Bob Jones University is a Christian, fundamentalist, nondenominational liberal arts school in Greenville, South Carolina. BJU was founded in 1927 by Christian evangelist Bob Jones Sr., who was against the secularization of higher education and the influence of religious liberalism in denominational colleges. For most of the twentieth century, BJU branded itself as the "World's Most Unusual University" because of its separatist culture. Many BJU students come from fundamentalist communities and are aware of BJU's strict rules and conservative lifestyle. So why would queer students enroll at BJU? A former queer student of BJU himself, Lance Weldy has come to terms with his own involvement with the institution and has reached out to other queer students to help represent the range of queer experience in this restrictive atmosphere. BJU and Me: Queer Voices from the World's Most Christian University provides behind-the-scenes explanations from nineteen former BJU students from the past few decades who now identify as LGBT+. They write about their experiences, reflect on their relationships with a religious institution, and describe their vulnerability under a controlling regime. Some students hid their sexuality and graduated under the radar; others transferred to other schools but faced reparative therapy elsewhere; some endured mandatory counseling sessions on campus; while still others faced incredible obstacles after being outed by or to the BJU administration. These students give voices to their queer experiences at BJU and share their unique stories, including encounters with internal and/or external trauma and their paths to self-validation and recovery. Often their journeys led them out of fundamentalism and the BJU network entirely.

John A. Matzko's The Best Men of the Bar began as a dissertation defended in 1984. Despite the central importance of the ABA to the turn-of-the-century class stratification of the bar, the accreditation of legal education, the emergence of the "canons" of legal ethics, and the settlement

of the codification controversy with model laws and restatements, no institutional history of the ABA appeared in the intervening years. Literatures have arisen devoted to the entrance of women and African Americans to legal practice in the late nineteenth century, while the internal dynamics of the elite (mostly male and white) bar during the New Deal has received sustained attention. But as of yet, the elite of the bar to which women, minorities, and New Deal progressives were reacting has been relatively neglected. Indeed, *The Best Men of the Bar* presciently offered a number of

arguments that today puts the work right at home in contemporary historiography of America's legal profession, particularly in its focus on the control of legal education and the interconnections between codification and access to the profession. The central argument of the book is one that both anticipates recent literature yet also extends it by disrupting our conventional attempts to describe the elite bar of the Gilded Age and Progressive Era in the United States. While recent studies have challenged the notion of a monolithic classical legal "orthodoxy," *Best Men of the Bar* clarifies the story by dividing the ABA's early history into two periods: one that drew on and was

shaped by the age of reform, and a later period of reaction and retrenchment. This introduction surveys the major historiographical debates about the turn-of-the-century American legal profession to illustrate the power of this argument. One of the recurring themes of the works surveyed within is the slightly embarrassed admission that the Gilded Age bar in many ways countered the trend towards conservatism that developed later in the Progressive Era. - Introduction by Kellen R. Funk.
