Cinema Sewer Volume
Four is a mind-melting
compilation of gonzo
writing, illustration and
comics about the most
insane, sexy, awkward,
cheesy, hilarious,
upsetting and jaw-
dropping movies in the
history of film. Cinema
Sewer joyously and
shamelessly celebrates
the sleazy aspects of
bizarre cinematic history.
Issues 21 to 23 of Robin

This book presents the

first in-depth study of
online misogyny and the
manosphere from a
psychoanalytic
perspective. The author
argues that the men of
the manosphere present
contradictory thoughts,
desires and fantasies
about women which
include but also go
beyond misogyny. They
are in a state of
dis/inhibition: torn
between (un)conscious
forces and fantasies which
erupt and are defended
against. Dis/inhibition
shows itself in self-
victimization and
defensive apathy as well
as toxic agency and
symbolic power and
expresses itself in desire
for and hatred of other
bodies. The text draws on
the psychoanalytic
thinkers Klaus Theweleit,
Elisabeth Young-Bruehl,
Jessica Benjamin and
Wilhelm Reich to present

detailed analyses of the
communities within the
so-called manosphere,
including incels, Men
Going Their Own Way
(MGTOW), alt-right
YouTubers and NoFap
users. Drawing on wider
discussions about the
status of sexuality in
contemporary neoliberal
technoculture since the
sexual revolution of the
late 1960s, it illuminates
how sexuality, racism and
images of the white male
body shape the fantasies
and affects of many men
on the internet and
beyond. Integrating a
unique theoretical
framework to help
understand how today's
increase in online
misogyny relates to the
alt-right and fascism,
Online Misogyny and the
Manosphere is an
important resource for
academics in a variety of
fields including

psychoanalysis, media and communication studies, internet studies, masculinity research and more.

Child pornography, particularly that available via the Internet, has become a cause of huge social concern in recent years. This book examines the reality behind the often hysterical media coverage of the topic.

Drawing on extensive new research findings, it examines how child pornography is used on the Internet and the social context in which such use occurs, and develops a model of offending behaviour to better help understand and deal with the processes of offending. Detailed case studies and offenders' own accounts are used to

illustrate the processes involved in offending and treatment. The authors argue that we need to refine our ideas of offending, and that while severe deterrents need to be associated with possession of child pornography, a better understanding is needed of the links between possession and committing a contact offence. Only by improving our understanding of this complex and very controversial topic can we hope to deal effectively with offenders and with their child victims. This is a book which will become an essential read for anyone involved with offenders or victims from a psychological, judicial or social background.

This is a compelling study of the often controversial role and meaning of the new media and digital cultures in contemporary society. Three decades of societal and cultural alignment of new media yielded to a host of innovations, trials, and problems, accompanied by versatile popular and academic discourse. "New Media Studies" crystallized internationally into an established academic discipline, which begs the question: where do we stand now; which new issues have emerged now that new

media are taken for granted, and which riddles remain unsolved; and, is contemporary digital culture indeed all about 'you', or do we still not really understand the digital machinery and how it constitutes us as 'you'. From desktop metaphors to Web 2.0 ecosystems, from touch screens to blogging to e-learning, from role-playing games to Cybergoth music to wireless dreams, this timely volume offers a showcase of the most up-to-date research in the field from what may be called a 'digital-materialist' perspective.

This catalogue is the first comprehensive publication on Price's varied oeuvre. It offers an

unflinching portrait of contemporary, mediated Western life. The exhibition at Stedelijk Museum is the first survey of the American artist's work. A key theme in Price's work is the self under technological pressure. This is often expressed in terms of the 'skins' of surface, packaging, and wrapping: a photographic study of a person's skin obtained through the technologies Google employs for mapping; a vacuum-formed plastic relief presenting a body part stranded in plastic; a large wall sculpture depicting the negative space between two people engaged in intimate action, greatly enlarged from a tiny internet jpeg. 'Seth Price is a key figure in addressing technology and artistic authorship. His work traces an important art historical shift from the concept of collage, where chance played a major role and the image was constructed of multiple layers, to the concept of a unified image, which envelops us in an endless, undifferentiated, digital stream.' - Beatrix Ruf, Director of Stedelijk Museum
Published on the occasion of the exhibition Seth Price: Social

Synthetic, at Stedelijk Museum, Amsterdam (15 April - 3 September 2017), and at Museum Brandhorst, Munich (12 October 2017 - 18 March 2018).

Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia.

Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to

understand the paradoxical globalization of countercultures, *Global Nomads* develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

This book explores the relationships between popular music, technology, and the changing media ecosystem. More precisely, it looks at infrastructures and practices of music making and consuming primarily in the post-Napster era of digitization – with some chapters looking back on the technological precursors to digital culture – marked by the emergence of digital tools and platforms such as YouTube or Spotify. The first section provides a critical overview of theories addressing popular music and digital technology, while the second section offers an analysis of the relationship between musical cultures, taste, constructions of authenticity, and technology. The third section offers case studies on the materialities of music consumption from outside the western core of popular music production. The final section reflects on music scenes and the uses and discourses of social media.

That Winter Cambridge Scholars Publishing
Fewer Canadians than ever are lacing up skates,

swimming lengths at the pool, practicing their curve ball, and experiencing the thrill of competition. However, despite a decline in active participation, Canadians spend enormous amounts of time and money on sports, as fans and followers of sporting events and sports culture. Never has media coverage of sports been more exhaustive, and never has it been more driven by commercial interests and the need to fuel consumerism, on which corporate profits depend. But the power plays now occurring in the arena of sports are by no means solely a matter of money. At issue as well in the media capture of sports are the values that inform our daily lives, the physical and emotional health of the population, and the symbols so long central to a sense of Canadian identity. Writing from a variety of perspectives, the contributors to this collection set out to explore the impact of the media on our reception of, and attitudes toward, sports—to unpack the meanings that sports have for us as citizens and consumers. Some contributors probe the function of sports as

spectacle—the escalation of violence, controversies over drug use, and the media’s coverage of tragic deaths—while others shed light on the way in which the media serve to transform sports into a vehicle for the expression of identity and nationalism. The goal is not to score points but to prompt critical discussion of why sports matter in Canadian life and culture and how they contribute to the construction of identity.

More than one-half million people of Korean descent reside in Japan today—the largest ethnic minority in a country often assumed to be homogeneous. This timely, interdisciplinary volume blends original empirical research with the vibrant field of diaspora studies to understand the complicated history, identity, and status of the Korean minority in Japan. An international group of scholars explores commonalities and contradictions in the Korean diasporic experience, touching on such issues as citizenship and belonging, the personal and the political, and homeland and hostland.

Collected interviews featuring the Nebula Award-winning author and his thoughts on topics like literary criticism, comic books, race, and sexuality. For nearly three decades, Samuel R. Delany’s science fiction has transported millions of readers to the fringes of time, technology, and outer space. Now Delany surveys the realms of his

own experience as a writer, critic, theorist, and gay Black man in this collection of written interviews, a type of guided essay. Because the written interview avoids the “mutual presence positioned at the semantic core” of traditional interview, Delany explains, “a kind of cut remains between the participants—a fissure in which the truths there may be more malleable, less rigid.” Within that fissure Delany pursues the breadth and depth of his ideas on language and theory, the politics of literary composition, the experience of marginality, and the philosophical, commercial, and personal contexts of writing today. Gathered from sources as diverse as *Diacritics* and *The Comics Journal*, these interviews reveal the broad range of Delany’s thought and interests. “Delany has a unique place in late twentieth century letters. A lifelong inhabitant of the margins, both social and literary, he has used his marginalized status as a lens to focus his astute observations of American literature and society. From these interviews his voice emerges, provocative, precise, and engaging.” —Kathleen

Spencer, University of Nebraska "Samuel R. Delany never shies away from contestable positions or provocative opinions. In his fiction, Delany can write like quicksilver, and in lectures or panel discussions, he is easily SF's most articulate spokesperson in academia. . . . There is much here that is not covered in Delany's critical or autobiographical writings, and much that anyone seriously interested in SF—or many of Delany's other favorite topics—ought to consider." —Locus

"Delany is fascinating whether discussing SF, comics, or his experiences as a Black American, and this collection . . . is as entertaining as it is informative." —Science Fiction Chronicle

"Yevgeny Zamyatin? Stanislaw Lem? Forget it! Delany is both, with a lot of Borges and Bruno Schultz thrown in." —Village Voice

The Cambridge History of the Graphic Novel provides the complete history of the graphic novel from its origins in the nineteenth century to its rise and startling success in the twentieth

and twenty-first century. It includes original discussion on the current state of the graphic novel and analyzes how American, European, Middle Eastern, and Japanese renditions have shaped the field. Thirty-five leading scholars and historians unpack both forgotten trajectories as well as the famous key episodes, and explain how comics transitioned from being marketed as children's entertainment. Essays address the masters of the form, including Art Spiegelman, Alan Moore, and Marjane Satrapi, and reflect on their publishing history as well as their social and political effects. This ambitious history offers an extensive, detailed and expansive scholarly account of the graphic novel, and will be a key resource for scholars and students.

Lyombe Eko carries out an historical and cultural survey of the regulation of visual depictions of explicit human sexual conduct from their earliest appearance on the clay tablets of the valley of the Tigris and Euphrates rivers in ancient Mesopotamia, to the tablet computers of Silicon Valley. The Regulation of Sex-Themed

Visual Imagery analyzes the contemporary problem of the applicability of the human right of freedom of expression to explicit imagery in the face of societal interests in the regulation of representations of human sexuality. This book will

be of interest to scholars, students, and broad audiences interested in comparative studies in pornography regulation, the history of pornography, the law of pornography and obscenity, and visual culture and history alike.
