"Powerful . . . equal parts heartwarming and heart-wrenching.

White is a gifted storyteller."

—Washington Post
From the streets of Baltimore to the halls of the New Mexico Philharmonic, a musician shares his remarkable story in *I'm Possible*, an inspiring memoir of perseverance and possibility. Young Richard Antoine White and his mother don't have a key to a room or a house. Sometimes they have shelter, but they never have a place to call home. Still, they have each other, and Richard believes he can look after his mother, even as she struggles with alcoholism and sometimes disappears, sending Richard into loops of visiting

familiar spots until he finds her again. And he always does—until one night, when he almost dies searching for her in the snow and is taken in by his adoptive grandparents. Living with his grandparents is an adjustment with rules and routines, but when Richard joins band for something to do, he unexpectedly discovers a talent and a sense of purpose. Taking up the tuba feels like something he can do that belongs to him, and playing music is like a light going on in the dark. Soon Richard gains acceptance to the prestigious Baltimore School for the Arts, and he continues thriving in his musical studies at the Peabody Conservatory and beyond, even as he

navigates racial and socioeconomic disparities as one of few Black students in his programs. With fierce determination, Richard pushes forward on his remarkable path, eventually securing a coveted spot in a symphony orchestra and becoming the first African American to earn a doctorate in music for tuba performance. A professor, mentor, and motivational speaker, Richard now shares his extraordinary story—of dreaming big, impossible dreams and making them come true.

This is a comprehensive biography of a brilliant musician who forever shaped the course of

ska, reggae, and popular music worldwide, only to take the life of his lover and in so doing, destroy his career at the age of 30. In his short life Don Drummond created an enduring legacy despite poverty, class separation, mental illness, racial politics, and the exploitation of his work. The words of Drummond's childhood friends, classmates, musicians, medical staff, legal counsel, and teachers enliven this story of his "unusual mind." They recall the early days in the recording studio, playing the instrumental backup for Bob Marley and others, and the nights in the Rasta camps where musicians burned the midnight oil and more. They remember the

gyrations of his lover, Margarita, the Rumba Queen, as she tantalized audiences at Club Havana; tell what happened that tragic night when Drummond stabbed Margarita four times; reveal details of the trial (delayed more than a year as Drummond was ruled mentally unfit) and offer insights into Drummond's death in a mental asylum at age 35.

"This biography traces the output of jazz master Charles Mingus--his recordings, his compositions, and his writings--highlighting key moments in his life and musicians who influenced him and were influenced by him. As a young man, Mingus played with Louis Armstrong as

well as with Kid Ory. Mingus also played in bands led by Duke Ellington, Charlie Parker, Lionel Hampton, Red Norvo, Art Tatum, and many others. He began leading his own bands in New York City in 1955. Eric Dolphy, Rahsaan Roland Kirk, Jimmy Knepper, Jackie McLean, Toshiko Akiyoshi, Cat Anderson, and Jaki Byard are among the many distinguished jazz artists who made music with Mingus during the 1950s, 1960s, and 1970s. In addition to leaving behind a large collection of compelling recordings by large and small units, Mingus was also a talented writer. His autobiography, *Beneath the Underdog: His World Composed*

by Mingus, is unlike any other book by a major jazz artist. Mingus creates vivid portraits of the many people who passed through his life and tells his story with compelling prose. Mingus also wrote a good deal of poetry and prose, all of it reflecting his unique vision. In 1977 he was diagnosed with amyotrophic lateral sclerosis. After several months of steady deterioration, he died in 1979 in Mexico"-- Provided by publisher. favorite chair. We may like to think we own them, but in reality, they have the upper hand, uh, paw. Alternately maddeningly aloof and irresistibly affectionate, mysterious yet familiar, they always keep us guessing about their inner motives and thoughts. And just how might a cat express its innermost thoughts? Undoubtedly in haiku, the ancient 17-syllable form of poetry from China and Japan. With clever illustrations in the style of traditional Japanese woodcuts, more than 100 witty "catku" are collected into chapters such as "The Way of the Hunter," "Mind/Body/Spirit," "The Path to Enlightenment," and "The Physical World."

Each one illuminates the Zen-like nature of the cat. The prudence of the hunter: "Stealthy and silent, I stalk birds--but listen for The can opener." The vagaries of the physical world: "Seeking solitude I am locked in the closet. For once I need you." Catku will delight cat lovers who will recognize the feline attitude reflected in these verses and perhaps realize that the so-called lazy cat perched on the back of a favorite chair is really just in deep meditation, seeking the path to enlightenment while composing a few more catku.

This groundbreaking book tells you how to overcome the inner obstacles that sabotage your efforts to be your best on the job. Timothy Gallwey burst upon the scene twenty years ago with his revolutionary approach to excellence in sports. His bestselling books *The Inner Game of Tennis* and *The Inner Game of Golf*, with over one million copies in print, changed the way we think about learning and coaching. But the Inner Game that Gallwey discovered on the tennis court is about more than learning a better backhand; it is about learning how to learn, a critical skill that, in this case, separates

the productive, satisfied employee from the rest of the pack. For the past twenty years Gallwey has taken his Inner Game expertise to many of America's top companies, including AT&T, Coca-Cola, Apple, and IBM, to teach their managers and employees how to gain better access to their own internal resources. What inner obstacles is Gallwey talking about? Fear of failure, resistance to change, procrastination, stagnation, doubt, and boredom, to name a few. Gallwey shows you how to tap into your natural potential for learning, performance, and enjoyment so that any job, no matter how long you've been doing it or how little you

think there is to learn about it, can become an opportunity to sharpen skills, increase pleasure, and heighten awareness. And if your work environment has been turned on its ear by Internet technology, reorganization, and rapidly accelerating change, this book offers a way to steer a confident course while navigating your way toward personal and professional goals. The Inner Game of Work teaches you the difference between a rote performance and a rewarding one. It teaches you how to stop working in the conformity mode and start working in the mobility mode. It shows how having a great coach can make as much difference in the boardroom as on the basketball court--

and Gallwey teaches you how to find that coach and, equally important, how to become one. The Inner Game of Work challenges you to reexamine your fundamental motivations for going to work in the morning and your definitions of work once you're there. It will ask you to reassess the way you make changes and teach you to look at work in a radically new way. "Ever since The Inner Game of Tennis, I've been fascinated and have personally benefitted by the incredibly empowering insights flowing out of Gallwey's self-one/self-two analysis. This latest book applies this liberating analogy to work inspiring all of us to relax and trust our true self." --Stephen R.

Tuba is a vital, yet frequently underappreciated, instrument. In concert band, you don't get to play thrilling sections; instead, you get to tire yourself out carrying it about, and tuba players might be the brunt of band jokes.

The tuba, on the other hand, is crucial to the symphony's sound, providing support and structure to the entire ensemble. The piece will fall apart if the bass line isn't played well. It's a terrific instrument if you have strong arms and powerful lungs.

The Best of Belwin Jazz: First Year Charts for Jazz Ensemble is a collection of twelve outstanding jazz ensemble arrangements for the young player. Each chart is written by experienced educational arrangers and composers in various styles and tempos: swing, Latin, ballad, waltz, holiday and pop. This collection

is written for full instrumentation---five saxophones, three trumpets, three trombones, and four rhythm---but is designed to sound full and complete with reduced instrumentation of three saxes, two trumpets, one trombone and three rhythm. Optional parts are available for flute, clarinet, tuba, horn in F, and baritone T.C. The rhythm section parts offer suggestions for rhythms, piano voicings, and guitar chord frames. All solos are written out in improvised sections.

 Sandy Clyburn,
 (fictitious), was
 orphaned at five,
 during London's 'Blitz',
 1943. He was
 evacuated to Wales for
 the remainder of the
 war, then returned to
 London, to foster
 homes and finally an
 orphanage run by the
 'Skunks', (Shanks) who
 were drunkards and
 gamblers, denying
 their charges their due.
 Leaving school at age
 15 and not wanting to
 remain in London, he
 took an audition for the
 Royal Marines School
 Of Music, Deal, Kent.
 He had no previous
 music study of any
 kind, other than a
 friend who showed him
 some basic march
 drumming, cadet style.

The contract; 3 and 12 years Boy and Man. At his audition he was told, the quota for Band Drummers, (Percussionists), at that time were filled.

However, he agreed to accept a position as Bugler, 'till such time as new Band Drummer positioned opened up, that were frequent throughout the year. (Buglers conscript as Marines, fighting soldiers. RM).

Musicians, non-combatant, Bandsmen, RMB), almost a different service.

Accepting the position of Bugler/Drummer, RM., would put him on the spot, as it were.

The story centers around his trials, tribulations and general struggle to obtain the objective of Musician/Percussionist. Friends help him gain

knowledge and ability in order to transfer. Time was not on his side. Boy Musicians had four years training as opposed to one year for Buglers, who were then shipped to a Division, then a ship or Naval establishment. After graduating as a Bugler, eight months later, much to his surprise, he's granted a six month trial period in order to prove his worth. Stepping back to the move from the School, he allowed himself to be coerced and talked into stealing a clarinet. A friend convinces him that the extra cash would be handy for Christmas leave. His involvement, minimal. An instrument or two, would be stashed in his kit while his back was turned, thereby getting them out of barracks without

notice. The friend, also a Londoner, made arrangements with Sandy to meet and pedal what had been stolen. That was done. Now, with the granting of a six month trial period he was returning to Deal, that would leave approximately sixteen months before reaching age 18 and adulthood. Through the help of the Percussion Bandmaster, who believed in his ability, he performs and solo's Xylophone, at the end of school year, Summer, concert. With just one year to cram, he embarks on a strict practice schedule. February of 1955 is a particular bad winter for an Influenza epidemic and Sandy is admitted into the sick-bay. While there, he's visited by MP's and a

Detective, who were investigating instruments theft during Christmas leave. This investigation also harped back to previous occurrences that went unsolved. Sandy's name came up, and while sick, he was interrogated. He caves in and is Court Martialed.
