Poor medical writing results from lack of training in writing skills and time to complete the work. The text is designed for medical students and physicians as a reference work or guide to lucid and

pleasing writing. Modes of writing that hinder expression and suggestions for clear and agreeable writing of expository prase are discussed. The illustrative examples are either taken from English litterature, printed verbatim with bibliographic reference, or from medical journals with suppressed references and changes to hinder article identification. Specific topics include editing, revisions, style analysis, dialects and problems in translation, book reviews and setting up a course in medical writing. The most pressing needs of good writing : flexibility, awareness of alternatives, judgement, and conscience, are discussed.

Not only does Tyndale's Answer (1531) provide the missing link between St. Thomas More's Dialogue Concerning Heresies (1529, 1531) and Confutation of Tyndale (1532, 1533), but its newly minted phrases and biblical images, its attack on the Donation of Pepin (AD 754), and its emphasis on feeling faith make it essential reading for scholars and graduate students of English language and literature, church history, and theology. Here in the Foundational Essay, Tyndale takes his position on six major topics: his English translation of the New Testament, Scripture versus tradition, election to glory, the papacy, historical faith versus feeling faith, and religious ceremonies. In the remaining two-thirds of Answer, Tyndale attacks points from each of the four books in More's Dialogue. The introduction to this critical edition of Answer briefly presents the history of its composition and the principles of its theology. The commentary spans fifteen-hundred years of church history from the New Testament to Tyndale's works of polemic and exegesis. Sidenotes from the Whole Works of 1573 show how Answer was received in Elizabethan England,

after the queen had been excommunicated by Pius V in 1570. The glossary alerts the reader to the subtle differences between Renaissance and Modern English, and the indices to Scripture, Jerome, Augustine, Aquinas, Erasmus, More, and Luther provide access to the rich theological background. ABOUT THE EDITORS: Anne M. O'Donnell, S.N.D., is associate professor of English at The Catholic University of America and executive editor of the Independent Works of William Tyndale series. She is the coeditor of Word, Church, and State: Tyndale Quincentenary Essays. Jared Wicks, S.J., is professor of theology and former academic dean of the faculty of theology at the Pontifical Gregorian University in Rome. He is the author of several books, including Luther's Reform: Studies in Conversion and the Church. PRAISE FOR THE BOOK: "In this new edition of Tyndale's 'Answer, ' students of the Reformation will find a wealth of fascinating material; the editors have done their homework, and their explanations of Tyndale's text are detailed, lucid, and admirably fair."--Catholic Historical Review "With their splendid edition of An Answer, Anne O'Donnell, S.N.D., and Jared Wicks, S.J., inaugurate the Independent Works of William Tyndale, a much-needed edition of the nontranslation prose. . . . The Independent Works will make Tyndale's complete oeuvre available in texts that conform to up-to-date editorial standards. They will enable scholars to study a remarkable textual bedrock of exegetical and controversial writings that exerted an extraordinary influence on sixteenth- and seventeenth-century English Protestant theological doctrine, literature, ideology, politics, and history. . . . This book represents a model edition of a text fundamentally important to English Renaissance and Reformation studies."--John N. King, Sixteenth Century Journal "This volume provides the best possible aperitif to sustaining main courses promised in the language, literature, history, and theology scholars have come to link with a remarkable Englishman. . . . A truly objective edition of Tyndale's Answer to Thomas More's damning Dialogue. . . . Sister Anne O'Donnell and Father Jared Wicks have taken endless trouble to assemble the full range of academic apparatus and appendices only to be found in the best critical editions."--Peter Newman Brooks, Journal of Theological Studies "A thorough, authoritative, well-documented and scholarly edition, complete with 'Commentary', 'Glossary' and 'Indices'. It is a major publishing event. Because this edition is also compact, sturdy and handsomely produced, it will easily replace and

Answer as a Man Macmillan

Given that Dr. Mira Markovic is the wife of Serbian president Slobodan Milosevic, perhaps one could have expected from this book a diatribe against the West, a propagandistic tool of Serbian nationalism. If such is looked for, it is not to be found here. For an interpretation of why the multifaceted ethnic and religious Federal Republic of Yugoslavia has broken down into a strife which has baffled Europe and the world - for this reason alone, Answer is worth reading. Mira Markovic laments that the southern Slavic peoples had much more in common, historically and culturally, than that which divides them. She bemoans the fact that the works of Miroslav Krleza can no longer be studied in Serbia and those of Janko Veselinovic and Djure Jaksic in Croatia. She laments the passing of Serbia into nationalism and chauvinism, greed and egoism as opposed to socialism and altruism. She is varying in her levels of criticism of Serbia and the Serbian establishment - but she is at all times critical. This is a book of the Left, and also a critique of the same. With the Left, worldwide, in disarray it is refreshing to read such an eloquent advocate of left-wing ideas and socialism. Those of the old, humane, humanitarian, utopian, justice-seeking Left will find much to reflect on, much to appreciate, much to agree on, and maybe even a cause for hope.

This book is a collection of some 400 physics problems, with hints on their solutions, and answers. The physics covered encompasses all areas studies by final-year (advanced level) students in schools and high schools. The author has concentrated on presenting interesting (and to some extent unusual) problems which can be solved using the physical principles normally taught in advanced school courses. By working through the questions, the student will become adept at selecting and applying physical principles appropriate to any particular problem. Problems for

Physics Students will provide stimulation and practical help not only for those preparing for pre-university examinations in physics, but also for first-year physics and engineering students studying at universities and other institutions offering first-degree courses. Teachers of physics will find this an invaluable sourcebook for ideas to generate discussion, and for unusual problems to stimulate interest.

"Other field researchers, who usually convey their craft only through one-on-one apprenticeships, should follow Whyte's lead and try to create their own vicarious apprenticeships through candid backstage accounts of their judgment calls in the field. . . . This book gives seasoned investigators

an excuse to rethink what they take for granted and to see, step-by-step, how their practice compares with that of another seasoned person. Most people will welcome the chance to do this because of a final characteristic in this book, its even-handed tone." --Journal of Contemporary Ethnography "Useful for a better understanding of the character and promise of ethnographic research." --Journal of Communication "Goes beyond statements of principles to give a realistic picture of problems encountered by the field researcher." --Bulletin de Methodologie Sociologique A highly regarded field researcher tells how he has plied his craft for the past 50 years. William Foote Whyte, in collaboration with his wife, Kathleen, describes the successes--and failures--he has had in studying street corner society in Boston, oil companies in Oklahoma and Venezuela, restaurants in Chicago, worker cooperatives in Spain, factories in New York State, and villages in Peru. With the goal of taking readers into the field with him, Whyte discusses and dissects his chief tools--participant observation and the semistructured interview. He also explains how to evaluate

and analyze field data, why the use of local history in social research is valuable, and the ethics of fieldwork. Whyte focuses on four general problems that have plagued his career as a researcher: *The Logic of Questions and Answers* Springer

A Short Guide to Writing about Social Science Random House (NY)

A clear, concise guide to the tools and techniques of behavioral research, this updated second edition stresses a hands-on, multimethod approach accessible to undergraduates in many fields of study. It covers both laboratory and field experimentation and addresses questions that often confront beginners, such as how to conduct an interview, how to design a questionnaire, and how to make systematic observations of behavior. The book will give students a solid grounding in methods of observation, in experiment and survey design, and in techniques of sampling, statistics, and analysis.
