Études platoniciennes, 1929-1979 BRILL

This book reveals the importance of urban history writing in early modern France for individual towns and the French kingdom. It demonstrates how local scholars developed useful historical narratives, interacted within the Republic of Letters, and created a French identity.

Cicero On Divination. Book 1 St. Martin's Press

Until recently the people of Kulbi-Kenipagan lived on the fringes of the modern world following traditional customs and beliefs, practicing shifting agriculture, and leading an outwardly peaceful existence in a remote corner of Palawan island. Yet this small community, basically indistinguishable in society and culture from its immediate neighbors to the north, has one of the highest rates of suicide in the world. Why would the comparatively happy and well-off inhabitants of Kulbi fall victim to despair? *Uncultural Behavior* investigates the mystery of self-inflicted death among this nonviolent and orderly people in the Southern Philippines. To make sense of such a phenomenon, Charles Macdonald probes the beliefs, customs, and general disposition of this Palawan people, exploring how they live, think, behave, and relate to one another. Early chapters examine group formation and the spatialization of social ties, material culture, marriage, and law, providing an extensive ethnographic account of the Kulbi way of life. The author offers insights into the spiritual world of the community and addresses the local theory of emotions and the words that supply the vocabulary and idiom of indigenous commentaries on suicide. A well-documented case study of a suicide and its aftermath gives readers an idea of how Kulbi people treat suicide and their conflicting views on the subject. Following an analysis of statistical information, the author presents five "profiles," bringing together motivations, actors, and circumstances. He concludes by examining the perspectives of neurobiology and genetics as well as psychology, sociology, and history.

Le mythe est un outil puissant : là où la raison réclame du temps, de l'attention, une éducation, voire une méthode, le mythe ne demande rien ou presque. Il touche à l'imagination, joue sur la sensibilité, transmet avec simplicité et efficacité. Il est le vecteur idéal pour la propagation de ce que l'on juge universel. Il est aussi une arme redoutable aux mains des démagogues. Le mythe, de façon ambivalente, structure ainsi notre culture. De Sisyphe à Jeanne d'Arc en passant par l'Éternel retour ou bien encore la Joconde, Batman ou le Père Noël, 100 mythes d'hier et d'aujourd'hui sont analysés, auscultés pour ce qu'ils nous révèlent, et pour ce qu'ils nous dissimulent.

"Here finally are Eliade's memoirs of the first thirty years of his life in Mac Linscott Rickett's crisp and lucid English translation. They present a fascinating account of the early development of a Renaissance talent, expressed in everything from daily and periodical journalism, realistic and fantastic fiction, and general nonfiction works to distinguished contributions to the history of religions. Autobiography follows an apparently amazingly candid report of this remarkable man's progression from a mischievous street urchin and literary prodigy, through his various love affairs, a decisive and traumatic Indian sojourn, and active, brilliant participation in pre-World War II Romanian cultural life."—Seymour Cain, *Religious Studies Review*

Autobiography, Volume 2 BRILL

Interpretations of Greek Mythology, first published in1987, builds on the innovative work of Walter Burkert and the 'Paris school' of Jean-Pierre Vernant, and represents a renewal of interpretation of Greek mythology. The contributors to this volume present a variety of approaches to the Greek myths, all of which eschew a monolithic or exclusively structuralist hermeneutic method. Specifically, the notion that mythology can simply be read as a primitive mode of narrative history is rejected, with emphasis instead being placed on the relationships between mythology and history, ritual and political genealogy. The essays concentrate on some of the best known characters and themes – Oedipus, Orpheus, Narcissus – reflecting the complexity and fascination of the Greek imagination. The volume will long remain an indispensable tool for the study of Greek mythology, and it is of great interest to anyone interested in the development of Greek culture and civilisation and the nature of myth.

This volume, the proceedings of the conference, contains 53 of the papers read at the 55th annual Rencontre, including primarily papers directly connected with the theme and some on areas of related interest. The papers covered every period of Mesopotamian history, from the third millennium through the end of the first millennium B.C.E. The photo on the back cover shows only a representative portion of the attendees, who were warmly hosted by faculty and students from the Collège de France.

Historical Communities BRILL

"Terence Cave's work has made a major contribution to the rethinking of the relationship between literature, history and culture over the last half-century. Retrospectives brings together substantially revised versions of studies written since 1970: together they constitute a searching methodological investigation of the practice of reading past texts. How do our ways of reading such texts compare with those practised in the periods when they were written? How do we distinguish between what a text meant in its own time and what it has come to mean over time? And how might reading provide access to past experiences? The book's epicentre is early modern French culture, but it extends to that culture's ancient Greek and Roman models, its European contexts, and the afterlives of some of its themes, from Pascal via George Eliot to Angela Carter." - -Book Jacket.

Dans *La Splendeur des dieux*, Gaëlle Tallet aborde la question de la transformation des divinités égyptiennes à l'époque gréco-romaine et de l'hellénisation de leur iconographie en interrogeant les enjeux de l'élaboration d'un hellénisme proprement égyptien, et les stratégies qu'il recouvre. In *La Splendeur des dieux*, Gaëlle Tallet provides a full reappraisal of the transformation of Egyptian deities and of their Hellenized depiction in Graeco-Roman times, and questions the issues and strategies at stake behind the elaboration of an Egyptian Hellenicity.

Plato and Myth BRILL

In *Socialism of Fools*, Michele Battini focuses on the critical moment during the Enlightenment in which anti-Jewish stereotypes morphed into a sophisticated, modern social anti-Semitism. He recovers the potent anti-Jewish, anticapitalist propaganda that cemented the idea of a Jewish conspiracy in the European mind and connects it to the atrocities that characterized the Jewish experience in the nineteenth and twentieth centuries. Beginning in the eighteenth century, counter-Enlightenment intellectuals and intransigent Catholic writers singled out Jews for conspiring to exploit self-sustaining markets and the liberal state. These ideas spread among socialist and labor movements in the nineteenth century and intensified during the Long Depression of the 1870s. Anti-Jewish anticapitalism then migrated to the Habsburg Empire with the Christian Social Party; to Germany with the Anti-Semitic Leagues; to France with the nationalist movements; and to Italy, where Revolutionary Syndicalists made anti-Jewish anticapitalism the basis of an alliance with the nationalists. Exemplified best in the Protocols of the Elders of Zion, the infamous document that "leaked" Jewish plans to conquer the world, the Jewish-conspiracy myth inverts reality and creates a perverse relationship to historical and judicial truth. Isolating the intellectual roots of this phenomenon and its contemporary resonances, Battini shows us why, so many decades after the Holocaust, Jewish people continue to be a powerful political target. *L'Hymnaire manichéen chinois Xiabuzan* 西巴祖贊 à l'usage des Auditeurs Les Éditions de l'Opportun Wardle's commentary will stand for decades to come as a worthy modern counterpart and
