Report of IPA Grant Activity UM Libraries

Now the TNT Original Series MOB CITY Midcentury Los Angeles. A city sold to the world as "the white spot of America," a land of sunshine and orange groves, wholesome Midwestern values and Hollywood stars, protected by the world's most famous police force, the Dragnet-era LAPD. Behind this public image lies a hidden world of "pleasure girls" and crooked cops, ruthless newspaper tycoons, corrupt politicians, and East Coast gangsters on the make. Into this underworld came two men—one L.A.'s most notorious gangster, the other its most famous police chief—each prepared to battle the other for the soul of the city.

Journal of the House of Representatives of the United States Crown

Responding to recommendations from the Commission on Roles and Missions of the Armed Forces, the Office of the Secretary of Defense (OSD) is investigating opportunities to increase the scope and pace of outsourcing of commercial activities. Outsourcing can reduce the cost of commercial activities directly, by taking advantage of efficiencies found in the competitive private sector, or indirectly, by inducing activities that remain in-house to operate more efficiently. Either way, civil service employees are likely to be displaced, presenting Department of Defense (DoD) managers of the civil service workforce with a range of issues. Accordingly, OSD managers of civil service employees have an interest in predicting and understanding the effects of this intensified examination of DoD outsourcing opportunities. At the request of the Deputy Assistant Secretary of Defense for Civilian Personnel Policy, RAND undertook a study to examine these effects. Findings of the study should be of interest to OSD, service, and defense agency personnel managers, especially those responsible for programs to assist displaced workers and those who have an interest in the cost and productivity of workforces. Managers of outsourcing and cost-comparison

processes should also have an interest in some of the findings. This report was prepared under the sponsorship of the Office of the Assistant Secretary of Defense for Force Management Policy. It was prepared within the Forces and Resources Policy Center of RAND's.

Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals July - December)

Catalog of Copyright Entries. Third Series

This book is an overview of the United States legal system, with a brief introduction to Islamic and International law. The book is divided into six parts. Part I (The Legal System and Crime) introduces the U.S. legal system and the classification of crime. Part II (White Collar Crime) covers cybercrime, crime the old fashioned way, and healthcare fraud. Part III (Homicide) deals with simple murder, serial murder, mass and spree murder; and assassination. Part IV (Special Groups) covers the mafia; the family; the medical, legal, and teaching professions; the religion profession; celebrities; and stupid criminals. Part V (On the Edge) deals with topics I consider to be a bit strange; that is, quackery, innovative defenses, and dangerous cults. And finally, Part VI (Residue) discusses what is left ... capital punishment and crimes against humanity, including terrorism. Throughout the book, to illustrate points, I have used over 300 cases of actual crimes. The names of the people and the facts of the cases used in the discussions of these crimes are taken directly from referenced news reports. The subtitle, Computer Viruses to Twin Towers, reflects the scope of the book; that is, from computer viruses, which cause only aggravation or loss of money, to the deadly terrorist attacks on the Twin Towers of the World Trade Center and the Pentagon on September 11,

2001 that snuffed out almost 3000 lives.
