The road to hell is paved with good intentions...and tequila, guns, and cocaine in this "rambunctiously entertaining" (Teddy Wayne) debut novel inspired by the author's time as Hunter S. Thompson's assistant. Alley Russo is a recent college grad desperately trying to make it in the grueling world of New York publishing, but like so many who have come before her, she has no connections and has settled for an unpaid magazine internship while slinging drinks on Bleeker Street just to make ends meet. That's when she hears the infamous Walker Reade is looking for an assistant to replace the eight others who have recently quit. Hungry for a chance to get her manuscript onto the desk of an experienced editor, Alley jumps at the opportunity to help Reade finish his latest novel. After surviving an absurd three-day "trial period" involving a .44 magnum, purple-pyramid acid, violent verbal outbursts, brushes with fame and the law, a bevy of peacocks, and a whole lot of cocaine, Alley is invited to stay at the compound where Reade works. For months Alley attempts to coax the novel out of Walker page-by-page, all while battling his endless procrastination, vampiric schedule, Herculean substance abuse, mounting debt, and casual gunplay. But as the job begins to take a toll on her psyche, Alley realizes she's alone in the Colorado Rockies at the mercy of a drug-addicted literary icon who may never produce another novel—and her fate may already be sealed. "A margarita-fueled, miniskirt-clad cautionary tale of lost literary innocence"

(Vogue), Gonzo Girl is a loving fictional portrait of a larger-than-life literary icon.

Originally published in "London Magazine" in 1912, "The Scarlet Plague" is a post-apocalyptic novel by American writer Jack London. The year is 2073 and its sixty years after the 'Red Death' decimated the population of the earth. A survivor called James Smith lives in the San Francisco area, travelling around with his grandsons who live as primeval hunter-gatherers. One day, he recounts his life before the epidemic and tells of how the 'Scarlet Death' came to be. This volume will appeal to lovers of early science fiction and is not to be missed by fans and collectors of London's fantastic work. John Griffith London (1876 - 1916), commonly known as Jack London, was an American journalist, social activist, and novelist. He was an early pioneer of commercial magazine fiction, becoming one of the first globally-famous celebrity writers who were able to earn a large amount of money from their writing. London is famous for his contributions to early science fiction and also notably belonged to "The Crowd", a literary group in San Francisco known for its radical members and ideas. Many vintage books such as this are increasingly scarce and expensive. We are republishing this volume now in an affordable, modern, high-quality edition complete with a specially-commissioned new biography of the author.

Essays that span the career of a prominent anthropologist and address the fundamental questions of the field. *Culture in Practice* collects the academic and political writings from the 1960s through the 1990s of anthropologist Marshall Sahlins. More than a compilation, *Culture in Practice* unfolds as an

intellectual autobiography. The book opens with Sahlins's early general studies of culture, economy, and human nature. It then moves to his reportage and reflections on the war in Vietnam and the antiwar movement, the event that most strongly affected his thinking about cultural specificity. Finally, it offers his more historical and globally aware works on indigenous peoples, especially those of the Pacific islands. Sahlins exposes the cultural specificity of the West, developing a critical account of the distinctive ways that we act in and understand the world. The book includes a play/review of Robert Ardrey's sociobiology, essays on "native" consumption patterns of food and clothes in America and the West, explorations of how two thousand years of Western cosmology affect our understanding of others, and ethnohistorical accounts of how cultural orders of Europeans and Pacific islanders structured the historical experiences of both. Throughout, Sahlins offers his own way of thinking about the anthropological project. To transcend critically our native categories in order to understand how other peoples have historically constructed their modes of existence--even now, in the era of globalization--is the great challenge of contemporary anthropology.

Elise Gravel wants to write a totally drab book; her characters want to let loose. Who's gonna win? Don't take the title as a metaphor: it really is the worst book ever. Governor General Literary Award winning children's book author and illustrator Elise Gravel takes readers on an unexpected journey through the world's most boring book. The story's characters and omniscient readers alike quickly become annoyed by the author's bland imagination and rebel against her tired tropes and stale character choices, spouting sass in an attempt to get her attention and steer the narrative in a more interesting direction. After all, you don't even have to buy the book, but the characters? They're stuck in there for an eternity, and they're going to do their best to make the most of it, or at least have a little fun where they can. As the charming and bizarre true nature of the characters overpowers the dry attributes given to them by the author, this once blasé story quickly picks up speed, transforming the story into something much more unique than originally promised. With Gravel's signature goofy characters behind the wheel, no silly twist or rude body function is off the table!

"Oates is just a fearless writer...with her brave heart and her impossibly lush and dead-on

imaginative powers.” —Los Angeles Times “[An] extraordinarily intense, racking, and resonant novel.” —Booklist (starred review) One of the most acclaimed writers in the world today, the inimitable Joyce Carol Oates follows up her searing, New York Times bestselling memoir, *A Widow’s Story*, with an extraordinary new work of fiction. *Mudwoman* is a riveting psychological thriller, taut with dark suspense, that explores the high price of repression in the life of a respected university president teetering on the precipice of a nervous breakdown. Like Daphne DuMaurier’s gothic masterwork, *Rebecca*, and the classic ghost story, *The Turn of the Screw*, by Henry James, Oates’s *Mudwoman* is a chilling page-turner that hinges on the power of the imagination and the blurry lines between the real and the invented—and it stands tall among the author’s most powerful and beloved works, including *The Falls*, *The Gravedigger’s Daughter*, and *We Were the Mulvaneys*.

**The One Year Love Language Minute Devotional** Odile Jacob

Hans Küng is undoubtedly one of the most important theologians of our time, but he has always been a controversial figure, and as the result of a much-publicized clash over papal infallibility had his permission to teach revoked by the Vatican. Yet at seventy-five he is also something like a senior statesman, one of the 'Group of Eminent Persons' convened by the UN Secretary-General Kofi Annan, and a friend of heads of government like Tony Blair and President Mubarak of Egypt. In this fascinating autobiography he gives a frank and outspoken account of the first four decades of his life. He tells of his youth in Switzerland and his decision to become a priest; his doubts and struggles as he studied in Rome and Paris, and his experiences as a professor in Tübingen, where he received a chair at the amazingly early age of thirty-one. Most importantly, as one of the last surviving eye-witnesses he gives an authentic account of the struggles behind the scenes at the Second Vatican Council, in which he took part as a theological expert. Here it becomes clear just how major an influence he was, to the point of shaping the Council's agenda and drafting speeches for bishops to deliver in plenary sessions. With its rich thought and vivid narrative, Küng's book paints a moving picture of his personal convictions, and his struggle for a Christianity characterized not by the domination of an official church but by Jesus.

**The Scarlet Plague** Random House Childrens Books

A visceral space thriller—perfect for fans of *Arrival* and *The Martian*—following the sole survivor of a catastrophic accident in space that leaves her drifting in the void with only the voice of her

estranged husband, a NASA scientist, to guide her back to Earth. Commander Maryam “May” Knox awakes from a medically induced coma alone, adrift in space on a rapidly failing ship, with little to no memory of who she is or why she’s there. Slowly, she pieces together that she’s the captain of the ship, *Hawking II*; that she was bound for Europa—one of Jupiter’s moons—on a research mission; and that she’s the only survivor of either an accident—or worse, a deliberate massacre—that has decimated her entire crew. With resources running low, and her physical strength severely compromised, May must rely on someone back home to help her. The problem is: everyone thinks she’s dead. Back on Earth, it’s been weeks since *Hawking II* has communicated with NASA, and Dr. Stephen Knox is on bereavement leave to deal with the apparent death of his estranged wife, whose decision to participate in the Europa mission strained their marriage past the point of no return. But when he gets word that NASA has received a transmission from May, Stephen comes rushing to her aid. What he doesn’t know is that not everyone wants May to make it back alive. Even more terrifying: she might not be alone on that ship. Featuring a twisting and suspenseful plot and compelling characters, *Across the Void* is a moving and evocative thriller that you won’t be able to put down.
