Scoring another goal for gender equality, the 2019 Southern African Development Community (SADC) Gender Protocol Barometer breaks with past tradition in focusing solely on Sexual and Reproductive Health and Rights. Measuring 100 indicators across seven themes, the Barometer is the first civil society shadow report on SADC's new SRHR Strategy Score Card, ranking countries based on their performance, while offering detailed analysis and insights into what is changing and still needs to change. The no-hold-barred #VoiceandChoice Barometer features the first stand-alone chapters on Adolescent Sexual and Reproductive Health and Rights, Safe Abortion, and Sexual Diversity. It provides the data that underpins 40 national campaigns led the focal networks of the Southern African Gender Protocol Alliance, and 174 local campaigns led by the Centres of Excellence for Gender in Local Government. A must read for all those committed to Action and Results for Agenda 2030 in the SADC region.

This monthly issue of International Financial Statistics (IFS) is a standard source of statistics on all aspects of international and domestic finance. Information is presented in tables for specific countries and in tables for area and world aggregates. Quarterly issues of this publication provide, for 160 countries, tables with current data (or estimates) on the value of imports from and exports to their most important trading partners. In addition, similar summary tables for the world, industrial countries, and developing countries are included. The yearbook provides, for the most recent seven years, detailed trade data by country for approximately 184 countries, the world, and major areas. This annual publication provides detailed data on transactions in revenue, expense, net acquisition of assets and liabilities, other economic flows, and balances of assets and liabilities of general government and its subsectors. The data are compiled according to the framework of the 2001 Government Finance Statistics Manual, which provides for several summary measures of government fiscal performance. In IFS, exchange rates are expressed in time series of national currency units per SDR and national currency units per US dollar, or vice versa.

IMF Financial Operations 2014 provides a broad introduction to how the IMF fulfills its mission through its financial activities. It covers the financial structure and operations of the IMF and also provides background detail of the financial statements for the IMF's activities during the most recent financial year. This publication updates a previous report entitled Financial Organization and Operations of the IMF, first published in 1986 and last issued in 2001 (the sixth edition). That 2001 report reflected the seismic shifts in the global economy and in the IMF's structure and operations that occurred after the fall of the Soviet Union and the various currency and financial crises of the 1990s. This revised and updated report covers more recent developments, including measures taken in response to the global financial crisis of 2007-09 and the institutional reforms aimed at ensuring that the IMF's governance structure evolves in line with developments in the global economy, as well as reforms to the IMF's income model.

While increasing attention is being paid to the drivers and forms of entrepreneurship in informal economies, much less of this policy and research focus is directed at understanding the links between mobility and informality. This report examines the current state of knowledge about this relationship with particular reference to three countries (Mozambique, South Africa and Zimbabwe) and four cities (Cape Town, Harare, Johannesburg and Maputo), identifying major themes, knowledge gaps, research questions and policy implications.

Participatory Politics and Citizen Journalism in a Networked Africa Routledge

In this accessible and authoritative book, Godfrey Kanyenze provides a comprehensive and far-reaching analysis of the socio-economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence. Kanyenze describes the various phases of the socio-economic development starting with 1980 when the people of Zimbabwe saw their hard-won independence and new democracy as a promise for a "better life for all". Kanyenze highlights how by dismantling all barriers of economic and legal restraint, and that despite being necessary, The land reform programme put the political and financial interests of the elite before those of the people which continues to this day. Kanyenze reveals the governmental attacks on civil society, and notes how economic policy was not even part of an "authoritarian bargain", an implicit arrangement between ruling elites and citizens whereby citizens relinquish political freedom in exchange for public goods. And he concludes this analysis with a current update of Zimbabwe today, where citizens have nothing -neither political freedom nor public goods. This impressive and gripping account of an authoritarian capitalist system and a country in decline is a must-read for students, researchers, policymakers and those who want to better understand how politics and the economy, interests, conflicts, and power work together.

This book focuses on news silence in Zimbabwe, taking as a point of departure the (in)famous blank spaces (whiteouts) which newspapers published to protest official censorship policy imposed by the Rhodesian government from the mid-1960s to the end of that decade. Based on archived news content, the author investigates the cause(s) of the disappearance of blank spaces in Zimbabwe's newspapers and establishes whether and how the blank spaces may have been continued by stealth and proposes a model of doing journalism where news is inclusive, just and less productive of blank spaces. The author explores the broader ramifications of news silences, tacit or covert on society's sense of the world and their place in it. It questions whether and how news media continued with the practice of epistemic deletions and continue to draw on the colonial archive for conceptual maps with which to define and interpret contemporary postcolonial realities and challenges in Zimbabwe. This book will be of interest to scholars, researchers and academics researching the press in contemporary Africa, critical media analysis, media and society studies, and news as discourse.

This book constitutes a systematic and critical assessment of the nature, evolution, and prospects of the development partnership between the 79-member African, Caribbean, and Pacific (ACP) group of states and the 28-member European Union (EU). A core theme that runs through the work is that the ACP's partnership with the EU remains an important framework for addressing development challenges in the African, Caribbean, and Pacific regions, but needs to adapt to changes in the global political economy, as well as internal developments in both the ACP and the EU, to sustain its relevance and effectiveness. This is crucial for the ACP group, in particular, given its origins in, and core focus on, development cooperation with Europe. The authors in this volume examine the history of the ACP-EU partnership since 1975; the EU's relationship with the African, Caribbean, and Pacific regions individually; ACP experiences with economic partnership agreements with the EU; and new political issues, in particular, security, migration, and diasporas. Shedding light on the future prospects of this relationship, this book will be of interest to both scholars and policymakers working on the ACP-EU relationship and related development issues, including trade, aid, security, and migration.

The first single-volume history of Zimbabwe with detailed coverage from pre-colonial times to the present, this book examines Zimbabwe's pre-colonial, colonial and postcolonial social, economic and political history and relates historical factors and trends to recent developments in the country. Zimbabwe is a country with a rich history, dating from the early San hunter-gatherer societies. The arrival of British imperial rule in 1890 impacted the country tremendously, as the European rulers exploited Zimbabwe's resources, giving rise to a movement of African nationalism and demands for independence. This culminated in the armed conflict of the 1960s and 1970s and independence in 1980. The 1990s were marked by economic decline and the rise of opposition politics. In 1999, Mugabe embarked on a violent land reform program that plunged the nation's economy into a downward spiral, with political violence and human rights violations making Zimbabwe an international pariah state. This book will be useful to those studying Zimbabwean history and those unfamiliar with the country's past.

Strategic investment funds (SIFs) have gained prominence over the past two decades as governments and other public sponsors globally have increasingly co-opted the investment fund model to further policy objectives. Since 2000, more than 30 SIFs have been formed at the national level, typically to boost economic growth through infrastructure or small and medium enterprise

investment. In the current COVID-19 pandemic environment, governments have frequently turned to sovereign investment vehicles to address the economic effects of the pandemic, echoing the emergence of new SIFs in the aftermath of the global financial crisis. However, SIFs are not devoid of challenges, and the setup and operation of such funds can be fraught with risks, particularly in contexts of weaker governance, inadequate rule of law, and limited financial market regulation. The

intent of 'Strategic Investment Funds: Establishment and Operations' is to provide guidance to practitioners and policy makers considering a SIF model where little widely available, practice-based experience has been documented and disseminated. The book provides a reference for policy makers who are creating or strengthening the operations of SIFs, particularly as governments examine the value of such funds as a policy instrument in the aftermath of the COVID-19 pandemic.
