Crusades covers seven hundred years from the First Crusade (1095-1102) to the fall of Malta (1798) and draws together scholars working on theatres of war, their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology, law, literature, art, numismatics and economic, social, political and military history. Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East. Particular attention is given to the publication of historical sources in all relevant languages - narrative, homiletic and documentary - in trustworthy editions, but studies and interpretative essays are welcomed too. Crusades appears in both print and online editions. In this issue, Jonathan Riley-Smith studies the death and burial of Latin Christian pilgrims to Jerusalem and Acre and Andrew Jotischky studies the Christians of Jerusalem, the Holy Sepulchre and the origins of the First Crusade.

Sonic Encounters with Blanchot is the first book to explore the relationship of sound and music with the work of Maurice Blanchot. The volume brings together scholars from a range of disciplines who listen closely to the sounds and resonances emanating from within Blanchot's work and who consider their significance both within his work and beyond. The latent and explicit sonic content of Blanchot's writing is explored, as is his treatment of music and the possibilities of thinking about

contemporary music and sound art through his work. Although Blanchot is best known for his engagement with literature, an engagement that often relies on visual references and experiences, this collection takes a sonic route into one of the most exciting and demanding thinkers of the twentieth century. As an interdisciplinary exploration of sound and Blanchot's work, this book will be interest to those studying sound in literature and music, as well as students of Blanchot's work in general. This book was originally published as a special issue of *Angelaki*.
A descriptive catalogue of a general collection Routledge
All over the world, in the most varied contexts, contemporary theatre is a rich source for increasing the visibility of communities generally perceived by others as minorities, or those who see themselves as such. Whether of a linguistic, ethnic, political, social, cultural or sexual nature, the claims of minorities enjoy a privileged medium in theatre. Perhaps it is because theatre itself is linked to the notions of centre and periphery, conformism and marginality, domination and subjugation - notions that minority theatre constantly examines by staging them - that it is so sensitive to the issues of troubled and conflicted identity and able to give them a universal resonance. Among the questions raised by this volume, is that of the relationship between the particular and the more general aims of this type of theatre. How is it possible to speak to everyone, or at least to the majority, when one is representing the voice of the few? Beyond such considerations, urgent critical examination of the function and aims of minority theatre is needed. To what kind of public is such drama addressed? Does it have an exemplary nature? How is it possible to avoid the pitfalls and the dead end of ghettoization? Certain types of audience-specific theatre are examined in this context, as, for example, theatre as therapy, theatre as an educational tool, and gay theatre. Particular attention is paid to

the claims of minorities within culturally and economically dominant western countries. These are some of the avenues explored by this volume which aims to answer fundamental questions such as: What is minority theatre and why does theatre, a supposedly bourgeois, if not to say elitist, art form, have such affinity with the margins? What if, particularly in contemporary society, the theatre as a form, were merely playing out its fundamentally marginal status? The authors of these essays show how different forms of minority theatre can challenge cultural consensus and homogenization, while also aspiring to universality. They also address the central question of the place and status of apparently marginal forms of theatre in the context of globalization and in doing so re-examine theatre itself as a genre. Not only do they illustrate how minority theatre can challenge the dominant paradigms that govern society, but they also suggest their own more flexible and challenging frameworks for theatrical activity.

In writing these two ardently romantic and turbulent tales, Stendhal delved deep into old Italian narratives and into his own impassioned heart. "Vanina Vanini" and "L'abbesse de Castro" abound in the qualities for which the French author remains enduringly popular: his strong-willed, impulsive characters; his dry wit and keen irony; and the sweeping drama of his historical settings. Originally published in the *Revue de Paris* in 1829, "Vanina Vanini" traces the fortunes of an aristocrat's daughter who falls in love with a wounded soldier, and prefigures Stendhal's superb novel, *The Red and the Black*, which appeared two years later. "L'abbesse de Castro," published in 1839 under a pseudonym in the prestigious *Revue des Deux Mondes*, was reputedly derived from Roman and Florentine source manuscripts. Consisting chiefly of Stendhal's own invention, it recounts the illicit liaison and subsequent trial of an abbess. The only dual-language edition of these stories, this book features an informative introduction and ample footnotes, making it not only a pleasure to read but also a valuable learning and teaching aid for students and teachers of French literature.

Reflets réciproques: A Prismatic Reading of Stéphane Mallarmé and Hélène Cixous evokes the refractory aspect of a prism that bends and deflects light in order to produce a spectrum of twentieth-century thought emanating from the late nineteenth-century French literary avant-garde. Because the works of Mallarmé and Cixous are often described as hermetic and illisible, Jacques Derrida intervenes to play the role of intermediary through his separate writings on these poets. Important questions arise: How does the elliptical writing of Mallarmé relate to the hyperbolic writing of Cixous? What common strategies emerge

and how do these strategies address the critical areas of sexual difference and political testimony for each writer?
