AQA A-Level Sociology BRILLIANT EXAM NOTES (Book 2) Rowman & Littlefield

In this major new work, which Zygmunt Bauman calls a "'tour de force" of breathtaking erudition and clarity', Jock Young charts the movement of the social fabric in the last third of the twentieth century from an inclusive society of stability and homogeneity to an exclusive society of change and division. Jock Young, one of the foremost criminologists of our time, explores exclusion on three levels: economic exclusion from the labour market; social

exclusion between people in civil society; and the ever-expanding exclusionary activities of the criminal justice system. Taking account of the massive dramatic structural and cultural changes that have beset our society and relating these to the quantum leap in crime and incivilities, Jock Young develops a major new theory based on a new citizenship and a reflexive modernity.

These eBooks have been written by examiners and experienced teachers using their expertise to help students achieve the best possible grade in their exam. These exam notes have been carefully written using student friendly language and a layout that students will find easy to understand. This content in this book follows the latest AQA sociology specification.

Description How to get an A*
DEAL EFFECTIVELY WITH THE EVALUATION PART OF THE EXAM: Contrary to popular belief, learning and memorising lots of

facts and theories will not get you a grade A or B in your exam. To achieve the highest grades possible, the exam requires you to be able to 'analyse' and 'evaluate' sociological knowledge, this does not mean jotting down a few brief criticisms at the end of your essay. The analysis and evaluation that you make, needs to be expanded upon and explained in an effective manner. With this in mind, we have written a lot of the evaluation points using the three-step-rule: identify, expand and conclude. We have done this for you in this book to demonstrate what a 'developed' evaluation point looks like. Please try and remember this technique and demonstrate it in your exam to achieve the highest grade possible. **LOTS OF EXAM QUESTIONS:** We have given you

lots of exam questions at the end of each exam note to practise. We have covered most of the different types of questions you may be asked for each topic both at AS and at A Level. If you are taking the A level course, it is a good way of testing and practising both your knowledge and examination skills. You may realise some of the questions require the same answers, but are worded differently, this was deliberate, just so you are familiar with the different way the questions could be worded.

AS and A Level Sociology Hachette UK 'Immersing himself in the whirling uncertainty of late modernity, confronting its odd deformities of essentialism and exclusion, Jock Young has produced a comprehensive account of contemporary trouble, anxiety, and

transgression. If this is criminology-and it's surely criminology of the best sort-it is a criminology able to account not just for crime and inequality, but for the cultural and the economic, for the existential and the ontological as well. Perhaps most importantly, it is a criminology designed to discover in these intersecting social dynamics real possibilities for critique, hope, and human transformation. Jock Young's *The Vertigo of Late Modernity* is a work of sweeping-dare I say, dizzying-intellect and imagination.' - Professor Jeff Ferrell, Texas Christian University, USA, and University of Kent, UK 'This is precisely what readers would expect from the author of two instant classics: a book that is bound to become the third. As is his habit, Jock Young launches a frontal

attack on the 'commonsense' of social studies and its tacit assumptions - as common as they are misleading. Futility of the 'inclusion vs exclusion', 'contented vs insecure', or indeed 'normal vs deviant' oppositions in the globalised and mediatized world is exposed and the subtle yet thorough interpenetration of cultures and porosity of boundaries demonstrated beyond reasonable doubt. The newly coined analytical categories, like chaos of rewards and chaos of identity, existential vertigo, bulimic society or conservative vs liberal modes of othering are bound to become an indispensable part of social scientific vernacular - and let's hope that they will, for the sanity and relevance of the social sciences' sake' - Zygmunt Bauman, Emeritus Professor of Sociology,

University of Leeds 'Jock Young is one of the great figures in the history of criminology. In this book he prises open paradoxes of identity in late modernity. We experience an emphasis on individualism in an era when shallow soil forms a foundation for self-development. Young deftly analyses shifts in conditions of work and consumption and the insecurities they engender. This is a perceptive reformulation of job, family and community in late modernity' - Professor John Braithwaite, Australian National University The Vertigo of Late Modernity is a seminal new work by Jock Young, author of the bestselling and highly influential book, The Exclusive Society. In his new work Young describes the sources of late modern vertigo as twofold: insecurities of status and of

economic position. He explores the notion of an underclass and its detachment from the class structure. The book engages with the ways in which modern society attempts to explain deviant behaviour - whether it be crime, terrorism or riots - in terms of motivations and desires separate and distinct from those of the 'normal'. Young critiques the process of othering whether of a liberal or conservative variety, and develops a theory of 'vertigo' to characterise a late modern world filled with inequality and division. He points toward a transformative politics which tackle problems of economic injustice and build and cherish a society of genuine diversity. This major new work engages with some of the most important issues facing society

today. The *Vertigo of Late Modernity* is essential reading for academics and advanced students in the areas of criminology, sociology, cultural studies, anthropology and the social sciences more broadly.

'Beautifully written and superbly conceived, with illustrations and examples that combine theory and practice across a range of disciplines, Cultural Criminology should be read by anyone - academics and smart readers alike - interested in crime, media, culture and social theory. Bravo to Ferrell, Hayward and Young on a tour de force that is at once cool and classic! CUNY, USA `This is not just a book on the present state and possible prospects of our understanding of crime, criminals and our responses to both. However greatly criminologists might benefit from the authors' illuminating insights and the new cognitive vistas their investigations have opened, the impact of this book may well stretch far beyond the realm of criminology proper and mark a watershed in the progress of social study as such.' - Zygmunt Bauman, Emeritus Professor, University of Leeds, UK

`Cultural Criminology offers a fresh new perspective on both criminality and criminal justice. It outlines the cultural hegemony of the powerful while also documenting the growing resistance to mindless criminalization and mass incarceration. Artfully written, the

authors also document the work of those consciously creating a new political space to challenge the increasingly global, security society that seems inextricably tied up with late capitalism.'

- Meda Chesney-Lind, University of Hawaii at Manoa `Creative, challenging and controversial: a manifesto for mean times' - Tony Jefferson, Visiting Presidential Scholar, John Jay College of Criminal Justice, USA Here is the definitive book on cultural criminology. Lively, innovative, engaging and accessible, Cultural Criminology draws together the work of three of the leading international figures in the field today. The book traces the history, current configuration, methodological innovations and future trajectories of cultural criminology, mapping its terrain

for students and academics interested in this exciting field. The book highlights and analyses issues of representation, meaning and politics in relation to crime and criminal justice, covering areas such as: - Crime and the media - Everyday life and everyday transgression - Popular culture - Consumerism - Globalisation - Social control The use of vignettes, case studies and visual material throughout the text brings the subject to life. Cultural Criminology is indispensable to students, lecturers and researchers in criminology, sociology, cultural studies and media studies. "This book is superb in every way.... [It] is the only book that attempts to put into perspective just what the possible

relationship between praxis and Marxist criminology might (should) be." --Eleanor Miller, University of Wisconsin, Milwaukee In this expanded and updated second edition of a revered reader in Marxist criminology, editor David F. Greenberg brings together writings about crime that range from classic articles by Karl Marx and Friedrich Engels to a variety of contemporary essays. Taking an explicitly Marxist point of view, the articles deal with various aspects of criminology, including organized crime, delinquency, urban crime, criminal law, and criminal justice.
