A chapter-by-chapter high-quality summary of Kristin Hannah's book *The Four Winds*, including chapter details and an analysis of the main themes of the original book. About the original book: The year is 1921 in Texas. It's a season of plenty. The Great War is over, the land's wealth is abundant, and America is on the verge of a new and hopeful period. But the future appears gloomy for Elsa Wolcott, who is judged too old to marry at a period when marriage is a woman's only option. Until she meets Rafe Martinelli one night and chooses to change her life's path. With her reputation in shambles, she has no choice but to marry a guy she hardly knows. By 1934, the world had changed; millions of people were out of work, and the Great Plains had been decimated by drought. As crops fail, water runs out, and the soil breaks up, farmers are struggling to maintain their land and livelihoods. Dust storms rage over the plains incessantly. Every day is a terrible battle against nature and a fight to keep her children

alive on the Martinelli farm, including Elsa's shaky marriage. In this uncertain and dangerous time, Elsa, like so many of her neighbors, must choose between fighting for the place she loves and leaving it behind to seek a better life for her family in California.

Fig, a sixth grader, wants more than anything to see the world as her father does. The once-renowned pianist, who hasn't composed a song in years and has unpredictable good and bad days, is something of a mystery to Fig. Though she's a science and math nerd, she tries taking an art class just to be closer to him, to experience life the way an artist does. But then Fig's dad shows up at school, disoriented and desperately searching for Fig. Not only has the class not brought Fig closer to understanding him, it has brought social services to their door. Diving into books about Van Gogh to understand the madness of artists, calling on her best friend for advice, and turning to a new neighbor for support, Fig continues to try everything she can think of to understand her father, to save him from himself, and to find space in her life to discover who she is even as the walls are falling down around her. Nicole Melleby's Hurricane Season is a stunning debut about a girl struggling to be a kid as pressing adult concerns weigh on her. It's also about taking risks and facing danger, about love and art, and about coming of age and coming out. And more than anything else, it is a story of the healing power of love—and the limits of that power.

The tale author Tom Madigan tells is the life of an American original, a boy who went from riding dirt bikes in the desert with his father to taking the motocross world by surprise. By the time Hannah retired in 1989, he had collected 70 AMA National wins, seven AMA National titles, a MX des Nations title, and legions of devoted fans. When inducted into the AMA Motorcycle Hall of Fame in 1999, he was second to none in both total and consecutive wins. Richly illustrated, this is the definitive biography of the Hurricane.

"Perspectives on Barry Hannah" is a collection of essays devoted to the work of the award-winning fiction writer Barry Hannah. The anthology features a broad range of critical approaches and covers the span of Hannah's career from "Geronimo Rex" (1972) to "Yonder Stands Your Orphan" (2001). The book also includes a previously unpublished interview with Hannah. The ten essays cover all of Hannah's thirteen published books. The contributors give fresh perspectives on Hannah's classic works ("Airships" and "Ray"), provide illuminating readings of important fiction that has received less critical attention ("Nighwatchmen," "Hey Jack!," and "Never Die"), and offer the first sustained criticism of Hannah's acclaimed later fiction ("Bats Out of Hell," "High Lonesome," and "Yonder Stands Your Orphan"). As Martyn Bone explains in his introduction, the essays--though varied in approach and style--consistently hone in on the recurrent themes that characterize Hannah's career: his relationship to postmodernism; his interrogation of traditional ideas of masculinity and heroism; his complex engagement with southern history, literature, and culture; and his growing concern with spirituality and morality. The essays in "Perspectives on Barry Hannah" make connections between Hannah's work and that of several prominent modern and postmodern authors, including William Faulkner, Ernest Hemingway, James Joyce, Allen Tate, John Irving, J. M. Coetzee, and Cormac McCarthy. Contributors also consider Hannah's fiction in relation to non-literary cultural forms such as sport, film, and popular music. Ultimately, "Perspectives on Barry Hannah" affirms Hannah's status as a leading figure in contemporary American literature. Martyn

Bone is assistant professor of American literature at the Institute for English, German, and Romance Languages at the University of Copenhagen. His previous publications include "The Postsouthern Sense of Place in Contemporary Fiction."

**Hannah's Faith Through The Storm**

Rachel Hanna

The vulnerability of journalists to kidnappings was starkly illustrated by the killing of James Foley and Steven Sotloff by Islamic militants in 2014. Their murder underscored the risks taken by journalists and news organisations trying to cover developments in dangerous regions of the world and has forced news enterprises to more clearly prepare for and confront issues of safety. This book explores the complex organisational issues surrounding the capture or kidnapping of journalists in areas of conflict and risk. It explores how journalists 'becoming news' is covered and the implications of that coverage, how news organisations prepare for and respond to such events, and how kidnapping and ransom insurers, victim recovery firms, journalists' families, and governments influence the actions of news enterprises. It considers how and why journalists are kidnapped, how employers and journalists' organisations respond to kidnappings and why freelancers are particularly at risk as well as suggesting best practices for preventing and responding to kidnappings.

This new edition of "After the Storm" shares the unforgettable story of a 19th-century quilter through some of the most challenging times in American history. This historical novel is told "in her own words" through diary entries and a memoir she dictated to a grandchild shortly before her death. Hannah Applegate Benson Stone weathered many personal storms in her life yet found strength in her family, friends, and her own resilience. Orphaned at four years old during the Civil War and raised by a caring aunt in a small New England farming community, she grew from a frightened child to a confident woman and successful quilt pattern designer. At a time when women had few opportunities available to them, she witnessed and participated in sweeping changes as her small world expanded. This fictional memoir is based on many of the author's own life experiences and those of her family transposed to another time. These "memories" bring Hannah's story to life. Readers will experience for themselves what it was like to grow up without any of the modern conveniences we take for granted and the excitement of discovering one's own abilities and strengths. They will mourn and rejoice with Hannah as she loses her first love but finds new love with her second, in this timeless story of loss and renewal.
