to detail and technique she'd found in fine dining. In this book, Dimayuga puts a fresh spin on classics: adobo, perhaps the Filipino dish best known outside the Philippines, is traditionally built on a trinity of soy sauce, vinegar, and garlic—all pantry staples—but add coconut milk, vinegar, and oil, and it turns lush and silky; ribeye steaks bring extra

richness to bistek, gilded with butter and a bright splash of lemon and orange juice. These are the punches of flavor and inspired recipes that home cooks have been longing for. A modern, welcoming resource for this essential cuisine, Filipinx shares exciting and approachable recipes everyone will wholeheartedly embrace in their own kitchens.

This book promotes the well-being of the commons through representation and accountability through monitoring from below in order to operationalize engagement. This book views the commons as a legal concept, a transformative governance concept, and a basis for systemic ethics. The chapters focus on practical responses to address complex problems that comprise many interrelated variables and are perceived differently by stakeholders with different values and life experiences. By considering these different stakeholders, the goal is to highlight ways to regenerate and

invigorate employment opportunities. The book identifies pathways towards ethical vocational education to enable lifelong engagement by active citizens which requires action learning to address areas of perceived policy concern. Throughout the chapters in this book, the authors discuss transformative research and its implications on stakeholders. They focus on re-presentation and its implications for thinking and practice. One author makes the case for fostering non anthropocentric approaches to ethical development. In addition, the chapters cover case studies including governance challenges associated with water management using a mixed method approach and also production of mushrooms in collaboration with coffee growers in Jakarta. The book focuses on ways to de-colonialise knowledge formation in public policy and makes the case for an alternative approach to governance and democracy that takes into account a range of local people's perspectives.

This book uses mixed methods to extend the concept of “wellbeing

stocks” to refer to dynamic ways of working with others. It addresses metaphors and praxis for weaving together strands of experience. The aim of the wellbeing stocks concept is to enable people to re-evaluate economics and to become more aware of the way in which we neglect social and environmental aspects of life. The pursuit of profit at the expense of people and the environment is a central problem for democracy and governance. The vulnerability of cities is a symptom of the lack of balance between individual and collective needs. This book explores the potential for cities, specifically in the regions of Indonesia, Africa, and Australia, to become more productive as sites for food and water security through more creative use of technology. It highlights the need for partners that see food and security feasible at the household level if supports are provided at the community, national and international level. The book examines how these regions are affected by demographics, climate change and people movements, but also explores ways to establish an effective cultural

ecosystem management.

The first in a steampunk paranormal romance series in which a woman is transported to a world filled with vampires and magic. When nurse Tish Everett forced open the lovely locket she found at an estate sale, she had no idea she was answering the call of Criminy Stain, from the far off land of Sang. He'd cast a spell for her, but when she's transported right to him, she's not so sure she's ready to be under the spell of another man. If only Criminy wasn't so deliciously rakish... Half the inhabitants of Sang are Pinkies—human—and the other half are Bludmen, who in Tish's

world would be called vampires. But they don't mess with any of the bat/coffin/no sunlight nonsense. They're rather like you and me, just more fabulous, long living, and mostly indestructible—they're also very good kissers. But when the evil Mayor of Manchester (formerly Bludchester) redoubles his efforts to rid Sang of the Bludmen once and for all, he steals Tish's locket in hopes of traveling back to her world himself for reinforcements. Criminy and Tish must now battle ghosts, sea monsters, wayward submarines, a secret cabal, and thundering Bludmares to get the locket back and allow Tish to return home...but has she found love with Criminy? Could she stay in Sang forever?

Pemerintah telah memutuskan bahwa pada akhir tahun 2023, tenaga honorer dihapuskan termasuk tenaga guru honorer. Pada tahun 2020, penggunaan dana Bantuan Operasional Sekolah (BOS) masih didominasi oleh pembayaran untuk guru honorer. Kondisi rasio siswa-guru akan rendah apabila hanya mengandalkan guru PNS. Hal yang menjadi perlu perhatian berdasarkan analisis regresi, rasio

siswa-guru yang rendah akan berdampak pada kualitas pendidikan yang rendah pula. Untuk itu, kebijakan penghapusan guru honorer perlu dilakukan secara hati-hati terutama bagi daerah yang berdasarkan analisis kuadran memiliki jumlah guru sedikit dan berkualitas pendidikan rendah. Penghapusan guru honorer dapat dilakukan selama rasio siswa-guru dapat dipertahankan melalui penambahan jumlah guru ASN (PNS dan PPPK). Keras berikhtiar, gigih
