Rescuing wild

animals in distress requires a unique set of skills, very different from those used in handling domestic animals. The equipment, degree of handling, the type of caging and level of care a wild animal receives can mean the difference between life and death. Wildlife Search and Rescue is a comprehensive guide on 'best practices' and suggested standards for response to

sick, injured and orphaned wildlife. This valuable resource covers the fundamentals of wildlife rescue, from 'phone to field', including safe and successful capture strategies, handling and restraint techniques and initial aid. Wildlife Search and Rescue is a must have for anyone interested in knowing what to do when they are face to face with a wild animal in need, or for anyone

involved in animal rescue. While the book focuses on wildlife native to North America, much of the information and many of the techniques are applicable to other species, including domestic dogs and cats. Visit www.wiley.com/go/dmytryk/wildlifeemergency to access the figures from the book. *How to Make Stuffed Animals* Quarry Books Learn how to make 18 stuffed animal

assembled into charming animals. All the steps needed to produce each animal are carefully explained. The book is written for adults, but is suitable for children with adult help and supervision. Knitting instructions are provided for several dogs, cats, and rabbits. A pattern for a bear is included. Many of the animals can be made so that they can be posed.
