"Working from research conducted over six years with hundreds of charities and donors, 'Donor-Centered Fundraising' paints a candid picture of why donors stop giving to charities they once supported, and what it will take to preserve their loyalty in the future. In clear language and backed by statistical evidence, Penelope Burk explores the pitfalls of our traditional approaches to donor communication and recognition and articulates what donors want but seldom get from the charities they support. The book features straightforward and accessible calculations that show how much money charities are failing to raise, and offers a step-by-step procedure for testing a donor-centered alternative and gaining its acceptance in any organization."--From publisher description.

Many families want to adopt, but do not have the large amount of money it takes to complete a private domestic or international adoption. Some quickly give up the idea of adopting and are left feeling frustrated, overwhelmed, and discouraged. Those who choose to proceed often take out large loans or borrow from family and friends which adds to the financial pressure on the family. Author Julie Gumm shares proven strategies from her own experience as well as from others that include applying for grants, creative budgeting, and fundraising that prospective adoptive parents can use to prepare for and avoid those high costs associated with adoption.

For most schools and organizations, fundraisers bridge the gap between budgets and the money they need in order to operate. Despite the continued rise in childhood and adult obesity and increased attention to humankind's ecological impact, many fundraisers still rely on the sale of high-calorie, low-nutrient foods or ask supporters to become consumers of incidental items and paper products "to support the cause." Healthy and Sustainable Fundraising Activities offers innovative and thoughtful options that raise money for your cause without contradicting the physical activity, health, and ecological messages emphasized in your school or organization. In contrast to traditional fundraisers involving food and incidental products, the ideas in Healthy and Sustainable Fundraising Activities encourage personal, community, and environmental health and reinforce the health and social responsibility initiatives in place in your school or organization. With Healthy and Sustainable Fundraising Activities you'll learn how to involve not just your school or organization but the entire community in health-promoting, environmentally friendly activities. With Healthy and Sustainable Fundraising Activities, you'll find a range of ideas—from ink cartridge recycling to a dance competition—and a unique approach to fundraising sure to energize your students, members, and community to meet and exceed your fundraising goals. For educators, each of the activities outlined in the text is based on National Health Education Standards (NHES) and National Association for Sport and Physical Education (NASPE) standards and 21st-century learning outcomes, making this text a great resource for incorporating the health and wellness initiatives of your school into the fundraising plans for your class, club, sport team, or organization. Activities in the book are grouped according to the level of knowledge, skills, and abilities required for organizing and conducting them. Most activities use similar or commonly used resources often available in a school or organizational setting. You'll find clear and complete explanations in a standard lesson plan format along with the tools and information you need in order to implement each idea. With background information on various types of fundraisers, how these types are categorized, and guidance on scheduling, implementing, and communication, you'll have a full picture of what it takes to complete each event. Get your members and community involved in a project that not only raises money but also gives children exposure to important values such as lifelong wellness, hard work, perseverance, integrity, and civic engagement. Regardless of whether you are new to fundraising or simply searching for new ideas for your next project, Healthy and Sustainable Fundraising Activities offers the tools, information, and inspiration to help you reach your monetary goals in ways that contribute to the health and well-being of your students, members, community, and the environment.

Doing Good Well is a thinking man's guide to the nonprofit world. It is replete with nonprofit paradigms. It provides a different twist to what one might regard as straightforward notions such as mission, staff compensation, governance and corporate social responsibility. And it surprises and challenges even as it seeks to explain charity-specific issues such as charitableness, bridging the rich/poor divide, informed giving and social entrepreneurship. *Donor-centered Fundraising* Hamilton, ON : Burk & Associates Includes the proceedings of the United Foreign Missionary Society.

The total body of papers presented in this volume captures research across a variety of languages and language groups, to show how particular elements of linguistic description draw on otherwise separate aspects (or fields) of linguistic investigation. As such, this volume captures a diversity of research interest from the field of cognitive linguistics. These areas include: lexical semantics, cognitive grammar, metaphor, prototypes, pragmatics, narrative and discourse, computational and translation models; and are considered within the contexts of: language change, child language acquisition, language and culture, grammatical features and word order and gesture. Despite possible differences in philosophical approach to the role of language in cognitive tasks, these papers are similar in a fundamental way: they all share a commitment to the view that human categorization involves mental concepts that have fuzzy boundaries and are culturally and situation-based.
