ROWAN YARELI

The Return of Theory in Early Modern English Studies Penn State Press
Object Lessons is a series of short, beautifully designed books about the

hidden lives of ordinary things. Cropping up everywhere, whether steel latticework or tapered monopoles, encrusted with fiberglass antennas, cell towers raise up high into the air the communications equipment that channels our calls, texts, and downloads. For security reasons, their locations are

never advertised. But it's our romantic notions of connectivity that hide them in plain sight. We want the network to be invisible, ethereal, and ubiquitous. The cell tower stands as a challenge to these desires. Object Lessons is published in partnership with an essay series in the *The Atlantic*.

Against Abstraction Penn State Press
Please note this is a 'Palgrave to Order' title (PTO). Stock of this book requires shipment from an overseas supplier. It will be delivered to you within 12 weeks. In this first study of Latino/a literature to systematically examine the post-Sixties generation of writers, *The Latino/a Canon* challenges the ways that Latino/a literary studies imagines the relationship between art, politics, and the market.
Beyond Deconstruction Routledge

The *Eve of Spain* demonstrates how the telling and retelling of one of Spain's founding myths played a central role in the formation of that country's national identity. King Roderigo, the last Visigoth king of Spain, rapes (or possibly seduces) La Cava, the daughter of his friend and counselor, Count Julian. In revenge, the count travels to North Africa and conspires with its Berber rulers to send an invading army into Spain. So begins the Muslim conquest and the end of Visigothic rule. A few years later, in Northern Spain, Pelayo initiates a Christian resistance and starts a new line of kings to which the present-day Spanish monarchy traces its roots. Patricia E. Grieve follows the evolution of this story from the Middle Ages into the modern era, as shifts in religious

tolerance and cultural acceptance influenced its retelling. She explains how increasing anti-Semitism came to be woven into the tale during the Christian conquest of the peninsula—in the form of traitorous Jewish conspirators. In the sixteenth century, the tale was linked to the looming threat of the Ottoman Turks. The story continued to resonate through the Enlightenment and into modern historiography, revealing the complex interactions of racial and religious conflict and evolving ideas of women's sexuality. In following the story of La Cava, Rodrigo, and Pelayo, Grieve explains how foundational myths and popular legends articulate struggles for national identity. She explores how myths are developed around few historical facts, how they come to be

written into history, and how they are exploited politically, as in the expulsion of the Jews from Spain in 1492 followed by that of the Moriscos in 1609. Finally, Grieve focuses on the misogynistic elements of the story and asks why the fall of Spain is figured as a cautionary tale about a woman's sexuality.

Textual Sublime, The Oxford University Press

An indepth work on the origins of the Merlin of Arthurian legend, this book examines early texts, thirteenth century romances focusing particularly on Merlin as a character, rather than those where Merlin is a background cast member. The outline here starts with looking at the genre and the place of fantasy, moving on to consider the attitudes towards magic and magic-users in

medieval times. Main works considered are Geoffrey of Monmouth's *Historia Regum Britanniae* and *Vita Merlini*; the Vulgate cycle, *Suite du Merlin*; and finally Malory's work. The author asserts that each portrays a different approach to Merlin but all are tied to history and to the Christian religion.

Merlin and Legendary Romance BRILL

Late in his life T. S. Eliot, when asked if his poetry belonged in the tradition of American literature, replied: "I'd say that my poetry has obviously more in common with my distinguished contemporaries in America than with anything written in my generation in England. That I'm sure of. . . . In its sources, in its emotional springs, it comes from America." In *T. S. Eliot: The Making of an American Poet*, James Miller

offers the first sustained account of Eliot's early years, showing that the emotional springs of his poetry did indeed come from America. Miller challenges long-held assumptions about Eliot's poetry and his life. Eliot himself always maintained that his poems were not based on personal experience, and thus should not be read as personal poems. But Miller convincingly combines a reading of the early work with careful analysis of surviving early correspondence, accounts from Eliot's friends and acquaintances, and new scholarship that delves into Eliot's Harvard years. Ultimately, Miller demonstrates that Eliot's poetry is filled with reflections of his personal experiences: his relationships with family, friends, and wives; his sexuality;

his intellectual and social development; his influences. Publication of T. S. Eliot: *The Making of an American Poet* marks a milestone in Eliot scholarship. At last we have a balanced portrait of the poet and the man, one that takes seriously his American roots. In the process, we gain a fuller appreciation for some of the best-loved poetry of the twentieth century.

What is the New Rhetoric? Cambridge Scholars Publishing

The imaginative literature of African and Afro-American authors writing in Western languages has long been seen as standing outside the Western literary canon. In fact, however, black literature not only has a complex formal relation to that canon, but tends to revise and reflect Western rhetorical strategies

even more than it echoes black vernacular literary forms. This book, first published in 1984, is divided into two sections, thus clarifying the nature of black literary theory on the one hand, and the features of black literary practice on the other. Rather than merely applying contemporary Western theory to black literature, these critics instead challenge and redefine the theory in order to make fresh, stimulating comments not only on black criticism and literature but also on the general state of criticism today.

The Un/Making of Latina/o Citizenship
Springer

"The volumes are handsomely produced and carefully edited,... For the first time we have available in an intelligible form the writings of one of the greatest

philosophers of the past hundred years...
 " —The Times Literary Supplement "...
 an extremely handsome and impressive
 book; it is an equally impressive piece of
 scholarship and editing." —Man and
 World

 knowledge alive and relevant.
The Poetics of Aristotle Oxford University
 Press

The constant flow of people, ideas, and commodities across the Atlantic propelled the development of a public sphere. Chapters explore the multiple ways in which a growing urban consciousness influenced national and international cultural and political intersections.

Untimely Democracy Routledge

Queer Writing provides the first full-length study of homoeroticism in Jean Genet's fiction. It shows how the theory of writing elaborated in his work provides a new way to understand homosexual literature, not as the inscription of a stable sexual subjectivity but as the mobilization of a perverse dynamic within the text.

Spectacular Men Bloomsbury Publishing
USA

This collection uses the concept of 'story' to connect literary materials and methods of analysis to wider issues of social and political importance. Drawing on a range of texts, themes include post-colonial literatures, history in literature, old stories in contemporary contexts, and the relationship between creativity and criticism.

Body, Nation, and Narrative in the Americas Indiana University Press

Examining a wide range of source material including popular culture, literature, photography, television, and visual art, this collection of essays sheds light on the misrepresentations of Latina/os in the mass media.

Land's End Springer

The Poetics of Aristotle is the earliest surviving work of dramatic theory and

first extant philosophical treatise to focus on literary theory. In it, Aristotle offers an account of what he calls "poetry". In this reflections Aristotle includes verse drama – comedy, tragedy, and the satyr play – as well as lyric poetry and epic poetry. The similarities and differences are being described in this work.

The Transformative Humanities

Springer

While the field of childhood studies has blossomed in recent years, few scholars have taken up the question of age more broadly as a lens for reading American literature. *Adulthood and Other Fictions* shows how a diverse array of nineteenth-century writers, thinkers, and artists responded to the rise of chronological age in social and political life. Over the

course of the century, age was added to the census; schools were organized around age groups; birthday cards were mass-produced; geriatrics became a medical specialty. *Adulthood and Other Fictions* reads American literature as a rich, critical account of this modern culture of age, and it examines how our most well-known writers registered—and often resisted—age expectations, particularly as they applied to women and people of color. More than simply adding age to the list of identity categories that have become de rigueur sites of scholarly attention, *Adulthood and Other Fictions* argues that these other measures of social location (race, gender, sexuality, class) are largely legible through the seemingly more natural and essential identity defined by

age. That is, longstanding cultural ideals about maturity and development anchor ideologies of heterosexuality, race, nationalism, and capitalism, and in this sense, age rhetoric serves as one of our most pervasive disciplinary discourses. Writers including Louisa May Alcott, Frederick Douglass, and Henry James anticipated the ageism of our moment, but they also recognized how age norms both structure and limit the lives of individuals at all points on the age continuum. Ultimately, the volume argues for an intersectional understanding of age that challenges the celebration of independence and autonomy imbricated in US fantasies of adulthood and in American identity itself. *Shakespeare and Queer Theory* DigiCat Together, the poems of Recalculating

take readers on a journey through the history and poetics of the decades since the end of the Cold War as seen through the lens of social and personal turbulence and tragedy.

Two Lectures Introductory to the Study of Poetry Routledge

Speculative fiction often shows the complicated and rather fraught history of medicine as it relates to black women. Through prominent writers like Octavia Butler, Nnedi Okorafor, and Nalo Hopkinson, Jones highlights how personal experiences of illness and disease frequently reflect larger societal sicknesses in connection to race and gender.

The Eve of Spain Bloomsbury Publishing USA

First published in 1996. Routledge is an

imprint of Taylor & Francis, an informa company.

Shakespeare Studies Today JHU Press

The Romantics invented Shakespeare studies, and in losing contact with our origins, we have not been able to develop an adequate alternative foundation on which to build our work.

This book asserts that among Shakespeareans at present, the level of conviction required to sustain a healthy critical practice is problematically if not dangerously low, and the qualities which the Romantics valued in an engagement with Shakespeare are either ignored these days or fundamentally misunderstood.

The Fantastic Other e-artnow

Contemporary processes of globalization have had a profound impact on cultural

production and dissemination both intra- and cross-culturally. The dissemination of cultures on a global scale has led to multiple and complex effects, among them the formation of radical new modes of cultural interaction, transcultural flows, and hybridized knowledges, forms not easily understandable in terms of traditional models of discrete national or ethnic cultures/subcultures. Transcultural Experiments develops new scholarly and creative strategies out of this intersection of cultural traditions, specifically in Russia and the United States. Ellen E. Berry and Mikhail N. Epstein define and enact a transcultural method as an alternative to the legacies of cultural divisions and hegemony that have dominated both Western and

Second Worlds. The book introduces a system of original concepts and genres of writing that will help in mapping twenty-first century global culture: 'transculture' (vs. multiculturalism), 'interference' (vs. difference), 'potentiation' (vs. deconstruction), ethics of imagination, and collective improvisation. The authors make a revolutionary argument in cultural studies that will be of profound interest to anyone concerned with finding new modes of intercultural communication between the former First and Second Worlds.
