## MOON TREVON

---

*Rand McNally Deluxe  
Road Atlas & Travel Guide  
Wide World of Maps,  
Incorporated*  
Hispanics/Latinos are the largest ethnic minority in the United States—but they are far from being a homogenous group. Mexican Americans in the Southwest have roots that extend back four centuries, while Dominicans and Salvadorans are very recent immigrants. Cuban Americans in South Florida have very different occupational achievements, employment levels, and income from immigrant Guatemalans who work in the poultry industry in Virginia. In fact, the only characteristic shared by all Hispanics/Latinos in

the United States is birth or ancestry in a Spanish-speaking country. In this book, sixteen geographers and two sociologists map the regional and cultural diversity of the Hispanic/Latino population of the United States. They report on Hispanic communities in all sections of the country, showing how factors such as people's country/culture of origin, length of time in the United States, and relations with non-Hispanic society have interacted to create a wide variety of Hispanic communities. Identifying larger trends, they also discuss the common characteristics of three types of Hispanic communities—those that have always been predominantly Hispanic, those that have become Anglo-dominated, and

those in which Hispanics are just becoming a significant portion of the population.

Includes entries for maps and atlases.

**Folded Map-Tucson, Metropolitan - Recreational Map** UNM Press

Tucson is a city rich in

architectural heritage spanning three cultures, with a history of human settlement that makes it one of the oldest continually inhabited cities in the United States. Hispanic barrios, American architectural forms, and remnants of a prehistoric Native American past give Tucson a unique and eclectic identity unlike any other city. This book is a comprehensive, richly illustrated guide to Tucson's significant historic and contemporary architectural resources—not only buildings, but ruins, open spaces, landscapes, and other elements that define the city's built environment. It captures all facets of Tucson's architecture, from one-of-a-kind homes on Main Avenue and historic downtown buildings to destination resorts in the Catalina Foothills and other modern structures. In this book readers will find: - walking and driving tours of fourteen areas, complete with maps, beginning with central neighborhoods such as Barrio Historico and Armory Park and moving on to the rapidly expanding outlying areas - annotated descriptions of individual

structures—residences, schools, churches, government buildings, offices, commercial establishments, and others—enhanced by more than 120 photographs - profiles of prominent Tucson architects, including Henry Trost, Josias Joesler, and Judith Chafee - a guide to architectural styles found in Tucson—with examples—and a glossary of terms. A Guide to Tucson Architecture is the only book to offer such an extensive guided tour of one of America's favorite destination cities, capturing both its historic character and its dynamic growth. Through it, readers will appreciate the holistic balance of influences that has created Tucson's unique architectural expression and that defines its modern identity.
