In the field of knowledge discovery, graphs of concepts are an expressive and versatile modeling technique providing ways to reason about information implicit in a set of data. Interesting examples of this can be found under the mathematical theory of formal concept analysis, dedicated to the construction of a lattice of concepts by defining a Galois connection on a binary relationship. This book present such graph of concepts under the more complex case of data that comes in a set of structured objects; e.g. a set of sequences, trees or graphs. Nodes of this graph will represent patterns in the data and edges will correspond to relationships of specificity. From this combinatorial object results are derived such as a full characterization of logical implications and closed partial orders. The results presented in this book are coupled with examples and empirical experiments that illustrate the derived theoretical contributions.

Narcissists manipulate and hurt people. They seek to make your life an extension of theirs and delete your boundaries. They dehumanize you! Can you relate to any of the statements above? If so, then keep reading... James was the perfect partner for the first few months after I met him. He seemed to be a proper gentleman, showed the greatest level of chivalry, and was caring to a fault. I could barely point out any flaws in him. And then, it all began! The man I married gradually revealed his narcissistic nature, but I was already hooked to his show. I became the victim of a carefully-orchestrated plan to take me out of touch with who I was. I lost direction under his clever manipulation. I learned to tolerate abuse, emotional, and verbal. I lived in fear of everything - of displeasing him or even, of being myself. I tried to fight back, but I only succeeded in hurting myself further. Under his clever ministrations, I came to believe a new truth. I was the nagging wife who couldn't tolerate his excesses. The abuse I received was my fault. I should be doing better to make him more comfortable. I was the

angry partner who didn't understand that love is full of sacrifices. For the ten years I was married to James, life was a jumble of pain, abuse, fear, emotional devastation, codependency, and short, intermittent doses of care that confirmed to me that I was bad, and he was good. I was broken, lost, and unrecognizable. This is the fate of most victims of narcissistic abuse. This was my fate until I decided to change it. Do you sense a kindred spirit in my story? Have you lost your identity to your relationship? Are you me right now? Does everything seem lost? In In Narcissism No More, here's just a fraction of what you'll discover: An acid test to find out if your living with a narcissistic person A day in the life of a narcissistic victim The 4 MAIN types of Narcissists to keep an eye out for The top 5 ways to communicate with a narcissist Why you need to make new relationships and shouldn't be scared of them Hand held guidance to drawing boundaries and facing your fears 2 well known super powers to fend off narcissism How you can rebuild a damaged relationship and not call it quits 4 ways to put an end to a narcissistic relationship if there's no turning back And so much

more... A narcissistic relationship can blur the edges of your realities. It can isolate you and drain the life out of you. It can be depressing and toxic to you. I have good news, though.
