ASHLEY MALLORY

Sunflower House Capstone

The science projects in this series are easy and fun! Young readers can find the common household elements around the house and then complete the projects at home. No laboratory required! Each simple activity includes how-to photos, easy instructions, and short explanations. Readers will be thinking like scientists in no time! Besides adhering to science standards, this series also includes beginning math principles. For those familiar with the Checkerboard Cool series, this is the "Cool junior" series. Super simple says it all! Super Sandcastle is an imprint of ABDO Publishing Company. *Windows on Literacy Fluent (Science: Earth/Space): Where Do the Puddles Go?* Igloo Books

Targeting across the curriculum: book 3, upper primary.

Water Cycle at Work Evan-Moor Educational Publishers

A water ride like you've never experienced before, featuring the cutest drop of water in all of precipitation. Meet Drop. She's water! And she's seen a thing or two. Yep, even dinosaurs; she's four and a half billion years old, after all. Everywhere Drop flows--and she flows everywhere--she keeps things moving, making life on earth possible, and having a great time doing it. (Have you ever plummeted from a rain cloud? Or took a thousand-year nap in a glacier? Drop knows how to live right.) With delightful panache and a steady stream of funny one-liners, Drop takes readers on an adventure through the water cycle and beyond. Filled with irresistible artwork, funny asides, and a steady sprinkle of kid-enticing facts, Drop is the story about water you never knew you were thirsting for. "Splashy and original." —Kirkus "A stand out from others of its type." —SLC "An endearing, conversational introduction to the water cycle." —PW

The Science Hub-TM Open Book Publishers

It's the Grouchy Ladybug's 20th birthday. This book is a printed edition of the Special Issue "Urban Water Cycle Modelling and Management" that was published in *Water*

Little Raindrop Classroom Complete Press

Experience the earth's water cycle first hand as Ms. Frizzle's class rises into the air, forms a rain cloud and drizzles down upon earth, just like rain!

All the Water in the World Capstone

All the water in the world is all the water in the world. We are all connected by water, and this message is beautifully, lyrically delivered from poet-musician-author George Ella Lyon. Where does water come from? Where does water go? Find out in this exploration of oceans and waterways that highlights an important reality: Our water supply is limited, and it is up to us to protect it. Dynamic, fluid art paired with pitch-perfect verse makes for a wise and remarkable read-aloud that will resonate with any audience. On sale: 03.22.11

Understanding Earth Simon and Schuster

Melvin learns how to deal with disappointment.

Contain engaging activities that will draw in even students who feel they cant do science. Can be used to introduce or reinforce science concepts and vocabulary. Cover a wide range of topics within each broad subject area of biology,physics,chemistry and earth science.

The Grouchy Ladybug Chelsea Green Publishing

In this ingenious study, Kathryn Rudy takes the reader on a journey to trace the birth, life and afterlife of a Netherlandish book of hours made in 1500. Image, Knife, and Gluepot painstakingly reconstructs the process by which this manuscript was created and discusses its significance as a text at the forefront of fifteenth-century book production, when the invention of mechanically-produced images led to the creation of new multimedia objects. Rudy then travels to the nineteenth century to examine the phenomenon of manuscript books being pillaged for their prints and drawings: she has diligently tracked down the dismembered parts of this book of hours for the first time. Image, Knife, and Gluepot also documents Rudy's twenty-first-century research process, as she hunts through archives while grappling with the logistics and occasionally the limits of academic research. This is a timely volume, focusing on questions of materiality at the forefront of medieval and literary studies. Beautifully illustrated throughout, its use of original material and its striking interdisciplinary approach, combining book and art history, make it a significant academic achievement. Image, Knife, and Gluepot is a valuable text for any scholar in the fields of medieval studies, the history of early books and publishing, cultural history or material culture. Written in Rudy's inimitable style, it will also be rewarding for any student enrolled in a course on manuscript production, as well as non-specialists interested in the afterlives of manuscripts and prints. The Royal Society of Edinburgh has generously contributed to this Open Access publication. Due to the number and quality of the images in this book, we have provided the option of a more expensive hardback edition, printed on the best quality paper available, in order to present the images as clearly and beautifully as possible. We hope this range of options — the freely available PDF, HTML and XML editions; the economically priced EPUB, MOBI and paperback editions; and the more expensively printed hardback — will satisfy everyone. Furthermore the HTML edition allows readers to magnify the images of the manuscripts displayed in the book.
