Rock Crystal New York

Review of Books

Why we all deserve a life worth living and a death worth dying for 'Most men don't fear death. They fear those things - the knife, the shipwreck, the illness, the bomb - which precede, by microseconds if you're lucky, and many years if you're not, the moment of death.' When Terry Pratchett was diagnosed with

Alzheimer's in his fifties he was angry - not with death but with the disease that would take him there, and with the suffering disease can cause when we are not allowed to put an end to it. In this essay, broadcast to millions as the BBC Richard Dimbleby Lecture 2010 and previously only available as part of A Slip of the Keyboard, he argues for our right to choose - our right to a good life, and a good death too.

Seemingly the simplest of stories—a passing anecdote of village life—Rock Crystal opens up into a tale of almost unendurable suspense. This jewel-like novella by the writer that Thomas Mann praised as "one of the most extraordinary, the most enigmatic, the most secretly daring and the most strangely gripping narrators in world literature" is among the most unusual, moving, and memorable of Christmas stories. Two children—Conrad and his little sister, Sanna—set

out from their village high up in the Alps to visit their grandparents in the neighboring valley. It is the day before Christmas but the weather is mild, though of course night falls early in December and the children are warned not to linger. The grandparents welcome the children with presents and pack them off with kisses. Then snow begins to fall, ever more thickly and steadily. Undaunted, the children press on, only to take a wrong turn. The snow rises higher and higher, time passes: it is

deep night when the sky clears and Conrad and Sanna discover themselves out on a glacier, terrifying and beautiful, the heart of the void. Adalbert Stifter's rapt and enigmatic tale, beautifully translated by Elizabeth Mayer and Marianne Moore, explores what can be found between Christmas Eve and Christmas Day—or on any night of the year. *The Adventure of the Blue Carbuncle* Routledge Sherlock Holmes, the world's “only unofficial consulting detective”, was

first introduced to readers in *A Study in Scarlet* published by Sir Arthur Conan Doyle in 1887. It was with the publication of *The Adventures of Sherlock Holmes*, however, that the master sleuth grew tremendously in popularity, later to become one of the most beloved literary characters of all time. In this book series, the short stories comprising *The Adventures of Sherlock Holmes* have been amusingly illustrated using only Lego® brand minifigures and bricks.

The illustrations recreate, through custom designed Lego models, the composition of the black and white drawings by Sidney Paget that accompanied the original publication of these adventures appearing in The Strand Magazine from July 1891 to June 1892. Paget's iconic illustrations are largely responsible for the popular image of Sherlock Holmes, including his deerstalker cap and Inverness cape, details never mentioned in the writings of Conan Doyle. This uniquely

illustrated collection, which features some of the most famous and enjoyable cases investigated by Sherlock Holmes and his devoted friend and biographer Dr. John H. Watson, including A Sandal in Bohemia and The Red-Headed League, is sure to delight Lego enthusiasts, as well as fans of the Great Detective, both old and new. In this story Sherlock Holmes and Dr. Watson investigate the curious discovery of a blue carbuncle in the crop of a Christmas goose

abandoned by a man during a scuffle with some street ruffians. Holmes makes a series of deductions concerning the owner of a tattered old hat recovered along with the goose and thus sets out on the trail of the audacious thief who stole the precious stone five days previously.
