IAS Mains Civil Services General Studies Chapterwise Solved Papers (2021-1997) Prabhat Prakashan

This book explores the personal and professional lives of women in the Indian Civil Services and analyses the dynamics of gender and workplace identities for women in government. Based on first-hand interviews of women civil servants at various levels and ages, this book presents a narrative of their work conditions, the degrees of authority they exercise and their perceptions of themselves - in relation to their children, husbands, family, male and female colleagues, politicians and the public at large. It addresses pertinent issues like work-family balance, workforce diversity, equal employment opportunity, sexual harassment at the workplace, among others. Through this research, the author addresses questions such as, do women in public administration think differently from their male colleagues? And do they exercise

different leadership styles, prioritise different issues, approach problems differently, make decisions in markedly different ways and play an actively representative role? This book helps to identify major obstacles that hinder the participation of women in decision-making and uncovers the bottlenecks that impede women's advancement in the civil services specifically to policymaking positions. An important and timely study, this book will be useful for scholars and researchers of gender studies, public administration, management and leadership studies. It will also be of interest to organisations working on issues of equal opportunity and affirmative action in public institutions.

"Functioning of Panchayat Raj in India has been a matter of debate and speculation about its performance and impact. In almost all states, two or three rounds of elections for panchayats have been completed. The sizeable presence of underprivileged and poor in the grassroots political institutions is a landmark development in the rural politics of the country. This is also a matter of serious debate as to how this excluded lot after their inclusion in active politics at grassroots would effectively tackle local power equation and set the agenda for development. The responses of state governments to the implementation of Panchayat Raj varied significantly and it is very difficult to generalise about this issue on the basis of their functioning for the last one decade or so. A perusal of functioning of Panchayat Raj puts forward a mix scenario with enough evidences of positive movements and several hurdles, nevertheless a hope for the best can be expected at this juncture. This book is divided into six sub-themes, viz., Structure and Functioning of PRIs, Marginalised Sections and their Participation, Institutional Mechanism and Grassroots Decision-Making, Natural Resource Management and PRIs, NGOs, Panchayats and Capacity-Building Initiatives and Decentralised Planning and Finance. It will interest a wide range of readers, including researchers, bureaucrats, policy makers, planners and those concerned with the plight of

tribals."

This book examines public administration in South Asia in the context of rapid changes and modernization of administrative traditions, thoughts, and practices. The existing literature has, however, not given adequate attention to these developments, at least in a single volume. The book describes both the shared administrative traditions of Bhutan, Bangladesh, China, India, the Maldives, Nepal, Pakistan, and Sri Lanka, and how far they have adapted their administrative systems to respond to contemporary administrative and governance challenges. The book studies how national civil service reforms have been carried out in each member state of South Asia and how the national civil service acts and different regulations are being implemented, as well as what are the critical factors associated with the implementation

of national civil service acts and reform measures in the region.
